

HOW TO BE RID OF CHRONIC DANDRUFF

The only way to be permanently rid of disgusting, untidy dandruff is to correct its cause. Destroy the dandruff germ and get rid of dandruff for good by rubbing a little of the genuine Parisian Sage directly on the bare scalp until absorbed. You will surely be amazed at the result of even one application.

Only a few days massage with Parisian Sage are needed to destroy the germs that cause the dandruff to form. The scalp becomes healthy, the hair will grow better, show more life and vitality, and you need never be troubled by dandruff again. Faded, dull or lifeless hair is quickly restored to beauty by this treatment, which is absolutely harmless.

Parisian Sage can obtain from all drug stores everywhere. It is not expensive.

Governor of the State. (Smithfield Herald)

Ever and anon some one comes to the fore with some one whom he desires to present as a candidate for Governor claiming that he is from the East or the West, and that the East or the West is entitled to name the Governor at that particular time. When North Carolina chooses a Governor he is chosen Governor of the whole State and not Governor of any section, and for that reason it should make no particular difference as to what section he hails from, so he be the best qualified man for the position. Let fitness be the first consideration when we come to choose our Chief Magistrate, and let the section he comes from be a secondary matter.

NOTICE OF ADMINISTRATION
Having been appointed by the Clerk of the Superior Court of Granville County as Administrator upon the estate of Martha Anne Daniel deceased, I hereby notify all persons holding claims against said estate to present the same to me for payment on or before the 27th day of January 1917, or this notice will be plead in bar of their recovery.

All persons indebted to said estate are requested to make immediate settlement. This January 26th, 1917. S. T. DANIEL, Administrator of Martha Anne Daniel, deceased. Jan 27

EAT WITHOUT FEAR INDIGESTION OR SOUR, ACID STOMACH

Instant relief! "Pape's Diapepsin" ends your stomach troubles forever.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gasses and acids eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

TOWNS IN ALASKA BOOMING.

Something Like Old Days in Northwestern States.

"Not in the old days of the West when the towns sprung up over night were there any more marvelous growths than have occurred in Alaska within the last year or two," observed James Marshall, of Seward.

"Perhaps the most remarkable growth of a town is that of Cordova which is the distributing centre for the rich Copper river section. It has been the gateway through which have passed more than \$3,500,000 of copper each month. In the last year Cordova has had a wonderful advancement in the building up of a large fish industry.

"The people of Valdez are rebuilding their town with a spirit and determination stronger than ever. Seward has many advantages that will make it a prosperous community. We are now preparing to build up a fish industry. Adjacent to Seward are some of the largest halibut banks in the North. In the next 10 years there will be scores of prosperous towns built in Alaska, for work in that territory has only begun."

WOOD PULP.

Immense Amount of Timber Suitable for Making Paper in Territory Tributary to Fayetteville

(Fayetteville Observer.)

Below will be found carefully prepared estimates of number of acres and number of cords per acre of timber suitable for the manufacturer of wood pulp within a radius of forty miles of Fayetteville and with ample shipping facilities to handle same, being in the following counties, namely:

Cumberland with 600 square miles containing 380,000 acres.

Bladen with 847 square miles, containing 542,080 miles.

Hoke with 150 square miles, containing 96,000 acres.

Harnett with 563 square miles, containing 360,000 acres.

Roberson with 828 square miles, containing 530,000 acres.

Sampson with 578 square miles, containing 370,000 acres.

Total number of acres, 2,278,080; less 40 per cent, for cultivation and vacant, 911,233, leaving balance containing timber, 1,366,848 acres.

Allowing 20 cords of timber per acre, we have total number of cords of wood or timber, 27,336,960 cords. Using 100 cords per day, or 31,200 cords per year, will require to consume above of timber, 876.

To cut above figures one-half in order to be absolutely safe in amount named above, will take to work timber now growing, 438.

Allowing 25 years in which to produce another growth of timber, shows conclusively that the amount of timber for wood pulp purposes within the above territory is inexhaustible.

Ministry in Journalism. (Biblical Recorder)

The denomination is wise which puts the denominational paper in its proper place as a denominational agency.

Remember that ink emits light, type is triumphant, and presses are hastening the Millennium.

Magnify the print-shop out of which flow streams of blessing to the ends of the earth.

Consider how it has stood in the forefront of our denominational life, how its pages have warned and warned against evil, how it has voiced the messages of our men of God, how it has inspired our thinkers and in-

INTERNED SHIPS.

Reported That Germans Would Sink All Their Boats Interned Here.

New York, Feb. 3.—A force of United States custom officers and police at 9 o'clock tonight boarded the German liners lying at their piers at Hoboken and searched them from stem to stern. The searching party was headed by George F. Lamb, deputy collector of the port and chief of Police Patrick Hays of Hoboken.

The greatest activity of the "neutrality squad" which is watching the German vessels was created by the report that the steamer's crew had been preparing to render their ship useless in the event of war.

