Old Time 'Possum Hunt

An old time 'possum hunt was enjoyed last Monday night by ladies and gentlemen of a party of 17. Mr. B. W. Butler, that good old jolly fellow was the foreman, and the party was chaperoned by Mesdames T. E. Crutcher and Richards. The party had not been out long until the dogs treed a nice large fat one, and Mr. C. T. Hester desired to have the honor of catching the first one with his bare hands, so he suggested that they let him climb the tree, which was readily agreed to by all. However he had not gotten very far up the tree when he changed his mind and came down and agreed that the tree should be cut down. After several hours of hunting the party returned, each and all saying that they had had a most pleasant evening's enjoyment.

Special Service at Amis Chapel

Quite a large crowd gathered at Amis Chapel last Sunday for the special missionary rally held by the woman's missionary society of that church. The recitations and talks were very timely and interesting and will result in a great deal of good among the members of this church. The church was beautifully and tastily decorated for the occasion. A silver offering was taken for missions.

We learn that Mr. John P. Williams has sown 15 bushels of clover and 30 bushels of rye.

The Circus Coming

There will be a big circus in Oxford Thursday, November 9th and we expect a large crowd to go from here. It will be a good show. The writer has attended it many times. Guess it would be the very best time to drop in the Public Ledger office and subscribe for our good old county paper and get the news twice-a-week, it would also be very nice to hand the editor that back dues on the paper, too. Let's do that and feel good after doing so.

All Pull Together

The Fair at Oxford has the praise this time. Let's make it the best fair in all the counties, why not? Everybody pull together and we can.

Candidates at Stovall

When the Candidates reached Stovall they met a hearty welcome and when the 7th of November arrives they will receive a warm welcome at Stovall. Some one wrote up just what I expected to say, but I am not fussing at that.

Chalmers Success Is No Surprise

IT WAS A CERTAINTY that the Chalmers combination of a high grade car, manufacturing ability, and distributing organization could have but one result.

THOUSANDS OF MOTORISTS were ready to buy a quality six-cylinder car at about \$1,000. They wanted style, beauty, performance. They did not want unnecessary size, or costly operating expense.

HENCE THE INSTANTANEOUS WELCOME that greeted the Chalmers Six-30. There was an irresistible appeal in its marvelously smooth and velvety engine, its almost unbelievable "pick-up," its luxurious riding qualities, its economical up-keep.

THAT IS THE REASON WHY Chalmers business is constantly growing. That is why it was necessary in the last few months to build new buildings, lay new railway tracks, add to the already enormous manufacturing facilities. That is why the output has increased from 500 four-cylinder cars of the first Chalmers model in 1908 to nearly 30,000 high-grade six-cylinder cars for the current year.

THE CHALMERS COMPANY ENTERS ITS GREATEST YEAR with an unusual car. Large production and a splendidly equipped factory insure the continuance of a quality car at a quantity price.

WHAT MR. TAFT THINKS OF PRESIDENT WILSON.

This is no time to point out mistakes of the past. This is no time, by attacks upon the general in command, to give the idea that our commander has not a united people behind him.

We are fortunate in having kept out of the present European war, and we ought to support the administration in keeping us out. If we had a jingo in the White House this country would now be at war with Germany.

He (Wilson) is not a Democratic President. He is our President. He is first an American, the same as we are. We must all be Americans first.

—Ex-President Taft.

Who has put up the price of cotton to such an unprecedented figure? The Republicans? Have they done this to defeat Wilson?

Charles C. Healey, chief of police of Chicago, has been indicted by the grand jury on two charges—the first accusing him of malfeasance in office and the second accusing him of being one of three conspirators in a plot to nullify the city's anti-gambling laws. William Luthardt and Charles T. Essig are named as the other conspirators. The men were placed under bonds of \$20,000 and \$10,000 each, respectively.

WEALTH THAT WORKS

Money saved and deposited in a bank is wealth that works. Wealth that works is capital. Unlike brain and muscle, it does not wear out or deteriorate. It grows and improves.

The only gain from labor is what is saved. Labor, therefore, makes wealth and when wealth works it is capital.

Capital at work pays wages, which when saved, creates more capital. Labor is the producer when labor saves.

Savings bring independence. A savings bank is a public servant.
