SUFFRAGISTS CERTAIN OF DEMOCRATS' HELP

Leaders Resent Efforts to Have Them Support Hughes.

WON BY WILSON'S SPEECH.

"I Have Come Here to Fight With You," He Tells National Convention. "Wilson Voted For Suffrage; Has Hughes?" Mrs. Graham of Idaho Asks.

Western women who have had the ballot equally with the men for several years resent the interference of one of the factions of suffragists and the attempt to turn the suffrage cause into an adjunct of the Republican party. They believe they know how to vote, and they refuse to turn against the Democrats, who have done so much for their cause in their respective states.

This attitude is brought out clearly in an interview by Nicola Greeley-Smith, nationally prominent as a writer on the staff of the New York World, with Mrs. Alexander Thompson, Democratic national committeeman from Oregon, and Mrs. Theresa M. Graham of Coeur d'Alene, Ida.

"One would think," observed Mrs. Thompson to Miss Greeley-Smith, "that if any instruction in suffrage matters had to be given it would come from the women who have won the vote and do vote rather than from suffragists in the east, who are still disfranchised. I am a young woman, but I have been through three campaigns for the vote in Oregon. In the final campaign we won through the co-operation and help and belief in us of the men of Oregon.

Aided by Democrats.

"We have been voting only five years, and we are still grateful to our men. So when the Congressional Union sent speakers to Oregon to tell us to vote against all Democrats we laughed at them. Why, at the last election they campaigned against George E. Chamberlain, who introduced the first suffrage bill in Oregon and who had been the friend of the women all through their fifteen years' fight."

"I agree with every word that Mrs. Thompson has spoken," declared Mrs. Graham, proxy member of the notification committee from Idaho. "The conditions in my state are the same as in Oregon, except that we have had the vote for twenty years, and it was given to us without our having to fight for it. The Congressional Union has speakers in Idaho now urging us to slaughter the Democrats and free our sisters in the east. How silly that is! Are women in the east so foolish as to be led away by the mere declaration of a candidate, unsupported by his party, that he's personally in favor of a federal amendment?"

"Woodrow Wilson voted for suffrage. Has Charles E. Hughes ever voted for suffrage? Wilson has done everything consistent with a belief in state rights, one of the fundamental principles of Democracy. Suffrage can never win as a partisan issue. Alienate the Democrats en masse and you have killed every chance suffrage has."

Won by Wilson's Speech.

It is admitted by suffragists that their cause has been helped greatly by the speech President Wilson made before the convention of the National Woman Suffrage association at Atlantic City on Sept. 8. When the president told them he had "come here to fight with you" the 4,000 suffragists gathered in Nixon's theater arose and cheered him enthusiastically.

This pledge by the president led Mrs. Carrie Chapman Catt, president of the association, to say:

"You touched our hearts and won our fealty when you said you had come here to fight with us."

"The astonishing thing about this movement," said President Wilson, "is not that it has grown so slowly, but that it has grown so rapidly. I get a little impatient sometimes about the discussion of the channels and methods by which it is to prevail. It is going to prevail, and that it is a very superficial and ignorant view of it which attributes it to mere social unrest. It is not merely because the women are discontented; it is because the women have seen visions of duty, and that is something which we not only cannot resist, but if we be true Americans we do not wish to resist."

"I have felt as I sat here tonight the wholesome contagion of the occasion. Almost every other time that I ever visited Atlantic City I came to fight somebody. I hardly know how to conduct myself when I have not come to fight anybody, but with somebody."

"I have come to suggest, among other things, that when the forces of nature are steadily working and the tide is rising to meet the moon you need not be afraid that it will not come to its flood. We feel the tide; we rejoice in the strength of it."

THE METHODIST CONFERENCE

Bishop John C. Kilgo Will Preside at Durham

Addresses by some of the prominent ministers and laymen of the Southern Methodist Church are featured that are now being arranged by the committee in charge of the program for the annual North Carolina Methodist Conference, which will convene at Memorial church in Durham Wednesday, December 6.

Bishop John C. Kilgo, of Charlotte, will preside. An attendance of about 400 delegates and ministers is expected.

Among the most prominent men who will deliver addresses will be Dr. George Stewart, of Memphis, Tenn.; Dr. John R. Pepper, of Tennessee; Dr. W. F. McMurray, of Louisville, Ky., secretary of the board of the church extension of the South and others.

There will be four candidates for admission to the conference from the Durham district. They are Rev. Messrs. E. W. Glass, B. F. Boone, L. M. Hall and D. E. Earnhardt.

This is the fourth North Carolina Methodist conference to be held in Durham and the first one to convene at Memorial church.

It Gives You Pulling P-O-W-E-R!

The weakest link determines the strength of a chain. So does the traction determine the pulling power of a tractor. All the power of a tractor must be transmitted through the ground before it can be used for pulling.

The Bates Steel Mule uses a Crawler instead of a wheel because the ground surface varies so much that a wheel does not give as much pull as it should. The motor puts the power into the driving means, which in turn grabs hold of the ground and pulls the load.

These Pictures Tell The Story

The Bates Steel Mule

Fully Covered by Patents Reg. U. S. Pat. Off.

Small Pulling Surface These Three 14" Plows Must Tear Up 42" Of Ground 8" Deep A Wheel Lacks Traction—It Slips and Loses Power

Large Pulling Surface These Three 14" Plows Must Tear Up 42" Of Ground 8" Deep The "Crawler" Has Plenty of Grip to Pull With

One lug on a drive wheel tractor may pull 3,000 lbs. on hard ground, but a soft spot may need two lugs; a sandy spot, four; a wet spot, eight. With only one lug pulling on hard ground a drive wheel tractor may pull 3,000 lbs.; on a soft spot, 1,500 lbs.; on a sandy spot, 800 lbs.; and on a wet spot only 400 lbs.—giving an average pull of 1,400 lbs. instead of 3,000 lbs. average pull as it would with a Crawler Tractor.

The Crawler

has enough lugs on the ground to deliver its power under all working conditions. No matter if it needs one or ten lugs, the Crawler of the BATES STEEL MULE is able to meet the emergency. The high average pull is what makes the BATES STEEL MULE one of the most popular light tractors made, and why the friends of thousands of satisfied owners are ordering BATES STEEL MULES for themselves.
