Reading notices 5c per type line each insertion.

Says the Washington Post: "A Pennsylvania woman, passing away at 106, is said to have smoked her pipe almost to the last."

Congressman Webb of this State has introduced an amendment to the Sherman anti-trust law which he believes will put "teeth in the statute."

Stop, yes stop, using your desperate energy to try to pull some body down because they don't suit you, and use the amount of energy in helping to build up, and you will feel better.

Wilmington Star says: Why should Senator Overman worry so long as possible opponents are willing to take some other office without taking chances in a race that doesn't look good to even the strongest runners?

Members of the Masonic and Eastern Star Fraternities from all sections of North Carolina attended on January 12th the formal opening of the Masonic Eastern Star Home, which is located at Pomona, three miles west of Greensboro.

Senator Overman has introduced two important bills in the United States Senate. One of the bills would prohibit improper lobbying. The other would refund to the south the unconstitutional tax of sixty-five million dollars that was levied during the Civil War.

North Carolina leaf tobacco markets sold 23,852,030 pounds of tobacco during December. It is believed now that fully 135,000,000 pounds will be sold this year. It is estimated that the crop of tobacco will round up fully twenty million dollars for the tobacco.

Commissioner of Agriculture W. A. Graham announces that North Carolina led the whole country for fourth consecutive year in the amount of cotton raised per acre, the averages being 259 pounds per acre. These figures are from the agricultural outlook published by the United States Department of Agriculture.

The North Carolina Agricultural Department is preparing to make it possible to ship through parcel post packages of fertilizer weighing 10, 20 and 50 pounds. This will be accomplished through issuing State fertilizer tax tags for packages of these weights in addition to the regular hundredweight tax tags. Commissioner Graham expects that there will be a large demand for the small parcel post packages.

One North Carolina Railroad has been in operation five years without an accident. This is the record of the Washington & Vandemere, a subsidiary of the Atlantic Coast Line and operating in Beaufort and Pamlico counties. During the half decade that trains have been run over its 41 miles of track not a single mishap due to the carelessness of employees has been reported, and the road's record is considered very remarkable by railroad men.

**What Effort Amounts Too.**  
Much effort is expended daily that amounts to so little that it is of no more consequence than no effort at all. Effort is necessary for health, for mental, moral and physical

growth, and for results. No man can attain the heights without effort.

The Almighty offers us all one thing on exactly the same basis—Time. For each one of us there are just 60 minutes in the hour. It depends upon ourselves how we spend these precious minutes says a writer.

Before beginning anything it is well to make sure that the thing is worth doing. It may not be worth your while. But if it is, try to do it better than you think any one else could.

Harness your minutes for work. Make yourself useful. Do something worthy of your effort and go about it with enthusiasm if possible. You are yourself the architect of your own fortune. You are going to work out your own destiny. Your whole life should be one good effort to get the best out of life for yourself and those you love.

**The Unchanging Christ.**

Rev. C. F. Sherrill says: The human heart has the same need in all ages of this unchanging Christ. Men commit murder now as did Cain. They lie today as did Ananias. There are men as covetous as Achan; as irreverent as Uzzah; as politic and craven as Pilate; as hard of heart as Nero; as ready to betray the Christ for gain as Judas. The needs of the human heart are the same in all ages; and Jesus is the same in His ability and willingness to meet these needs. He is as ready and able to lift the Mary Magdalenes to a new life; to look in forgiveness upon a penitent Peter; to call a Matthew to a fuller life; to give Saul a larger vision. Christ can yet change a son of thunder to an apostle of love. No changing ages or conditions change the Son of Man, no more than the fleeting clouds change the central sun.

**Senator Weeks Currency Bill**

Senator Weeks in speaking of the Currency Bill says, more confidence in business since the passage of the currency bill is justified, not perhaps from a standpoint of the immediate future, but of the next decade. We must not expect immediate results.

The changes were arranged to be brought about gradually as to produce no disturbance. Reserves will not be finally transferred for three years. The new system is supplementary, not revolutionary. Extent to which it will be used will depend on needs of a locality. In many localities the borrowing demand is much less than the resources of banks and vice versa.

