### WOMAN'S REALM.

—Women ushers is a recent innovation of a Baptist church in Norfolk, Va.

—More than 100 medical schools of the United States are now open to women.

—Girls are furnishing a large proportion of the labor on Connecticut tobacco farms this year.

—The first woman to receive the legion of honor was Rosa Bonheur, the famous painter of animals.

—As executive secretary of the mayor of New York City, Miss Frances W. Rokus receives a salary of \$4,800 a year.

—Waitresses who have taken the places of men in New York's exclusive clubs are reported to be giving excellent satisfaction.

—The first woman historian in the United States was Hannah Adams, whose "History of the Jews" is both valuable and famous.

—It is only within the last ten years that women in Prussia have possessed the legal right to hold and attend political meetings.

—America's first woman bank president was Mrs. Annie McLean Fowler, for more than 20 years president of a national bank at Mount Pleasant, Texas.

—Mrs. Amand Peach, a 75-year-old resident of West Chester, Pa., recently walked 50 miles in making a round of visits to friends in neighboring towns.

—Oldest of woman's colleges in New England is Smith College, founded in 1871 with funds bequeathed by Sophia Smith, noted educator and philanthropist.

—New York suffrage organizations entertain high hopes that several women will be included in the membership of the next general assembly of their state.

—The English stage is planning for a suitable observance next year of the centennial anniversary of the birth of Helen Faucit, one of the most popular actresses of her day.

—Through efforts of the student employment bureau of Ohio State University, 65 girls attended school last year and paid all their own expenses, while 104 partly supported themselves.

—Milwaukee is planning a memorial to Miss Emma Genevieve Mullen, a Wisconsin woman, who was killed by the German long-range gun which bombarded the church of St. Gervais, in Paris, on Good Friday.

Suffering from typhoid fever, 153 interned Germans from the Government camp at Hot Springs have been taken to the Government hospital at Biltmore for treatment. Reports as to the cause of the epidemic at Hot Springs vary, but it is stated unofficially that eleven of the Germans have died and that a number more are ill. It is rumored that the Teutons drank sewer infested river water with the intention of becoming ill and thus avoid being moved from the Hot Springs camp to Fort Oglethorpe, Ga., as originally planned.

### LLOYD GEORGE SEES GREAT CHANGE AFTER THE WAR

Says "There is a New Land Confronting Us," and World Must Prepare.

(London Special.)

"There is a new land confronting us," said Premier Lloyd-George in a recent speech. "What manner of country it will be" he continued, "will depend on how the war goes and on how things go after the war."

"I am more confident today than I have ever been, and for reasons that would not be relevant for me to enter on at the moment; but one of the latest reasons is the impression made on me by the American troops I saw in France. They are superb in material and in training, and in the way they have borne themselves in the trying conditions of battles they have fought. I found a great spirit of confidence which strengthens our conviction of victory."

"The war has upset everything and when it is over the falling back into normal conditions will be another disturbance. There will be a great social and economic disturbance."

"There are two alternatives. One is that the war will have sobered the millions who have passed through the fires, whether in France or in the anxieties at home. Their vision will have been broadened, their sympathy deepened, their outlook and purpose made clearer, firmer and more exalted. There are millions who have been in daily contact with death, walking hourly over its trap

doors. They have come into contact with very terrible realities. That is one view.

"The other is that there are millions who for these years have endured privations, discomfort, wretchedness, as well as pain and terror, and who have made up their minds to have a good time for the rest of their lives when it is over. That is a very dangerous frame of mind for a nation to be in."

J. L. Gibson, former deputy sheriff of Walter county, Georgia, was acquitted of the charge of murdering Elgin Stewart of Atlanta, 4th. Judge Hill indicated that from evidence it was evident Stewart had attempted to interfere in the domestic affairs of the Gibsons. A man's home is a "sacred circle," declared the judge "and when another man attempts to break into it, the husband is justified in defending it."

With the estimated receipts possible, under the new revenue, bill as thus far tentatively agreed upon by the House ways and means committee, from \$500,000,000 to \$1,000,000,000 less than the eight billion sought, Representative Kitchin, chairman of the committee, says that the bill will not be ready for presentation in the House before the latter part of this week.

—Out of the last harvest the American people, by abstinence, saved 140,000,000 bushels of wheat to feed the hungry Allied nations; and these same people are going to stay right on the sugar job and see it through.

### SAYS KAISER'S PALACE WILL BE SHELLED BY SPRING

British Aviation General Says Allied Air Fleet Will Soon Reach Berlin.

(Washington Special.)

The bombing of Berlin from the air is not far from realization. American airplanes and American aviators will take part in the greatest air raid of the war when it takes place.

It is possible the allies may drop bombs on Berlin this fall, and almost certain that the kaiser will be routed out of bed in Potsdam palace by an air bomb next spring at the latest.

This is the belief of General W. S. Brancker, controller-general of equipment of the British air industry, who has been in this country for several weeks in consultation with government officials in charge of aviation.

"It is within the realm of certainty," says General Brancker, "that we can send a fleet of airplanes to bombard Berlin in the spring, if not this fall, as we have repeatedly bombed Cologne and other cities on the Rhine."

"We have not sufficient planes for a really big offensive, in my understanding of the term. We have plenty of airplanes and can build plenty more, but we lack engines, and we have about reached capacity in engine production."

"We need America's help, her great resources and her men. To get the best results, the creation of a secretary of air forces, or the equivalent, under whom air fighting, airplane production, equipment and personnel will be a separate branch of combat, just as the army or the navy will be advisable."

"We have built up a big airplane program to take the Liberty motor and bomb Germany, but Aemirca can not now spare these motors, and so I fear our airplanes from the air seriously delayed. Your air forces ought to be organized on a tremendous scale, and that is what we look to America to do."

In General Brancker's opinion, if it is possible to fly to Berlin and back, which is more than 800 miles, the flight across the Atlantic from Newfoundland to the Azores (the longest lap of the journey) which is 1,200 miles, can be made. This will mean an organization airdromes and repair plants in Newfoundland and the Azores.

### "THE KAISER AS I KNEW FOR FOURTEEN YEARS"

Extract From a Letter Written by Dr. A. N. Davis, The Kaiser's American Dentist.

The oath of allegiance which every German soldier and public official takes binds him first to support the kaiser, with his life and his money, and then the fatherland.

That is what the kaiser referred to when he said, in the course of an address to a body of recruits at Potsdam:

"Body and soul you belong to me. Iw I command you to shoot your fathers and your mothers\* \* \* you must follow my command without a murmur."

The same thought is involved of course, in the kaiser's invariable use of the possessive pronoun, first person in talking of the German people. He always says "my people," never "the people."

Did the German people countenance the submarine warfare and the slaughter of innocent women and children, in defiance of all rules of international law and the dictates of common humanity? They had only one criticism to make of it—it was not comprehensive enough! It was absolute folly, if not a crime, they said, for Germany to prescribe safety lanes for neutral vessels to use. The whole world should have been declared a war zone, that death and destruction might be dealt wherever and whenever the opportunity offered. Every ship that sailed should be sunk, and every American who ventured within range of a German gun, on sea or land, should be shot. That was the universal sentiment.

—Almost 70 per cent of all the sugar consumed in this country is used in the households. So it is up to the women to make the sugar go around.

## A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.— Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's the original and genuine. E 72
