Mr. Wallace O'Leary:  
Dear Sir—I feel that I am in gratitude bound to tell you how the Microbe Killer has benefited me. For several years past I have been a great sufferer from indigestion and chronic diarrhoea and general nervous prostration. After having taken two jugs of Wm. Radam's Microbe Killer I find myself restored to health in my nerves and my digestion, and can eat vegetables without suffering any trouble. I most earnestly recommend it to all sufferers in that line as the best remedy I have ever found, and will testify the same to any one who wishes to hear more from me, as I have lived here in this town ten years and have a very extensive acquaintance. Hoping all may be benefited by this truly wonderful remedy, I remain yours truly,  
WM. M. COGHILL.

The machinery is very simple. It consists of a large box in which is two smaller ones, one above the other. In the upper of these smaller boxes is placed the cards with the names of stations, &c., printed on them in bold letters. When the train gets within about a mile of a station it passes over an incline that has been pinned to the cross ties. A rod projecting beneath the train touches the incline and sets in motion machinery connected with a box which rings a bell and displays a card bearing the name of the station just ahead. As the train leaves the station the card is automatically withdrawn and deposited in the box below ready for the return trip.
