FARMER ASKS QUESTIONS.

Startled at the Way Governor Kitchin Neglects His Public Office.

A Granville county farmer asks the following important questions: Question. Did North Carolina ever have a Congressman who left his seat in Congress and drew his salary while an congressing for Governor, creating strife in the party by assailing his opponent, Hon Locke Craig, after years of hard service for Democracy at his own ex-

Ans. Yes, sir, Governor Kitchin did pense: fail to answer 172 roll calls during his last year in Congress—the year in which he canvassed the State for Governor, denouncing Hon. Every man has reasons for the faith that is in him. There is no cause for North Carolina Democrats to fall out over the contest. There are three men running for the office and each has reasons good and sufficient unto himself and his triends on which to base his claims. They are all three men of ability and are among the State's leaders, else they would not have been elevated to the positions of trust and honor which they now occupy.

The Moosette hat is on the market, but it is said few women could be induced to wear such millinery in public. The Richmond Times-Dispatch tells us that "it costs only one bone," so the average sister would never think of wearing it to a cat fight, says the Star.

The elegant display of tasteful fall millinery by our stores Thursday and Friday drew a large crowd of ladies from town and country to the different openings. Many came to look and a large number of them were caught in the toils of beauty and bought hats. The openings from every viewpoint were a complete success.

Major W. H. Bernard an old careful political observer, estimates that \$165.-000 votes will be cast in the senatorial primary, and that they will be divided as follows : Simmons, 90,000; Kitchin, 57,000; Clark, 18,000. This gives Simmons a plurality of 33,000 over his next highest opponent, and a majority of 15,000 over both. The criticism we have to make of these figures is that Judge Clark.

However, we think it is too nice a distinction to say one pupil made 95 and another 951/2 or 96 and accord the one first place and humiliate the other who perhaps by some other teacher might have been graded even higher. For this reason we place all who made an average of 95 per cent or above on honor roll without reference to place or position.
