IT BEGINS AT HOME.

There is another outburst of admiring wonder at the news that Henry Ford is to pay those janitors of his \$6 a day. Yet that performance seems a little less wonderful when, reading farther down the column, we are informed that Henry can pay his twenty-four-year-old son \$150,000 a year.

STRANGE BEDFELLOWS.

The Socialists in France are irritated profoundly because M. Clemenceau seems to disagree with President Wilson. There are politicians in Washington who are irritated because the American people agree with the President in his foreign policies. A world crisis makes strange bedfellows.

"OVER THERE."

Had you ever thought the phrase "Going abroad," will grow obsolete now, and we'll all say "across" or "over there," and how every period of history, there comes changes. How people are drawn closer together, old customs are laid aside for new ones, new words are coined just to "fit" in places, diseases spread, and in fact, a general upheaval is in process? It seems to be a period of unrest, and expectancy. In the present period however, we like to think of "across" as just "over there." We want to put it is near. So near that our duty to its sacred dead will not escape us. The little white crosses there are as a sign unto us, are as a beacon to direct us to the life worth while, to its teachings of truth, and of purity. For as such they were leaders.

THE BETTER WORLD.

Religion has drawn lines of gaping cleavage. Consider, however, the effect of the last five years upon the denominations. The crisis got us somewhere. It forced us to approach one another. We now realize how important it is that the spirit which was in Jesus should be in every one. Facing the same way that the Master faced, taking His attitude toward suffering, getting His "spiritual frontage," we find that we are closer than brothers.

Men will never be able to batter down one another's creeds, but as they grow in terms of charity, service, vision, they will rise superior to their wall-like idols, as a swift runner and jumper in the games goes sailing over line after line of hurdles.

Life is in nature transitional. That is that fact for us to keep in mind. The goal may not be visible. We may be sure that it is incalculably good. We shall do well to move with life, nothing doubting, everything hoping. What was the word which came to Moses of old? "Speak unto the children of Israel, that they go forward."

The responsibilities of this new year are heavy enough to make it feel old at the very outset.

Are you a patriot, or did you merely become an acting patriot "for the duration of the war?"

A Hun soldier wore the Kaiser's clothes in Berlin after the castle was sacked by mobs. And yet they say Germans are not courageous!

The Bolsheviks have looted \$50,000,000 from the Swiss Legation. They probably will use it to issue pamphlets preaching righteousness.

Perhaps no visit which Mr. Wilson has made is of such profound significance as that to Rome. The best that he and all of us can ask of the Italian heirs of greatness is that they be true to what they have taught us.

SPANISH INFLUENZA MORE DEADLY THAN WAR

Said That Epidemic Cost More Lives Than American Loss In Battle. Danger Not Over. Great Cure Necessary To Prevent Further Outbreak.

The appalling ravages of Spanish influenza in this country are perhaps best realized by the statement recently made, that more deaths have resulted in little more than a month from this disease than through our whole eighteen months participation in the battles of the European War. Our greatest danger now, declare authorities, is the great American tendency to forget easily, and to believe the peril is over. Competent authorities claim the coming of cold weather is very apt to bring a return of this disease and there should be no let-up throughout the winter months of the following easily observed precautions, remembering that influenza is far easier to prevent than cure.

Influenza is a crowd disease. Avoid crowds as much as possible. Influenza germs spread when ignorant or careless persons sneeze or cough without using a handkerchief. Cover up each cough or sneeze. Do not spit on the floor, sidewalk, in street cars or public places. Avoid the use of common drinking cups and roller towels in public places. Breathe some reliable germicidal and antiseptic air to destroy the germs that do find lodgement in your nose and throat.

Remember, no safer precaution against influenza could be employed in this manner than to get from the nearest drug store a complete Hyomei Outfit consisting of a bottle of the Pure Oil of Hyomei and a little vest-pocket hard rubber inhaling device which a few drops of the oil are poured. You should carry this inhaler about with you during the day and each half hour or so put it in your mouth and draw deep breaths of its pure, healing germ killing air into the passages of your nose, throat and lungs.

By destroying germs before they actually begin work in your blood, you may make yourself practically immune to infection.

All these suggestions about Spanish influenza are equal true in the prevention of colds, catarrh of nose and throat, bronchitis and even pneumonia. Don't become careless. Do your part. Keep the germs away. You may save yourself a serious illness and the loss of several weeks' work.

SALT LAKE CITY MAN TELLS HOW TANLAC HAS BENEFITTED HIM

Don J. Perry Says Wife Has Gained Twenty-eight Pounds and He Gained Ten Since They Began Taking Tanlac.

"My wife has gained twenty-eight pounds and I have gained ten pounds in the past few weeks since we began taking Tanlac," said Don J. Perry, a wellknown business man, residing at 370, Quince street, Salt Lake City, Utah.

"Mrs. Perry had suffered from stomach trouble for a long time," he continued. "She had no appetite and complained of a heavy feeling in the pit of her stomach. She was extremely nervous and don't believe she slept as much as two hours out of twenty-four, in over two years. She lost weight and strength continually and could not attend to her household duties. She tried everything we could find and nothing gave her any relief until we got Tanlac. Her stomach trouble is entirely gone now she can eat just anything she wants without any trouble and besides gaining twenty-eight pounds, she is able to do all her housework and seems like a different person."

"As to my own case, I had been in a nervous rundown condition for 3 years. My appetite was so poor that I would hardly average one good meal a day and I had no energy or ambition. I have improved in every way since I started taking Tanlac. My appetite is so good that I can hardly eat enough to satisfy it. I eat three hearty meals a day and then want more. I have picked up ten pounds in weight and feel better than I have in a long time. We both think that Tanlac is the greatest thing of its kind in the world."

Made Him a "Risk."

Private Lewis made down his bed in the corner of a building that was just in the edge of what would have been No Man's Land had the armistice not intervened.

"I sure didn't think I'd ever sleep here," he said to a comrade.

"Why, I was popping away at a sniper from that hole there in the corner just a couple of days ago. Gee, but it seems queer!"

"And what was the sniper doing to you?" some one inquired from the other corner.

"Well," said Lewis, "he was sure raising cane with my life insurance."
