of Oxford, was celebrated by a picnic. Equip the Man Who Must Master The Difficult Problem of Running a Farm.

> "A farm-life school!" The name sounds well and the thought back of the name is even better than the name itself, says the News-Letter.

A farm-life school as we are trying to have it in North Carolina, is a professional school which attempts to train for life on the farm, and thus to give to the prospective farmer their good works and fidelity to the orphanage work, he urged them to as other professional schools give keep out of politics and pointed out many things that will be of lasting many things that will be of lasting ure, engineering, and many other professions.. What about such a school for the boys and girls in Granville county?

The Subjects Taught

In addition to the subjects taught per. In speaking of the occurrence lum of the farm-life school offers inin the rural high school, the curricustruction in agriculture, sewing. household economics, and many other farm-life subjects of practical,

every-day value. People who begaged the Farmer's Warehouse and lieve that certain subjects should be installed a piano. They had an old studied in order to train the brain fashioned cake walk, a pie eating are coming to believe that it does contest, turkey trot, and bunny train the brain when one studies and hugs, all of which they entered into attempts to master the difficult and intricate problems of the man who is

to run the farm. Helps the Grown-Ups

A farm-life school will present to the farmers of the county the best methods of cultivating crops, the pledge of theirs justifies us in saying Hamme and Wortham will open a splendid results of carefully planned thorough school of music in Oxford, rotations of crops, the use and care as they have had thoruogh training of the latest and best types of farm from some of the most immenient machinery and implements, the care teachers of Leipzig, Berlin and of animals on the farm, and the care of orchards and vineyards. Would

a farm-life school that did these ville county? A Center of Enthusiasm

The farm-life school is destined to be the center of a genuine and spreading enthusiasm that will have a constructive influence upon the and fine growing crops out in the well-tilled fields around the school will be practical lectures on agriculture, lectures so clear and so convinc-