There may be considerable inflation if the system is not wisely administered. Safeguards against inflation are the gold reserve, necessity of depositing against notes commercial paper of standard quality and ability of the reserve board of fixing the re-discount rate high enough to attract attention and produce a modifying effect on business in the minds of all prudent men.

**"Southward Star of Empire"**

Ex-Senator Beverage of Indiana, in an address bathes the Sunny Land in a perfect flood of eloquence as follows:

Southward the star of empire ought now to take its way. The future belongs to the South if the men of the South will only have it so. Southern farm land, under your rare climate, can yield more for the feeding and clothing of the world than any like acreage on the earth, and these fertile fields now give only a small part of the wealth they are meant to give and can be made to give. Southern mines are as rich in iron, coal and other minerals as any on the globe, and these storehouses of usefulness are as yet almost untouched. Southern water power is greater than that of New England or the far Northwest and most of it runs unharnessed to the sea. Southern timber equals the stumps of that of Russia and the greater part of it is still unused.

The place of the South on the map of the world ought to make it the heart of industry and civiliza-

tion. The greatest system of waterways on the globe gathers into a mighty trunk line which pours through the South to find its outlet in the Southern gulf. This vast land protected sea is an ocean in itself, giving to the 'South trade' advantages which, if used, would be unrivaled. The great Panama Canal opens the commerce of mankind to the South more than to any other single part of the republic. From Norfolk, Va., to Galveston, Texas, the South has a chain of seaports, the poorest of which is better than the best German seaport and the best of which is as good as those of England.

And the people of the South are a people of almost pure descent from the first American stock. Theirs is a fighting blood which counts no cost when standing for what they believe to be right. Theirs is a love for that idealism which alone makes prosperity worth while and which alone can save the present-day craze for money getting from rotting the heart of the nation. Theirs, too, is an aptitude for statesmanship and a gift for public thinking coming down from fore fathers whose work in founding the republic is one of the priceless traditions of the American people.

**In Memory of Mrs. Floyd**

On January 3, the death angel visited the home of Mr. and Mrs. R. F. Murray, on West College street, and claimed as its victim Mrs. Mary Ann Floyd, in the 83rd year of her age. She had been in declining health for the last twelve months although never gave up until November, when she was confined to her bed and gradually grew worse until the end came. Mrs. Floyd was known far and wide and many hearts are made sad for truly a good woman has gone to that land from which no traveler returns. She professed faith in Christ in early life and joined the Baptist church and always attended her church as long as she was able to go. She was a good woman, always ready to do what she could especially to visit the sick. Many will miss her tender care and words of comfort in the hour of sickness, and she had done what she could therefore let us be reconciled unto God, who has seen fit to take this good woman from our midst.

Although her children are bowed with grief, yet they weep not as those with out hope, for in that land just over the stars they may some day strike hands with her and sing with the redeemed hosts on high. She leaves behind three children to mourn her loss. They are: Mrs. R. F. Murray, of Oxford; Tom Floyd, of Henderson; A. B. Floyd, of Greensboro. Besides there are a lot of grandchildren.

The remains were laid to rest on Monday the 5th in Elmwood cemetery amid a large congregation of sorrowing friends and relatives. Upchurch & Currin were in charge. If all she had helped and comforted, should on her grave a flower place,

'T would be a garland more lovely, Than any painter's hand could trace.

MRS. SHELBY GREEN.

**Death of Wilma Watkins**

Died Monday evening at the home of her parents, Mr. and Mrs. J. N. Watkins, of Cornwall section, little Wilma age one year and seven months. She was an unusually pretty and attractive baby and a great favorite with all who knew her. Being so much younger than her brothers and sisters, she was made a great pet of by the entire family, who miss her pretty baby ways more than one can realize.

Dear little Wilma is now safe in the arms of Jesus, who said, "Suffer the little children to come unto me, for of such is the Kingdom of Heaven." A FRIEND.

**Daniel-West**

The following invitation has been sent out: "Mrs. Fannie B. Daniel requests the honor of your presence at the marriage of her daughter, Annie Bland, to Mr. Marshall M. West, on Sunday, January eighteen, nineteen hundred and fourteen, at ten o'clock, at home in Granville."
