How to Treat Croup Externally

Rub Vick's "Vap-O-Rub" Croup and Pneumonia Salve well over the throat and chest for a few minutes and then cover with a warm flannel cloth. Leave the covering loose around the neck so that the vapors inhaled may loosen the choking phlegm and open the air passages. Usually one treatment relieves in fifteen minutes. One application at bedtime will prevent a night attack. Vick's will be found better than internal medicines for all inflammation of the air passages from head colds and catarrh down to bronchitis and incipient pneumonia. Three sizes—25c, 50c, and \$1.00.
