The Sorehead.
When Grouch comes home, at close of day,
From sawing wood or shucking hay,
He's in a frame of mind,
He roasts the work he has to do,
He roasts the housewife, good and true,
And says things most unkind.

He roasts the grub he has to eat,
He roasts the milk for being sweet,
The slaw for being sour;
And when the meal is done he sits
In gloomy state, and throws some fits,
And growls hour after hour.

The baby laughs and makes him mad.
The children worry poor old dad,
He knows where there's a club!
The wife goes round with weary tread
And wishes she had never wed
That sort of dismal dub.

Awiser man is Billiam Dunn,
Who, when the long day's work is done,
Goes home in cheery mood!
He chortles and he cries: "Gee whiz!
How good this nifty supper is,"
As he throws in the food.

The children greet him with a yell!
They love their daddy passing well,
And he loves them some more!
His wife's been waiting for a while
To give him welcome and her smile
Is wider than the door.

The humble home where gladness dwells,
Where kind eyes smile and laughter swells,
Is heaven, simmered down!
But home is like the other place
If on disgruntled father's face
There hangs a chronic frown.
—Watt Mason.

The Best Date to Sow Wheat
As an average of two years results in sowing wheat at different dates at the Iredell Test Farm near Staesville it has been found that seedings made during the latter part of October yielded 52 per cent greater yield of grain than did seedings made during the first part of December when other conditions were made the same as nearly as possible. This per centage in yield was equivalent to an average increase of the two years tests of 8.7 bushels per acre. These results certainly emphasize the importance of seeding the wheat in the Piedmont Section during the latter part of October or as soon as possible after a light frost has occurred.

Before he could carry out a threat to kill his wife, several members of his family and himself, Garnett Nolan, 34, a farmer living twenty miles south of Yazoo City, Miss., was shot and killed by his sister-in-law, Mrs. R. Strong, at his home Saturday night. Good for Mrs. Strong.

Colds
should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

THEDFORD'S BLACK-DRAUGHT

the old reliable, vegetable liver powder.

Mr. Chas. A. Ragland, of Madison Heights, Va., says: "I have been using Thedford's Black-Draught for stomach troubles, indigestion, and colds, and find it to be the very best medicine I ever used. It makes an old man feel like a young one." Insist on Thedford's, the original and genuine. E-67
