

GENERAL NEWS

In a collision between a motor car and railroad train, a few miles from Portsmouth, Va., two men in the car were killed.

Camp Jackson, at Columbia, S. C., now has 13,330 men, 7,005 of these being from North Carolina. There are at present 1,681 negroes, one of these being from North Carolina.

The British cruiser Drake was torpedoed and sunk last week, presumably by a German submarine, off the north coast of Ireland. The vessel reached harbor, but sunk in shallow water. One officer and 18 men were killed by the explosion.

Fifteen men were taken from a pacifist meeting at South Pasadena, Cal., by 40 members of the city's home guard, placed in automobiles and driven to the city limits, where they were set down with the suggestion that they should not return.

Approximately 2,500 carloads of food and other necessities are being delivered daily by the railroads at the cantonments where the new National army and the National Guard are being trained for service abroad, according to reports received by the railroad war board.

The 450 interned German sailors and 13 officers of the Prinz Eitel Friedrich, who have been confined in the prison barracks at Fort Oglethorpe for several months, have been transferred to Fort McPherson in Atlanta. The prison at Fort Oglethorpe will be used for civilian aliens, of whom there are now about 125.

A dispatch from Petrograd, Russia, says that fire in a theatre Sunday, in which some 25 to 100 persons lost their lives, according to varying estimates, is supposed to have ignited from a dropped cigarette. Most of the victims were soldiers in the hospital on the fifth floor of the building and servants occupying the lower quarters in the building.

Resolutions urging the quartermaster corps to establish a large ice cream plant at the American base in France, and offering the resources of the National Association of Ice Cream Manufacturers to assist the War Department in supplying ice cream at cantonments, were adopted by the association of ice cream manufacturers, in session in Boston.

Maximum prison sentences of two years each were imposed in the Federal court in New York city, upon Henry Seligman, physician of a Brooklyn draft board, and Nathan Ehrlich, as penalty for receiving money for exempting a man examined for the draft. Seligman, in addition, was fined \$3,000.

A company of home guards was ordered from Jacksonville, Fla., to Madison county, Fla., to protect two officers of a bank that had failed. The two men were expected to be put on trial last week. Not only have their lives been threatened by angry depositors, but also the life of the judge and prosecuting attorney, it is said, owing to a change of venue.

Dr. Ernest Cooper, superintendent of the South Carolina State Sanatorium, situated near Columbia, was convicted in the Circuit Court of malicious mischief, in that he did kill a dog that invaded his premises. He was fined \$25, or given the alternative of serving 15 days on the chain gang or in the State prison. The case is now on appeal before the South Carolina Supreme Court.

Cook Clayton, clerk of the Federal court for the Southern District of Georgia, has been indicted by the Federal Grand Jury on charges of embezzling \$15,000 of government funds. Seymore B. Byrom, president of the national bank of Byronville, Ga., a relative of Clayton, was indicted for manipulating the books of the bank to aid Clayton in making a false statement of his accounts.

At Newark, N. J., Federal agents seized the publishing plant of the New Jersey Frie Zeitung, a widely read German language newspaper and arrested its proprietors and editors on charges of publishing seditious and treasonable articles. Four men were required to give bond in the sum of \$5,000 each. The publishers had been notified by the Postoffice Department to show cause why their paper should not be barred from the mails.

IN MEMORIAM

Mrs. J. P. Patterson, born May 2 1854, dearly loved wife and mother of Mr. J. P. Patterson and six children. Her sweet gentle spirit passed into heavenly rest, August 1, 1917.

A shadow dark against the summer sky; A murmuring of angels up above; The sound of wings, as little birds that fly, away from earth, in spite of all that love.

You bore us, still you could no longer stay.

The years fly swiftly on, now we see The coming of a once so happy day. It seems as if your presence ought to be

Here on earth—to hear the earth's good will—

Your birthday! Oh, I can see you in your place!

Your gentle loving voice, I hear it still;

And smiles kiss tear drops as I dream your face.

Although your soul has gone to rest above

The world still knows the sunshine of your love. FAN.

Remarkable Prophecy.

(Asheville Citizen)

Putman's Monthly Magazine, published in 1853, alludes to a strange prophecy, publishing in the Almanac Prophetique printed in Paris, in 1608 by Abram Sawgrin, nearly three hundred years ago. The prediction made was: That the United States would separate from England—the Mother Country, that the "new son" would rise in political power on the earth; that after a time the "Mother and son" would be completely reconciled and enter into an alliance that would cause their sovereignty to extend over all nations; that after the world's subjugation, peace, plenty, commerce and industry will flourish throughout the earth; that a new era will come on the earth when these nations will not only govern, but actually possess the entire globe; that justice is eternal. Civilization can only rise from the destruction of barbarism. That barbarism and idolatrous worship will forever disappear before the "United Mother and Son." That they will together establish Christianity over the whole face of the earth.

Strategy and Tactics.

(Boston Monitor)

Military operations are, after all, simply a colossal game of chess, with human being substituted for ivory pieces. Strategy consists of the movements of armies or fleets in such a way as to impose the opposing commanders the conditions of battle preferred by oneself. Tactics on the other hand, are summed up in the movements of troops in actual fighting. The great qualifications for a general are a natural eye for country, a power of rapid decision, and a supreme common sense. Marlborough had these, Frederick the Great had them, Napoleon had them, and General Lee had them. To hide your own aim from an opponent, to read him entirely astray, to strike him with your fullest force, while perplexed, hesitating, or unprepared, is the chief object of a commander, and it is the power to do this which distinguishes a great general, which won for Frederick the great battle at Leuthen.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Can Not Salivate

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

J. G. Hall recommends Dodson's Liver Tone to take the place of calomel. adv.
