A fashion note says girls with large feet are not expected to wear the short skirts that will be all the rage this summer. Well, if fashion is trying to dictate to girls whose feet may be of considerable size, they will defy the dictum in the belief that everybody will overlook their feet.

A New York woman who celebrated her one hundredth birthday the other day got off something new at least in telling how to reach the century mark. She said "go to bed early, get up with the sun, eat simple food, laugh often and heartily, keep cheerful, and stay out of automobiles." The last five words are worth remembering.

President Wilson expresses full confidence in "the great body of calm people of the Nation who serve as stabilizers when the excitable ones try to rock the boat in these perilous days." We hope the calm people are in the majority, but it has not been so long ago that people who should have been the calmest of all were giving us a good imitation of a chicken with its head chopped off.

The "Dutch dare" is a new one to most of us and it was new to Judge Carter until the lady told him; and seeing that he is a man who doesn't take a dare, he didn't. It goes without saying that the "Dutch dare" will be very popular among the men who dare, especially if the lady in the case is good looking. But the thing is loaded. Better beware of the "Dutch dare."—Statesville Landmark.

The announcement from President Wilson that, so far as he can now see, there will arise no contingency, which will necessitate the calling of an extra session of Congress between this and the regular sitting in December, will be received with favor. Congress has already sat sufficiently for the time being, and unless there is some extraordinary development in connection with the war, or the foreign relations of this country, an extra session would be looked upon with disfavor.

TIMES ARE BETTER
Perhaps the people of the United States had better not be so anxious for peace in Europe. At first we were hard hit, but conditions are growing far better. Exports for the first two weeks in March were \$50,000,000 in excess of imports, and exports have been in excess now for many months. Gold is flowing into the country in a steady stream, and many of the American stocks and bonds owned abroad have been bought back. In addition we are lending money. J. P. Morgan & Co. have made large loans in Europe, and we shall, doubtless, be more and more applied to for funds as time goes on. Besides, our sales of war materials are becoming enormous. Russia is contemplating putting orders in this country for \$60,000,000 of supplies. A syndicate is bargaining for a \$10,000,000 loan to Germany on a 6 per cent basis. Switzerland has obtained a loan from us, and Brazil may negotiate one. Bolivia and Uruguay are also seeking money. There are large spring orders for arms and ammunition from half the countries in the world. It seems likely that this country, if the war lasts long enough, will emerge as a creditor nation. Europe will pay us tribute for decades to come, instead of levying tribute on our industries, as in the past.

MOTHER! IF CHILD'S TONGUE IS COATED.
If Cross, Feverish, Constipated, Give "California Syrup of Figs."
A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.
Look at the onguine, Mother! If coated or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipated poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It would be the first treatment given in any sickness.
Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

OUT IN THE "GOLDEN WEST"

The attendance at the Exposition continues to be very large, averaging 70 thousand people a day. This exceeds the admissions at the world's great fair at St. Louis.

A Great Band
A band from Paris, probably one of the finest in the world, plays daily at the fair grounds. There are also two other fine bands, one of them from the Philippines.

Praise From a Poet.
Edwin Markham, author of "The Man with the Hoe," says of the Exposition that "it is the most wonderful thing ever built on earth. Those buildings are the most beautiful structures in the world."

Negroes Object.
A league composed of colored people have tried to prevent the production of the moving picture film, "The Clansman," which they say is a libel upon the negro race. The piece is drawing large numbers of people.

At the Zone
On the Joy Zone at the fair may be seen a kangaroo that boxes a human being and a monkey that nurses a little pig with a milk-bottle; also a girl born without arms who sews and irons, writes letters and operates a typewriter, all with her toes.

The Weather.
Since February, when it seemed to rain almost every day, the weather has been quite uniformly sunny and beautiful. Weather predictions generally fail. One of the papers publishes the predictions of a Chinese

laundryman who has a pet frog. Apparently he is about as accurate as the official forecaster.

The Visitor's Fall.
Beachy, who met his death in the bay, was flying at the rate of three miles a minute when his machine went wrong. He struck the water at the rate of about three hundred miles an hour and his leg was broken when he struck the surface of the bay.
