Pettus is the Morrill of Alabama-being eighty years old has no intention of not being elected next term-and with no disposition on the part of his constituents to retire for all mankind. Mrs Mary K. Melendy, M. him.

The mother of Governor Beckham of Kentucky has a remarkable record. She has the unprecedented distinction of having been the mother of a govthe sister of a governor and a cousin | ment.' of a governor.

urging his nomination for United States Senator from Alabama to succeed Senator Pettus, whose re-election is objected to by many Democrats because he resides in the same district with Senator Morgan.

There is a rush for divorces in the District of Columbia where over 300 applications have been filed in the past six months. A new law goes into effect in January which eliminates about a half dozen causes, hence the rush by the ill-paired to take advantage of the present law.

The Sugar Trust is circulating in the West petitions to Congress to put raw sugar on the free list, there-by, it says, saving consumers \$50,000,000 a year, and giving them a refined sugar at from three to four cents a pound. This is a rear attack on the cures through the blood by destro ing the beet sugar men.

Industrious Girls.

Mr. C. D. Gunter, who runs a furniture factory some four or five miles from town, has two daughters that are fast becoming expert painters. They paint all the furniture made at the factory, and do it well. A few days ago they painted in one day 74 bedsteads; that is they put three fish. coats one of paint and two of varnish on 74 bedsteads, which means that they, putting on one coat to each bedstead, did the work comparable to painting 222 bedsteads in one day. Their daily job consists in painting 36. These young ladies are about 14 and 16 years old -Ga News.

KNWING A GOOD THING.

The poet has written that "there s'a tide in the affairs of men which taken at it flood leads on to fortune." Maybe in the experience of the poet his was true. Further it may be that opportunities for amassing wealth are lying loose all around about us and that we do not recognize them. At all events it is true that opportunities apparently come to some people and not to others-or it may be that some people have a grasping faculty that is not possessed by others and that to the latter—the army of drudgers and plodders-all oportunities are as ships that pass in the night. They don't know a good hing when they see it-m tybe can't even see a good thing, let alone knowing it, when it is fairly thrust upon their vision. It is a fact that some people will prosper and grow fat where others will fail and wax exceed-5 0 ing poor, and the natural disposition Andrew Wilson 101 98 is to credit the prosperity and charge the failure to luck and the absence of it. While that is an easy way out of Total for August \$1,118 11 it for the one who fails, it is not at all creditable to the one who se 2 00 and it dosen't go a great way toward verifying the declaration of the poet above quoted.

We have read of, and have seen in our daily experiences, some marvelous instances of "striking it rich" and have possibly envied our fellows the "good luck" that has attended their operations. But is it always soo luck? To put it a little stronger, is 13 50 it ever luck pure and simple? Does 3 80 not opportunity come, some time or 39 41 other, knocking ateverybody's door, anxious to be let in?

Having engaged in the Fire Insurance business in Oxford in connection with the practice of Law, hereby announce the same to my friends and the public generally and solicit their patronage.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain
