Wood's Trade Mark

Crimson Clover

Is Best Quality Obtainable, of High Tested Germination and Purity.

Crimson Clover is a wonderful soil-improver; also makes splendid fall, winter and spring grazing, the earliest green feed, or a good hay crop.

A crop of Crimson Clover turned under is equal to a good application of stable manure, and its value as a soil-improver is worth \$20. to \$30. per acre.

Wood's Descriptive Fall Catalog giving full information about **CRIMSON CLOVER, ALFALFA, WINTER VETCH,** and all FARM and GARDEN SEEDS for Fall sowing, mailed on request. Write for Catalog and prices of any Seeds required.

PAYING THE FIDDLER.

(Creedmoor Times)

Mrs. W. O. Flowers and children have returned from a visit to relatives in the eastern part of the state.

Miss Gladdies Medlin, an attractive young lady of Wake county, is the guest of Miss Lacy Wheelers of this place.

Mr. W. F. Lyon, of Northside, carrier on Rural Route 1, was among the business visitors in town last Friday.

Mr. and Mrs. J. O. Veasey, of Timberlake, Hoke county, spent Saturday and Sunday with relatives and friends near here.

Miss Marguerite Moss left last Friday morning for Albermarle, where she will spend some time visiting relatives and friends.

Miss Vida Peed, of Norfolk, Va., who has been spending a two weeks vacation in and around Creedmoor, returned to her home Saturday.

We are glad to report some improvements in the condition of Mrs. I. W. Chappell, who has been right sick for several days at her home in this place.

Mrs. Kenneth Lyon and two children left Saturday for Marietta, Ohio, where they will spend six weeks or more visiting relatives and friends.

Mr. B. G. Rogers has returned from Norfolk, Va., where he spent a few days with Mrs. Rogers and little daughter, Doris, who are at the seashore to their health.

Mr. A. L. Curl arrived in town Saturday night to spend a few days with his family. He will be engaged in the tobacco warehouse business at Ayden, N. C., this season.

Mrs. T. S. Ozlin, of Kenbridge, Va., and Miss Scotia Hobgood, of Kingston, N. C., Mr. and A. F. Morris, of Oxford, were in town Tuesday. Mrs. Ozlin and Miss Hobgood, were visiting their brothers, Messrs. A. E. and A. L. Hobgood.

Mr. J. E. Coley, of Northside, was in town this morning and reports that the storm of Sunday afternoon did not do any perceptible damage to crops in his neighborhood. He says he has the best crops he has had in several years.

Mr. and Mrs. S. C. Lyon and children left last Thursday for a visit of several weeks to relatives and friends in Yadkin and Surry counties. They expect to visit in Booneville, Elkin, Mt. Airy and other points, aside from a stay at Roaring Gap, a mountain resort in that section. They are making the trip in their car.

We are requested by Elder C. F. Emy, the pastor, to announce that owing to meeting of the Lower county Line Association on August 2, and 3rd., that there will be no reaching at Dutchville church on the 1st Sunday. We are also asked to announce that the Dutchville Union will convene with the church at Dutchville the 5th Saturday and Sunday in August.

During the storm Tuesday afternoon lightning struck the feed barn of Mr. S. P. Mangum, of the Mount Energy section and killed a mule, and badly stunning a horse in an adjoining stall. It is thought that the horse will recover. The lightning also set the barn on fire, but it was extinguished before much damage was done. The loss is a right severe one to Mr. Mangum, who is one of our best citizens, a son of Mr. W. J. Mangum, of this place.

This section was visited Tuesday afternoon by the hardest rain that has fell here during the entire spring and summer, the rain was accompanied by a hard wind and much thunder and lightning, also a light fall of hail. Considerable damage was done to the tobacco and corn crops by the wind. Much of the tobacco was badly broken and whipped about and in several fields the hail is reported to have done damage to a considerable extent. The telephone company here suffered a heavy loss in the burning out of the phones, and the switchboard, which was set on fire and was distinguished with difficulty by the operator.

