

SOMETHING OF OXFORD'S PROGRESS

The Oxford Land, Improvement

—AND—

Manufacturing Com'py.

Was Duly Incorporated May 15th, 1890. Since That Time More Than

\$100,000.00

Worth of Stock Has Been Placed Virtually in the States

NORTH CAROLINA AND VIRGINIA.

IF YOU WANT STOCK BUY NOW!

The Company has to date closed the contracts with the following manufacturing enterprises to begin operations on or before October 1st, 1890, viz:

Knitting Mill, to operate from 100 to 150 hands.

Modern Snow Barn Company, cash capital \$250,000, to operate 250 employees.

These manufacturing enterprises, together with all necessary tenement houses for employees are to be erected without delay on the Company's lands, thereby increasing the value of each individual stockholder's property.

We will not stop short of 2,000 operatives in factories of various kinds on the Company's property.

Five other large manufacturing enterprises are considering the advantages offered them and we take this medium of inviting correspondence with any live manufacturing enterprises who might be induced to move their plants to Oxford. Good railroad facilities and freight rates are guaranteed. Very respectfully,

THE BOOKS MAY CLOSE TOMORROW!

The Oxford Land, Improvement and Mfg. Co.
