The proprietors of the Granville Warehouse are ever swake to the interests of the Farmers. Give them a trial with your fine tobacco and be convinced that our market is equal to any in the State.

Washing with fresh buttermilka second time, it necessary—is high- Bad Legs, Bad Breasts. ly recommended as sure death to lice on cattle.

in each year.

subsoiled to the depth of twelve to the printed instructions. inches, will absorb four inches of Diptheria, Ulcerated Sore Throat water. This is more than usually falls at one time, and thus the bill sides seldom wash away which have well rubbing the Ointment three times a day been deeply plowed, and the level into the chest, throat, and neck of the paland shows no surface water.

in one there may be a hit in another. for the diseases named, or any similar dis-The intelligent farmer lays his plans orders affecting the chest and throat, will find themselves relieved as by a charm. All as much as does the military leader.
He looks shead to see what will make him money; and he don't put all the eggs under one hen, for she might leave the nest, and all would be addled. Farmers should plan

Ind themselves relieved as by a charm. All sufferers from these complaints should envelope the throat at bedtime in a large bread and water poultice, after the Cintment has been well rubbed in; it will greatly assist the sure of the throat and chest. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Cintment will produce perspiration, the grand as much as does the military leader. wisely and carry out their plans to essential in all cases of fevers, sore throats. the best of their ability.

If you want to keep your hogs,

We recommend the cultivation of Indiscretions of Youth-Sores this crop. Prepare your land this month by breaking up with a turning plow and leveling with harrow so as to sow in April. If sown specially as a seed crop, plant in drills about three feet apart at the rate of one-half bushel of seed to the acre, and cultivate by plowing as for drilled corn. If for hay, sow broadcast one bushel to the acre and put a lasting curo. in with brush or harrow. Do not Dropsical, Swellings, Paralysis, cover the seed too deep. Two crops can be raised during the season from the same ground.

and a Cotswold ram. The fleeces of the first cross measured 5 inches Both the Ointment and Pills should in length, and the wool was as fine as the Merino, and as easily combed as that of a Cotwold. The wool of Bad Legs, Bad Breasts, the second cross, as long as that of Burns, the pure Cot wold, was still as fine Bunions, as Merino wool. The carcass of the Caucers, I cross breed sheep makes excellent mutton, and is nearly as heavy as the pure Cotswold. We have frequently alluded to the advantage of Ulcers, this cross, and the interesting example shown at Rochester, proves how United States, surrounds each box of Pills successful and profitable a farmer's and Ointment. A handsome reward will be

We give the following suggestions as to sowing some of the garden erops :

loamy soil, should be liberally ma- pot. nured with barn-yard manure, wood ashes are very useful, should be planted in rows 15 inches apart and ten or twelve inches distant in the Lock Hospital neces trial.

CARROTS prefer a deep, rich. light, sany soil. Sow in drills half inch deep and twelve inches apart, thin out to five or six inches apart in the row. Should the soil become PRACTICE LIMITED TO PRIVATE baked before the plants appears, loosen it by gentle raking.

MEDICINES.

MARK THESE FACTS TH E TESTIMONY FO THE WHOLE WORLD.

Sores and Ulcers.

ALL description of sores are remediable by he proper and diligent use of this inestima-It costs more annually to take the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together in every school district for 6 months in every school district for 6 months. The only rational and successful treatment as indicated by nature, is to reduce the infla-mation in and about the wound and to soothe More depends on the man than on the neighboring parts by rubbing in plenty the farm. The best farmers and of the Ointment as salt is forced into meat.
This will cause the malignant humors to be drained off from the hard, swollen, and disthe most fertile land. The man colored parts round about the wounds, sore, or ulcers, and when these humors are removed, the wounds themselves will soon heal; A new Jersey farmer is credited warm bread and water poultices applied over the affected parts, after the Ointment has been well rubbed in, will soothe and soften beans planted on the edge with the eye down, will come up a week earlier than if planted haphazard."

Ground that has been thoroughly

Ground that has been thoroughly

been well rubbed in, will soothe and soften the same and greatly assist the cure. There is a description of ulcer, sore and swelling, which need not be named here, attendant upon the follies of youth, and for which this Ointment is urgently recommended as a sovereign remedy. In curing such poisonous sores it never fails to restore the system to a healthy state if the Pills be taken according to the printed instructions.

and Scarlet and other Fevers. Any of the above diseases may be cured by tient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth Farmers should have a diversity of crops, so that if there is a failure where the upon the whole system ere its influence can be felt in any local part, whereas the Unitment will do its work at once. Whose ever tries the unguent is at a concept to the unguent in the content of the unguent is at a concept to t ever tries the unguent in the above manner or where there might be an oppression of the chest, either from asthma or other causes.

Piles, Fistulas, Strictures. horses, cattle and sheep healthy, give them salt regularly. There is no better vermifuge than salt. Much of the so-called hog cholera is due to intestinal worms. Plenty of salt would prevent the accumulation of these worms. All animals desire salt, showing that it is a want of their nature and undoubtedly for wise purposes.

Piles, Fistulas, Strictures.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient parts, but it must be well rubbed in for a considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down. where there may be a general bearing down.

> and Ulcers. Blotches, as also swellings, can, with certainty, be radically cured if the Ointment be

and Stiff Joints.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of CROSS-BREED SHEEP.