THE SERUM A FAILURE

Apparently the widely advertised serum that was to do such wonders in hog cholera has proved a sad failure. More than \$73,000,000 lost last year in the United States through this disease, and no evidence yet that its ravages are being stayed—these facts point to the necessity for something more efficacious than anything yet put forth as a prophylactic or a cure.

A Professor Carel, of Minneapolis, claims now to have found a remedy for hog cholera which "promises to eliminate the serum treatment for germ diseases in all animal bodies." At two of the leading institutions in this country for the treatment of animals we have been told by those in charge that the serum treatment was being abandoned pretty generally because of its failure to give satisfactory results.

IN THE FUTURE MY OFFICE hours will be from 8:30 a. m. to 1:30 p. m. Office not open on Monday except by special appointment. T. T. FRAZIER D. D. S. 4t

DOG SAVES ELEVEN LIVES

Rover, the children's canine playmate, sounded a fire alarm early in the morning of June 2, at the home of Robert Graham, who lives on Queen street, Southington, Connecticut. After saving the whole family the dog kept faithful guard all day over the ruins of the homestead.

When the fire started, from an unknown cause, Rover was on the back porch. He unlatched the unlocked back door, ran to the bed room of his master and pulled the clothes from the bed. The ten other occupants of the house were in turn aroused by Mr. Graham, some getting out with narrow escapes from suffocation, the building being completely destroyed.

"KINDNESS WEEK" IN KANSAS

The schools in Kansas City, Kansas, have inaugurated the observance of "Kindness Week," apparently with most satisfactory results.

A humanitarian who does not wish her name known, offered a prize of \$5 for the best story on kindness. She then wrote, daily, on pink stationery, a letter to the pupils of the school who were observing "Kindness Week." Each day the pink letter was greeted with cheers, and its rosy message evidently bore good fruit, for at the close of the week some four hundred pupils and twenty pupil-teachers entered the contest, submitting their stories on kindness. The prize was awarded to a little girl.

PRESERVING EYESIGHT

If you wish to preserve your sight and have clear, bright eyes do not strain them by reading or sewing late at night. Working or reading in a bad light, going out in a high wind or rubbing the eyes with the fingers are some of the many causes of tired and inflamed looking eyes.

Bathing with warm water to which a little boric acid has been added to the proportion of a teaspoonful to a pint of water, is an excellent remedy for inflamed eyes.

The best plan is to make a solution of boric acid by pouring a pint of boiling water on one ounce of boric acid crystals. This should be bottled, and if enough warm water is added to a little to make it lukewarm it is ready for use at any time.

After bathing the eyes one should be very, very careful to dry them thoroughly.

STEAMERS WILL PAY \$10,000

In anticipation of the Panama Canal 50 vessels have thus far applied to the surveyor of the port of New York for measurement under the canal rules. Thirty vessels, it was announced today, have already been granted certificates which they will produce whenever they pass through the canal. There is no fee for measurement and foreign vessels can also measure for the canal traffic.

Under the canal rules it will cost the American steamships Kroyland and Finland \$10,725 apiece to pass through the canal or more than \$21,000 for the round trip from New York to the Pacific Coast ports. For a fair sized freighter the tolls will amount to about \$5,000 and for auxiliary motor yacht about \$78. The fees are without regard to displacement tonnage, or to what is contained in a vessel and it is said it may be possible to put through the canal a cargo whose tonnage is three times that of the registered tonnage upon which tolls are charged.

TIME TO SEW TURNIPS

Plant the most of your turnips in August. Planted this month, you will be more likely to make a good crop, because as a rule there is sufficient rain to bring them up and start them off in good shape.

There are a good many varieties of turnips to select from, but for fall planting we prefer the Purple Top Globe and the Snow White Globe. Also the Yellow Aberdeen, which is very hardy and will stand lots of cold weather. The Long White Cowhorn is a very tender, sweet turnip, excellent for home use.

While the Seven Top or salad turnip, may be planted any time up to the middle of October, it is better to sow them early also. They then have time to make a good large root growth and the yield of salad next spring will be correspondingly greater. However, sown in August, it is not necessary to use as much seed as later. A thin stand will produce just as much.

On the whole, we find it more profitable to plant our turnips in the drill than to sow them broadcast at this time. Later we sow quite a good many broadcast, but in August we plant in rows almost entirely so we can cultivate and give them two good workings. They come on faster and produce more, especially if the weather turns dry.

