DID YOU KNOW that the Public Ledger with its 2,500 subscribers offers the best advertising medium between the seller and the buyer in this territory.

OXFORD, N. C., WEDNESDAY, NOV. 20th, 1912.

It is said that High Point has 28 candidates for the postmastership.

The official count shows that Senator Simmons' vote 21,255 was over both candidates. Number of votes cast in the primary were 148,031.

President Taft is going to get busy and hand out all the pie he can before March 4th. He will fill every possible vacancy with Republicans so as to prevent Wilson from putting Democrats in. The Democrats object to this, but it is the natural thing for a Republican President to do.

The purifications of politics may be an iridescent dream, as the brilliant Ingalls once declared, but the people of North Carolina are fair and honest and they are demanding that the men they elect to fill the public offices shall be careful in speech and servants of the people. Directors and bosses are losing their places in our land of the free.

In the opinion of the Washington Herald, Mr. Bryan does not seek a cabinet appointment and would not accept it if tendered to him. The Herald says, "Of course, Mr. Bryan does not want a cabinet position. Thrice candidate for the Presidency, and with a ring-ring hope that even yet his ambition may be realized, Mr. Bryan probably regards a cabinet office as beneath his dignity."

The Cotton Crop.

It is estimated that the probable total production of 4,800,000 bales of cotton in Texas this approximately 4,800,000 bales had been ginned up to November 1st. The picking of the remainder of the crop will be nearly over by December 1st unless work is interfered with by bad weather. On this estimate of the total yield at an average price of approximately \$60 a bale, including the sale of the seed the farmers will realize a total of \$290,000,000.

Hope it Will Be.

It is said that the next North Carolina Legislature will deal largely with ways and means of improving the public roads of the State. There will be numerous plans presented for the consideration of the lawmakers, and they all should be given careful attention and the best one enacted into law. The next Legislature could do nothing better than to go down in history known as the "Good Roads Legislature."

North Carolina Offices.

Among some of the North Carolina jobs that will be ousted from Republicans are two district attorneyships now held by A. E. Holton, of Winston-Salem and H. F. Sewall, of Carthage; collectorships held by George H. Brown, of Statesville, and Wheeler Martin, of Raleigh; two United States marshalships and deputy marshalships galore, and all sorts of smaller jobs under Uncle Sam. Every first, second and third-class postmaster in North Carolina will give way to a Democrat.

Becoming a Corn State.

North Carolina is becoming a corn State. This shows progress along right lines. It shows, too, that the campaign of education that has been carried on to promote corn growing is having its effect. North Carolina had in corn last year nearly 200,000 acres more than she had in 1910, and 400,000 more than she had in 1911. If this rate of increase keeps up for a few more years and with it the general improvements in cultivation methods will soon maintain corn cribs at home, and then will come the smokehouse also.

Henderson Gold Leaf.

The Henderson Gold Leaf is now issued twice a week, and from its improved appearance the citizens of the hustling little city of Henderson can but feel proud of the change from a weekly to a semi-weekly, which brings them in closer touch with passing events and at the same time reveals the thrift and energy of the people of their city as nothing else will, unless it is a daily, and if the business men will give "Mr Way his way" they will soon have it.

For Six Months School.

The determination of the legislative committee of North Carolina Teachers' Assembly to press upon the next Legislature the matter of a specific State tax of 5 cents on the \$100 property valuation, for a fund with which to assure to all public schools in the State six months instead of four months minimum school terms, is stirring considerable discussion of the State's finances. It is estimated that the proposed five-cent tax will raise about \$458,000 and this is about the amount that it is figured will be required to give the 6 months minimum, including the \$375,000 that the State now gives to the schools out of the general fund.

All the Honor Possible.

The Salisbury Post, which supported Gov. Kitchin, says it has no respect for the sentiment which would defeat Senator Simmons for position of honor and leadership in the Senate. Being a Democrat, and a North Carolina Democrat at that, we hope to see him get all the honor possible out of his advantageous position on the most important committee in the Senate. The Post wants to see the party make good in every particular, and we would rejoice to see our own Senator occupying high places in bringing about the relief the party is committed to. As the Chairman of the Finance Committee Mr. Simmons would have splendid opportunity to promote the party's good, and be of incalculable aid in bringing it to a full and complete fulfillment of its pledges.

Benefited Many Who Had Tuberculosis

Those who suffer from Consumption are generally troubled with night sweats, fever, loss of strength and little or no appetite. Fresh air, good food, and the proper care of the body are essential to a recovery, but in many cases something else is needed. Eckman's Alternative is a medicine which has been most successful in stopping night sweats, reducing fever and promoting appetite, and many who have used it, declare it saved their lives. Investigate what it did in this case:—
Gentlemen: For four years I was troubled with cough which gradually became worse; I had night sweats and pains in my chest. I was losing my appetite and had become so thin and weak I could not attend to my household duties. A physician pronounced my case Consumption (not being satisfied, I was examined by the physicians of the Polyclinic Hospital. They also pronounced the disease Consumption, which was proven later by an examination of sputum, as Tuberculosis Bacilli were found. I was ordered to a Consumptive Hospital. My nephew would not allow me to go until I had tried Eckman's Alternative. Before I had taken the medicine three weeks I had marked relief, night sweats ceased, pain in the breast relieved, cough became loose and easy, fever left me and I commenced getting well. My health became normal. I am in excellent health now and have been completely cured for ten years. I strongly recommend it.

Care Ed. Green, 1222 S. 17th St., Phila., Pa. Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in rebuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists

For sale by J. G. Hall.
