TERRIBLE CYCLONE.

Numbers of People Killed--Excursion
Boat Capsized.

ST. PAUL, MINN., July 14.—Re-
ports from Little Canada, a village of
three hundred people, seven miles
from here, indicate that a cyclone
struck that place with full force.
Twelve houses were blown down, three
people killed, and eight or ten in-
jured.

Near Lake Gervaine, a widow named
Mullaney and her four children, the
eldest a boy of eleven years, ran to
the shores of the lake when they saw
the storm cloud approaching. The
swift rolling cloud picked up the little
family and in its embrace they were
carried out into the lake and drowned.

Between 4:45 and 5 o'clock the boat-
man at Lake Kollhans met sixteen
row boats, each of which carried from
two to five persons, and only four of
the sixteen have returned.

In a few moments the news was
abroad that an excursion boat with
over two hundred people on it was
capsized in the middle of Lake Pepin.
The boat was the steamer "Sea Wing,"
which came down the lake from Dia-
mond Bluff, a small place seventeen
miles north of Lake City. The work of
pulling in the wreck of the boat was
commenced as soon as it was light
enough to see this morning.

An army of men were employed,
and with the aid of axes and picks, a
large portion of the cabin top was
knocked away at an early hour. At
11 o'clock six bodies were taken
from the cabin, and there are still
more deeper down under the water.

The lake is filled with debris from
the wreck—chairs, boards and life pre-
servers strewn on the beach for a mile
up the lake shore. Hundreds of citi-
zens of Lake City flocked to the shore,
among them many friends and rela-
tives of the missing ones whose bodies
are still beneath the water. The gen-
eral opinion is that the estimate of
the loss of 125 lives will be verified.

ST. PAUL, MINN., July 14.—The
entire village of Vadnais, six miles
north of here, was wrecked by last
evening's cyclone. Not a building
was left standing in sound condition,
most of them being blown to pieces.
Eleven people were instantly killed.

FRESH FROM THE PRESS.

State and General Items of Interest
from Today's Papers.

Anson county endorses Vance.
The running of the first electric
street car in Winston yesterday created
great enthusiasm.

Craven county Democrats, in con-
vention, passed a resolution against
Democrats standing surety on Republi-
can bonds.

A movement is on foot at Winston
to remove large lithographic works
from New York city to that place.
The company will go into an exten-
sive business throughout the whole
of the South.

A special to the News Observer
from Weldon says: The Halifax coun-
ty Democratic Convention composed
of ninety-nine delegates, seventy-seven
of whom were members of the Alli-
ance, passed two sets of resolutions
today endorsing Senator Vance and
his course.

New York, with all its immigration,
has increased only thirty-three per
cent. in the past ten years, says the
Atlanta Constitution. Little or no im-
migration comes South, and yet the
cities of this section are growing rapid-
ly. The average increase of twelve
Southern cities in the past ten years is
182 per cent. There is nothing in the
North like it. In another generation
the complaint will be that the South is
too densely populated.
