

LANDIS & EASTON.

TWO BIG STORES.

We are pleased to announce to our friends and customers that we have opened up the store room adjoining and now have one of the best store rooms in the State well lighted and perfectly ventilated. After weeks of careful and painstaking buying in the northern markets, our buyers have returned home and we are now offering to the trading public a larger and better selected stock than we have ever shown. Our increase facilities place us in the front rank of buyers and in buying large quantities we get the lowest possible prices, we offer them in same proportion.

DRESS GOODS.

The most important item is the Woolen dress, whether it be the plain weave or most artistic finished imported fabric and all are displayed at attractive price. The favored materials in dress fabrics are Viennas, Pronelas, Venetians and Broadcloth, we have them all in a large variety of shades and at prices to suit all. Narrow striped, neat lined camels hair effects are much believed in for walking skirts, our prices range from 50 cents per yard to \$1.75 per yard. The advent of the new styles in the separate woolen waist has caused the creation of an endless variety of flannel waist cloths and to meet the popular demand we have bought largely and are showing them from 25 cents per yard up to 90 cents.

BLACK DRESS GOODS.

This department deserves special mention as an extra effort has been made to secure the best and most popular fabrics, and with pardonable pride we claim to have an assortment of black goods unequalled in this section of the State. Another new feature introduced this season is the use of many stamped, plain and corded weaves of Velveteens, whole costumes are made of them, but the popular demand for waist patterns, the most sought after styles are black grounds with colored effects, we are showing a nice assortment.

SILK FABRICS.

Taffeta silk lead the van in plain and fancy. Black Taffetas are applied to every possible use, whole outside wraps, petticoats, bias bands for skirt trimmings, all are good. Our assortment is complete from 19 to 36 inches wide.

CLOAKS AND WRAPS.

The most important item in a ladies outfit after her dress is a wrap. The Jacket has most to do with her general style and consequently shares with her a rather jealous determination to have the best she can afford. European and American manufactures have decided upon the 27 inches and 42 inches as being adapted to popular demand. We have an extensive assortment and at prices ranging \$5 to \$15.

CLOTHING, CLOTHING.

Ready made Clothing for Men, Boys and Children. This department is a new one for us, but it has in no sense been neglected, time and energy have been spent in selecting and buying and we feel confident in saying that our assortment is all that one could desire and better still our prices are as low as the lowest. We have been fortunate in securing a first class clothing man, one of experience and will always be glad to show the line whether one buys or not. Full and complete line of Hats, Shirts, Collars, Cravats, Underwear and Hosiery, in fact an up-to-date Gents Clothing and Furnishing store.

HOUSE FURNISHINGS.

We are better equipped in our Upholstery Department to interest you than ever before. The stock is large and varied, the patterns attractive and prices the lowest. Nottingham lace curtains, Irish point lace curtains, Point de Esprit curtains, Tapestry curtains fancy draperies.

Millinery! Millinery!

This Department is always a leading feature of our business and is replete with the latest creations from New York's biggest and best houses. Pretty Children

"We have three children. Before the birth of the last one my wife used four bottles of MOTHER'S FRIEND. If you had the pictures of our children, you could see at a glance that the last one is healthiest, prettiest and finest-looking of them all. My wife thinks MOTHER'S FRIEND is the greatest and grandest remedy in the world for expectant mothers."

MOTHER'S FRIEND prevents nine-tenths of the suffering incident to childbirth. The coming mother's disposition and temper remain unruffled throughout the ordeal, because this relaxing, penetrating liniment relieves the usual distress. A good-natured mother is pretty sure to have a good-natured child. The patient is kept in a strong, healthy condition, which the child also inherits. MOTHER'S FRIEND takes a wife through the crisis quickly and almost painlessly. It assists in her rapid recovery, and wards off the dangers that so often follow delivery.

Ain't You Sorry You Spoke?

"Justice" in the Union Republican says "we can't say that all Democrats are anarchists, but we do say that all anarchists are Democrats." Nor can we say that all Republicans are liars—some of them are our best people—but we can say as true as life and death, that all such monumental anarchist liars and anarchist breeding writers as "Justice" are Republicans. Besides "Justice" knows that it was an anarchist Republican sham Governor and a hired board of Republican mountain anarchists that assassinated Gov. Goebel, of Kentucky.—Wilkesboro Chronicle.

Would Have to Go out of Business.

Take away from the average evangelist his sensational methods, his funny stories and his vulgar witticisms, and he would have to go out of business. Some of the most discordant assess who ever whacked a pulpit or brayed over an open Bible are called evangelists. All they care for is to drag people into the church by the scruff of the neck. They do not care whether there is any change of heart and sincere purpose to try to live a Christian life, but they only want to enroll so many more names on church books. The glory and honor of God are forgotten, and all is done for the glory and fame of the evangelist.—Salisbury Truth.

New Cause for Lynching.

A fresh ground for lynching has been discovered in the rural parts of Texas. In Harrison county a race war has been in progress for several days, and as many as five negroes have been hanged and whipped to death for not harvesting the cotton crop. The negro tenants had taken the land on shares, and the planters being unable to get their part of the yield through the laziness of the renters have begun a lynching campaign. This is a somewhat novel excuse for the killing of men, and is not upheld by public opinion existing in any civilized community. The disgrace of this foul evil rests heavily upon the nation. It offends against all moral sentiment, and increases in intensity in proportion as the provoking cause of the outrage tends to become uncertain or trivial.—Philadelphia Times.

