

THE DAY.

PUBLISHED EVERY AFTERNOON (EXCEPT SUNDAY) AT HERNDON BLOCK NO. 1.

M. W. KRONHEIMER, Editor.

Subscription: 10 cents a week. Furnished to city subscribers by carriers, who will make weekly collections. 40 cents per month if paid in advance.

Short communications on live subjects solicited. The editor disclaims any responsibility for opinions expressed by correspondents.

Subscribers not getting their paper promptly and regularly are requested to notify the office at once.

Our advertising rates are very low—for one week, or six insertions, about the same as charged by weekly newspapers for one time. Having a thorough city circulation, and reaching daily a number of post-offices in this and surrounding counties, it is a splendid advertising medium.

Legal advertisements, such as administrator's and executors' notices, commissioners' and trustees' sales, summons to non-residents, etc., will be charged for at legal rates, except when they exceed a certain limit of space, in which case we reserve the right to fix our own price. All such business must be PAID FOR IN ADVANCE. The charge is very small and we cannot afford to take risks or wait the pleasure of persons to pay.

Entered at the Post-Office at Oxford as second-class mail matter.

MORE KICKING.

An interview with John H. Williamson, one of the leading negroes of North Carolina, is published in the *New York Herald*. It covers over a column space, and is a kick against the Republican party from start to finish. We have room for the following extract:

The outbreak of the negroes in Congressman Brower's district—the Fifth—is too strong to be overcome. I am not so well informed as to Congressman Ewart's chances in the Ninth district, in which there are very few negroes, though it is thought he will be defeated. Cheatham, in the Second district, stands a good chance of reelection. It all the Republican candidates in this State are defeated the administration can only blame itself.

I do not believe Harrison will be renominated. If he is he will be badly beaten. The negroes of the whole country believe him averse to doing any thing for them, and thousands of them believe that if the Democratic party North and South would adopt a more liberal policy toward the colored people, and cease the enactment of proscriptive laws against them, the next election would be beyond questions won by that party. While I am a Republican it must not be thought or taken for granted that I will continue to allow inferior white men to insult me and, through me, the colored race, and then receive my support.

Since the Washington interviews of leading negroes some weeks ago, which created such a stir, the persons interviewed are called "kickers." As to that action we have many precedents. It was Blaine's friends who kicked Arthur, and "kickers" elected Grover Cleveland by two hundred thousand majority. The Republicans will in losing the negro vote lose the Presidency in 1892.

I am not in favor of an election law. I see no good which can come out of it. I shall devote my time to endeavors to put an end to political strife between the whites and blacks of my State.

ANOTHER blow at the jute bagging trust, and one that enthusiasts think heralds the final and complete overthrow of the enemy, has been struck by a lawyer of Augusta, Ga., who has perfected mechanical appliances for making bagging from cotton stalks. The machine works satisfactorily, and expert cotton men pronounce the new material the equal of its jute rival.

SENATOR HISCOCK, of New York, has introduced a bill which is being severely criticised and ridiculed. It provides circulation for the national banks of the country, "by deposits of State, railway and municipal bonds, or by first mortgage loans on improved real estate, or storage warrants, or warehouse receipts of pig iron, cotton or wheat."

PRESS DISPATCHES.

THE DAY will begin the publication of press dispatches a in few days.

We will give the most important happenings of the country from midnight to the hour of publication of the paper—4 o'clock in the afternoon. This, together with our local department and the usual State and general summaries, will enable us to lay before our readers in a compact and comprehensive form the latest and liveliest news of the day.

The telegraphic service involves an additional expense to us, which we hope to offset by increasing our number of subscribers. The price of subscription will be as before—ten cents a week, forty cents a month, \$4.50 a year.

"Now is the time to subscribe."

Between Two Fires.

Wilmington Star.

A Chinaman concluded the other day that he would take a stroll across the Niagara bridge and see how he liked Canada. On the other end he was confronted by a custom officer, who demanded the fifty dollars head tax imposed on Chinamen by the Canadian government. He had only ten and was ordered back. He toddled to the American side, where he was confronted by an officer who drew on him the anti immigration act, and in spite of his eloquent entreaties in pigeon English back he had to go. The last seen of him he was midway on that bridge in a brown study as to how he was going to get off without jumping into the surging torrent below.

A Republican's Opinion.

Wilmington Messenger.

The *Chicago Tribune*, leading Republican paper, does not like the McKinley bill. It speaks right out and delivers heavy blows straight from the shoulder. For instance, it says:

"Listening to the appeals of the selfishly interested few, and hearing nothing from too many who must suffer the consequences of jugglery and position, the committee has prepared a bill calculated to strengthen the grip which trusts and trade monopolies have got on the public."
