"They do more than please your taste—they satisfy!"

That's why Chesterfields are like a good cup of coffee—they taste fine and, in addition, they satisfy!

But, besides letting you know you've been smoking, Chesterfields are MILD, too!

Chesterfield is the one cigarette that can give you this new delight (satisfy, yet mild), because no cigarette maker can copy the Chesterfield blend—an entirely new combination of tobaccos and the greatest advance in cigarette blending in 20 years.

As It Used To Be (Hugh McQueen, 1838)

Every unfledged nestling in politics turns with an eye of solicitation to a seat in the state legislature. Every politician of mature age, whose character is not in a positive degree insufferable, is looking forward with tumultuous eagerness to a place in the hall of national representatives, to a situation in one of the cabinet departments, or in the diplomatic service of the country.

Every decent citizen is panting for some post of public preferment and profit, those who have not been sufficiently fortunate to obtain any other post are posting their way with a provident share of speed to the Republic of Texas.

Politics, indeed, appear to swallow every other interest and the whole surface of the earth seems covered with politicians as Egypt once swarmed with locusts.—Extract from University Address in 1838.

WEALTH THAT WORKS

Money saved and deposited in a bank is wealth that works. Wealth that works is capital. Unlike brain and muscle, it does not wear out or deteriorate. It grows and improves.

The only gain from labor is what is saved. Labor, therefore, makes wealth and when wealth works it is capital.

Capital at work pays wages, which when saved, creates more capital. Labor is the producer when labor saves.

Savings bring independence. A savings bank is a public servant.