Hazing at Wake Forest.

Wake Forest college has just passed through a crisis it seems. Hazing was being practiced. A student informed the faculty and for this crime (?) he was waited on by a committee and ordered to leave college which he did. Two of the hazers were expelled whereupon 500 or more of the students pledged themselves to leave college if the expulsion were executed. President Taylor and his faculty however placed all these in the roll of offenders and gave them till Saturday noon to appear with a reversal of pledges or leave the institution. It is understood that the boys took the wiser course and all is quiet along the line. Hazing it is understood must stop at Wake Forest too.

Stricken With Paralysis.

Henderson Grimmer, of this place, was stricken with partial paralysis and completely lost the use of one arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—Geo. R. McDonald, Man, Logansport, W. Va. Several other very remarkable cures of part paralysis have been effected by the use of this liniment. It is most widely known, however, as a cure for rheumatism, sprains and bruises. Sold by J. G. Hall.

A Typical South African Store.
O. R. Larson, of Bay Villa, Sandusky River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the provol "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about twenty five miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of thirty miles to many of whom I have supplied Chamberlain's remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of those within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by J. G. Hall.

The American Negro.

Reports of an alarmist character were rife some years ago regarding the fecundity of the negro race. It was freely stated, and generally believed, that the African was proving himself so prolific that he would within some calculable period of years outnumber the white man in the United States. These statistical results were reached because of some faulty census work in the Southern States, and also because of the higher birth rate among the blacks. The fact was overlooked that the death rate is also much higher, for which reason the net gain at white expense is very slight. Indeed, it seems now as though the negroes were actually on the decline. The census of 1900 shows that they make up only 11.58 per cent. of the whole population, as against 11.93 per cent. in 1890 and 13.13 per cent. in 1880. Before the war the percentage was much higher. In 1850 it was 18 per cent. and in 1850 above 15 per cent.

It must be remembered, of course, that the negroes make no gains by immigration, as they formerly did. None are brought here from Africa and very few come of their own volition, while Europe sends us shipments of white immigrants every week. It appears that in only four States—Arkansas, Alabama, Florida and Mississippi, is the population of negroes now greater than in 1890. The negro population in Virginia and the border States has decreased; in the Northern cities it has slightly increased.—Philadelphia Times.

Mr. L. A. Carr received a telegram today stating that his father-in-law, Mr. O. J. Carroll, died this morning at Morehead City. It is supposed that his death was due to heart trouble. Deceased was 56 years of age and leaves eight children, three sons and five daughters. The three married daughters are Mrs. L. A. Carr, of Durham, Mrs. W. P. Whitaker, of Raleigh, and Mrs. Weatherly, of Cleveland, Ohio. His three sons and two unmarried daughters reside in Raleigh.—Durham Sun Oct. 4.

The Blood Serum. The Blood Serum. THE BUFFALO LITHIA WATER

Registered by U. S. Patent Office.

in Uric Acid Conditions, Gout, Rheumatism, etc., etc., far superior to the Lithia Tablets and other extemporaneous solutions of the Lithia Salts.

THE REASON WHY.

By John V. Shoemaker, M. D., LL. D., Professor of Materia Medica and Therapeutics in the Medical-Chirurgical College of Philadelphia, Pa., in The New York Medical Journal, June 22, 1899, says:
"Abundant experience has shown that the BUFFALO LITHIA WATER, by virtue of its associated salts, is much more effective in some very important particulars than extemporaneous solutions. It exerts, for instance, A SOLVENT ACTION upon RENAL, HEPATIC, and VESICAL CALCULI more powerful than could be expected from a mere inspection of its chemical analysis. By SWEEPING URIC ACID RAPIDLY out of the system it alleviates the MISERIES OF GOUT. It is efficacious in RHEUMATISM, BRIGHT'S DISEASE, DIABETES MELLITUS, and a number of nervous affections."

"An additional advantage and extremely important reason for the PECULIAR EFFICACY of the BUFFALO LITHIA WATER lies in the fact that its composition approximates that of the SERUM OF THE BLOOD; therefore, it is admirably fitted for absorption into the blood current and immediate incorporation with the watery portion of the NUTRIENT FLUID. It comes at once identical with the BLOOD SERUM. These are qualities which far surpass those possessed by any extemporaneous solution of a single chemical preparation, as when a LITHIA TABLET, e. g., is dissolved in water for immediate administration. When we speak of a dose, it is of a quantity altogether relative, and what the physician emphatically desires in a dose is THERAPEUTIC EFFICIENCY. THIS WE HAVE IN BUFFALO LITHIA WATER."

Spring No. 2 is both a nerve and a blood tonic, and in pale, feeble, and anemic subjects is to be preferred. In the absence of these symptoms, No. 2 is to be preferred. BUFFALO LITHIA WATER is for sale by Grocers and Druggists generally. Testimonials which defy all imputation or questions sent to any address. PROPRIETOR BUFFALO LITHIA SPRINGS, VIRGINIA