Collector of the Port Dudley Field Malone, so chief of police says, has asserted there was reason for making a most thorough investigation of the fifteen or more vessels which have been interned at Hoboken since the beginning of the war. Chief Hays understands that reports were current that the vessels would either be scuttled or their machinery ruined.

Chief of Police Hays, with a squad of policemen in plain clothes hurried to the piers of the Hamburg-American and North German Lloyd lines. There they were met by Deputy Collector Lamb, head of the customs "neutrality squad," and other custom agents.

They began going over the vessels in the most thorough manner. Particular attention was paid to the ship's engines. At a late hour the searchers had disclosed nothing of what they had found.

The report which stirred the "neutrality squad" into activity was to the effect that tonight all officers and engineers of the interned vessels had been summoned, while the crew were ashore on account of the pay day.

Then the report continued a report of both the Hamburg-American and North German Lloyd lines had explained that account of the threatened war with Germany all engines would have to be ruined. Officers and engineers would have to go to work immediately and destroy not only the pistons and steam valves but also prepare the sea valves for emergency cases.

On a moments notice these valves can be torn open and the ships can be sunk. The broken pieces of the piston, according to pre-arrangement, were to be thrown overboard so that they could not be replaced for months and thus would incapacitate the vessels from active service for a long period.

Every officer, it was said, had to swear an oath not to divulge a word of the arrangements. It was thought that the absence of the crews would assist in keeping the strictest silence.

The searching parties which combed the liners tonight worked with the perront "neutrality guard" of eleven men. These custom men are on constant watch, one at each pier head and one at the street gate of each dock. In addition there are men patrolling the piers day and night.

There are three inspections of each vessel made every twenty four hours two during the day and one at night. At the six piers of the two companies, there are eighteen vessels, all except one liner. At the German, North German piers are the Hamburg Ad-amsturm, Frederik De Grosse, Kaiser Wilhelm Der Zweite, George Washington, Prinzessin Irene, Gross-er Kurfurst and Barbarossa.

A woman may change her mind pretty often, but she had to do it if she wants to keep abreast of the conversation.

Mere man can only marvel when he sees a girl produce a little pocket outfit on a train and change her whole face in less than a minute.

spired our workers, how it has been a typographical minister of the Word and messenger to the churches.

Regard is as a mouthpiece of a mighty Baptist host, a voice crying for a straight path through the wilderness, a helper of every good work, a herald with good tidings from the approaching King.

Heat up the cold types with warm love and the glow of heaven, and send the molten, meaningful lead into uncounted readers' hearts.

There is ministry in journalism; let us fulfil it;

AGED FARMER

Made Strong and Well by Vinol

This letter proves there is nothing equal to Vinol to create strength for weak, run-down conditions.

Vestal Centre, N. Y.—"I am a farmer 74 years of age and got into a weak, run-down condition as a result of the Grippe. Our druggist suggested Vinol to build me up and I noticed an improvement soon after taking it, and it has restored my strength so I can now do a good day's work. My wife has also taken Vinol for a run-down condition with splendid results."

—H. W. LESTER,
J. G. HALL, Druggist, Oxford, N. C.

WONDERFUL STUFF! LIFT OUT YOUR CORNS

Apply a few drops then lift corn or calluses off with finger—no pain.

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a jarticle of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This freezone doesn't eat out the corns or calluses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.

WELL TUBING WE HAVE IT ON hand in most any size, so if you want the best price, write Samuel Davis, Clarksville, Va. NOW

NOTICE—NOTICE IS HEREBY given that a vacancy has occurred in the Oxford Fire Department Hose Company, No. 1, at the last meeting. All those wishing to join will send in written application with a fee of \$5.00. By order of Fire Dept. WADE H. BRITT, Foreman M feb31t

Minutes of the Pierian Literary Society of Hester School

The meeting was called to order by the president, Miss Glayds Stroud, as the secretary, Miss Rena Crews, was absent. The Club appointed Miss Mary Frances Pittard in her place. Each member answered to his name, as the roll was called, with unusually good quotations.

After this the society sang Holy, Holy, Holy. This was succeeded by the following program:

Recitation "The Old Year and The New" Clyde Haskins
Local News Frances Moss
Uncle Remus Story Mrs. Leak Peace.

Current Events Glayds Stroud
Carolina Society
Recitation "The Raggedy Man" Florence Green

Foreign Topics McCullen Tun-stall.

Shepherd Story 4th and 5th, grades.

Spelling Match By Society
Song "Building, Daily Building" Society.

After selecting sides for another spelling match, the meeting adjourned to meet again, Friday afternoon, February 9th, 1917.

THE TIME TO BUY WIRE IS NOW, and we have 26 inch in both 6 and 12 in ch stay, 47 inch in 6 and 12 wire. So save money and send your orders at once to Samuel Davis, Clarksville, Va. tf
