NOTES OF THE DAY.

THE LOCAL HAPPENINGS SERVED IN SHORT PARAGRAPHS.

Minor Events, Retrospective and Prospective, Gathered About the City By Our Alert Reporters.

No meeting of the Chamber of Commerce last night.

This is Washington's birthday, but THE DAY didn't think it in time for a day's rest.

A special to the *News-Observer* announces that Rev. J. T. Gibbs is much better, and entirely out of danger.

Dr. Fort has an advertisement in this evening's DAY. He is refurnishing his office and has added a new gas apparatus for extracting teeth without pain.

Invitations are printed announcing the marriage of a popular Oxford young man to a charming Virginia Belle. Thus the two States are becoming more firmly united in bonds of love.

Parties desiring to have their walls papered or decorated should consult Mr. M. Oppenheimer, who has an advertisement in THE DAY. His work is truly artistic. Give him a call.

The *Greenville Reflector*, edited by a Baptist deacon and a man of clear vision, can't see how Raleigh gets the University, with Duham offering twice as much money. Maybe the *Reflector* will be able to see more clearly after the mist has cleared away.

The following delegates to the State Sunday School Convention have been appointed to represent Granville county, viz: Z. W. Lyon, principal, J. J. Meadows, alternate, C. D. Ray, principal, F. M. Meadows, alternate; R. J. Davis, principal, B. D. Howard, alternate; C. J. Cooper, principal, T. D. Clement and R. T. Smith, alternate; J. S. Hall, principal, W. T. Lyon, alternate. Oxford cannot afford to do without a Female College. It is an absolute necessity. Now is the time, the opportune time, for our people to move and move together. Let the parties who are soliciting stock bestir themselves, or we may lose the opportunity now offered.

Johnston's Vegetable Nolandine, unexcelled as a tonic, liver regulator and blood purifier. For sale by all druggists. The Nolandine Co., Richmond, Va.

Attention Educators!
The locating committee may have played us a bad trick, but there is one establishment in which you can rely without danger of being deceived. We allude to that drug store on Commercial Avenue. Give Furman & Hays a call and see for yourself.

At last accounts, matters were quit at Rocky Mount. The determined attitude of the whites seems to have repressed the bad negro element, and no more fire has occurred. Now if they will ferret out and punish the leaders, there will be no more trouble.

It is announced that on last Wednesday night while the Evangelist Pearson was preaching to a crowded house in Baltimore, he was taken seriously ill. He was some better at last accounts, and will be taken to his home in Asheville as soon as he is able to travel.

Cabarrus county mining people have been thrown into excitement over a very rich gold find in Concord. It is undoubtedly one of the richest ever discovered in that county. The vein divides the town.—*Ex.* Hope the town will be able to stand the division.

Charles E. Cross arrived in the city yesterday morning from his home in Green county, having come to Raleigh voluntarily to surrender himself to the sheriff of Wake county to serve out his sentence in accordance with the law. Both Cross and White are ready to surrender themselves as soon as the case is certified down and the sheriff is authorized to take them in custody, which will be on the first Monday in March. Cross' sentence is seven years and White's is five.—*News-Observer.*

Dudley's Engaging Manners.

Lexington Dispatch.
Col. W. W. Dudley, of blocks-of-five fame, was among recent visitors to Thomasville. He spent several days there and in the mining country adjacent, and went away leaving a very favorable impression on the minds of the people. It is said that his manners are so engaging that a dyed-in-the-wool Cleveland man will forget in five minutes, conversation with him that he had anything to do with the methods by which Indiana was carried for Harrison. It is not known that he made any investment in the county. As he spent a day or two in Greensboro, the papers there take it for granted that his visit had something to do with the iron and steel works. Perhaps it had.

His Mind was Gone.

Mrs. A.—So you say your landlord has been put in the lunatic asylum?

Mrs. B.—Yes, poor man. As I told you, for some time past we have had our suspicions that he was a little out of his head. Last month he had some repairs done to our flats, and he actually rented the rent of one of the tenants five dollars a year. Next day the doctors came and took him away to the asylum.—*Texas Sittings.*

The Charter of Norfolk has been amended, and now Atlantic City is a part of Norfolk.

During the calendar year of 1889, 109,140,917 pieces of coin were executed at the mints of the United States, having a total value of \$58,194,022.

The New Jersey Conference wants to know if ministers can chew tobacco? Of course they can chew, and they have just as much right to spit in the pulpit as the congregation has to locate quids on the floor.

It is said that nearly all the postal clerks and letter carriers who become thieves began by stealing letters addressed to lottery agents. This seems to demolish the theory that there is "honor among thieves."

The Virginia Legislature has passed a bill placing a tax of one cent a pound on all beef offered for sale more than 100 miles from the place it is butchered. The act is aimed specially at Western beef. It also provides that the meat shall be rigidly inspected.

Private letters received from Mexico State that the grip has been more widespread and persistent in its ravages there than elsewhere on the American continent. This has been especially the case among the poorer classes, who live generally in houses which afford no protection against the elements. They have died absolutely like sheep, sometimes 125 a day. Just now the supply of coffins has been exhausted and many bodies have been buried without.

The shipment of iron from Sheffield, Ala., to Pittsburg, is one of the most striking illustrations of the possibilities of the Alabama mineral belt. The opening of the Tennessee river into navigation has given cheap water transportation, and it is altogether likely that within a short time the greater part of the country's supply of the cruder kind of iron will be manufactured in the Tennessee valley. It will then be only a step to begin the work of manufacturing the iron into articles for general use.