The total mileage of public roads in North Carolina is 48,870. Of this 1,231 3-4 is macadam, 2,219 sand clay 914 miles of gravel, 104 3-4 miles of specially surfaced road such as concrete and bituminous macadam. This makes a total of 4,460 3-4 miles of improved roads in the state.

FREE BOOK ON STOMACH ILLS

Geo. H. Mayr of 154 Whiting St. Chicago, Ill., a prominent druggist, has published a guide to health, in which he shows how he cured himself and brought relief to thousands of other sufferers from constipation, biliousness, indigestion and intestinal troubles by the use of French healing oils. One dose usually convinces. The most chronic cases rarely need over three doses. Any one wanting a copy of this book can get it at the drug store free. Mayr's Wonderful Stomach Remedy is now sold here by

For Sale by Hamilton Drug Company.

Don't Let a Cold Settle on Your Lungs

Many cases of Lung Trouble can be traced directly to a severe cold which has been neglected, and which, as a result, has affected the lungs. If you have a persistent cough or cold, take warning before it is too late. Eckman's Alternative is most beneficial in such cases and has been the means of completely restoring to health many persons who had serious lung trouble. Read of this case—

Pleasantville, N. J.

"Gentlemen: During the winter of 1911 I contracted a severe cold, which settled on my lungs. The doctor pronounced it lung trouble. I tried nearly every preparation without any result and kept getting worse. Eckman's Alternative was recommended to me and I commenced using it as a last resort. The first bottle seemed to give no relief; in fact, I seemed to feel worse, but I kept on using the medicine and found out the first bottle had really started me on the road to recovery by loosening the mucus and making me expectorate freely. After using the medicine for some time my cough ceased, I gained flesh and today I am a well man.

(Signed) GEO. M. BATES.

(Above abbreviated; more on request.) Eckman's Alternative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stomach Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists.

FOR SALE BY J. G. HALL.

DEMOCRAT, BUT NO SAINT

Champ Clark's constituents are loyal to him to the core and his numerous namesakes in Missouri's "Bloody Ninth" are a lasting pledge of their admiration, says the Washington Herald.

One day a proud father carried his sturdy infant to be baptized. The officiating clergyman asked:

"What is this child's Christian name?" expecting the answer to be the name of a saint, as is the custom there.

"Champ, sir," was the ready reply.

"Is this the name of a saint?" soberly inquired the clergyman.

"I think so, sir."

"Has he been canonized?" the clergyman asked.

Mistaking the meaning of the term and fearing it might be some political reflection, the man instantly replied: "Canonized? Never! Champ Clark's a Democrat, eternally."

WHY HE COULD NOT PAY

A preacher, at the close of one of his sermons, said: "Let all in the house who are paying their debts stand up." Presently every man, woman and child, with one exception, rose to their feet.

The preacher seated them and said: "Now every man not paying his debts stand up." The exception, a careworn, hungry-looking, individual, clothed in his last summer's suit, slowly assumed a perpendicular position.

"How is it, my friend," asked the minister, "you are the only man not able to meet his obligations?"

"I run a newspaper," he answered, "and the brethren here who stood up are my subscribers; and—"

"Let us pray," exclaimed the minister.

More than 1,000 tons of Manchurian corn, one of the first shipments to arrive in the United States since the tariff was removed, is held up on the Seattle, Wash., wharves until it can be determined whether the weevil with which it is infested is destructive. The corn was intended to be used for stock feed.

Backache

Miss Myrtle Cothrum, of Russellville, Ala., says: "For nearly a year, I suffered with terrible backache, pains in my limbs, and my head ached nearly all the time. Our family doctor treated me, but only gave me temporary relief. I was certainly in bad health. My school teacher advised me to

TAKE

Cardui

The Woman's Tonic

I took two bottles, in all, and was cured. I shall always praise Cardui to sick and suffering women." If you suffer from pains peculiar to weak women, such as headache, backache, or other symptoms of womanly trouble, or if you rely need a tonic for that tired, nervous, worn-out feeling, try Cardui.
