

### In Two Minutes

There will be another car. But the man can't wait. He chases the car and swings on, panting and hot, but satisfied. He keeps this gait up all day. He works that way, he hunches that way. He continues this until his stomach "breaks down" and nature compels him to "go slow."

Business men who have impaired their digestion by hasty eating will find in Dr. Pierce's Golden Medical Discovery a cure for dyspepsia and other diseases of the stomach and organs of digestion and nutrition. It does not give mere temporary relief, but it effects a radical cure. It strengthens the stomach, nourishes the nerves and purifies the blood.

"For six long years I suffered with my liver, kidneys, and with indigestion, which baffled the best doctors in our country," writes E. L. Russell, Esq., of Woolsey, Prince William Co., Va. "I suffered with my stomach and bowels for a long time, and after taking a 'cart-load' of medicine from three doctors, I grew so bad I could hardly do a day's work. 'Would have death' was in the air, and blind spells began taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets,' as advised. Before I had taken half of the second bottle I began to feel relieved. I got six bottles and used them, and am happy to say I owe my life to Dr. Pierce and his medicines."

Dr. Pierce's Pellets cure biliousness.

A gentleman in Jersey City has brought suit for divorce upon the threats and persuasions of his neighbors, who, as he alleges in his petition, have frequently intervened when his wife threw dishes and other household utensils at him, and who are now tired of their labors and the wrangling involved. The petitioner asks that the woman be made to live apart from him and that he be ordered to pay a suitable amount for her support.

Every woman loves to think of the time when a soft little baby, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a liniment called

**Mother's Friend**  
which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs. It gives the muscles elasticity and vigor, prevents sore breasts, morning sickness and the loss of the girlish figure.

An intelligent mother in Butler, Pa., says: "Were I not for Mother's Friend, I would obtain 9 bottles if I had to pay \$5 per bottle for it."

Get Mother's Friend at the drug store. \$1 per bottle.

### OXFORD PUBLIC LEDGER.

JOHN T. BRITT, OWNER AND EDITOR.  
THURSDAY, -- MARCH 27, 1902.

The State pardoning mill at Raleigh must be trying to break the record.

Dan R. Hanna, son of the Ohio Senator, has paid \$1,500 and \$1,080 respectively for two Short Horn cows bred by Queen Victoria at Windsor.

The question now arises who will be the next Chairman of the Democratic State Committee? The Public Ledger is in favor of the re-election of Senator Simmons if he will serve.

A Delaware man who wanted to move 20 miles liked his little house so well that he didn't like to leave it behind, so he put wheels under it and hitched 20 mules to it took it along and the family kept house in it on the way.

The News & Observer's Charleston Exposition Edition was a gem and extremely well gotten up. It contained a fine account of the Exposition in a concise form, and we congratulate friend Joe Daniels on his success.

The Librarian of the Congressional Library was astonished a few days ago by a request from Senator Gallinger for a Bible. In 42 years that is the second time that a request of that kind has come from either of the branches of Congress.

The Asheville Citizen remarks that the impression is getting abroad that conviction in our State courts amount to little; that Gov. Aycock will either commute the sentence or pardon altogether. It does begin to seem that the pardon mill working overtime.

Milton Whitney, in charge of the department of soils in the United States Department of Agriculture, says the Connecticut tobacco crop for past year has been depreciated in value about one million dollars by pole rot. The question arises, what is pole rot?

The fight between the American Tobacco Trust and the English trust is on in big shape. As an offset to the bonuses of \$50,000 offered to its customers by the Imperial Tobacco Co. of England, the American Tobacco Co. offers its British customers all its profits and \$200,000 yearly for next four years.

An institute for the women teachers of North Carolina will be conducted at the State Normal College from April 29th to May 24th. In addition to the members of the faculty, several city school superintendents and other leading educators will deliver special lectures. Arrangements will be made to entertain the teachers at the College.

HENDERSON TELEPHONE CO.  
Long Distance Line Completed—Oxford Connected with the Sea.

We are advised by General Superintendent F. C. Toepelman that the final connections have been made between Greenville and Kinston, so that the long distance service of the Henderson Telephone Company is now in practical operation to Morehead City and all intermediate points. Construction on this line was begun at Spring Hope last July, and since that time from one to three crowds have been in the field pushing the work forward. The main line constructed to complete this connection covers a distance of about 200 miles, and is double metallic circuit throughout, one for through business touching important points, the other for local business between exchanges. In addition some 50 miles of branch lines have been built. To construct this 250 miles of line has required over 8,000 Juniper poles, 1,000 miles of copper wire, 32,000 insulators and pins, 5,000 cross-arms and 24,000 bolts, and to transport this material 70 cars were called into service.

Over 100 men have been steadily employed for 8 months, and about 1 1/2 miles of completed line was finished each working day. The work of constructing these lines is an undertaking of considerable magnitude and must require a vast amount of capital. Great credit is due the Companies for their efforts in connecting up with first-class long distance lines so large a scope of territory in so short a time—over 1,200 miles of toll lines having been built in the last 6 years. The main line of the Company now extends from Chase City, Va., to Morehead City, N. C., affording direct communication with over 5,000 subscribers in 35 exchanges. The principal points reached by the line just completed are Rocky Mount, Greenville, Tarboro, Scotland Neck, Willsboro, Washington, Ayden, Kinston, Dover, Trenton, Newbern, Bayboro, and Morehead City. A cable is now being laid from Morehead City to connect Beaufort with the system.

The long distance service heretofore instituted and operated has been found invaluable for its convenience and the facilitating of business, and the new lines just opened will simply be of so much additional benefit to the business interests of the territory covered by the Henderson and the Carolina & Virginia Telephone Companies.

### Must have Better Roads.

Editor Public Ledger:—If further argument was needed in favor of good roads the recent mud season has furnished it, and if there still remain any unconverted let them drive half a dozen miles in the country and gather experience for themselves.

To the end that the State might have better highways the Legislature passed the Holmes road law. This law was well thought out; it is just and equitable, liberal in its provisions, leaving the county commissioners great latitude in regard to details and so framed as to be easily applied to the varying conditions in each county; it can even be put in force in separate townships. In fact the law contains every provision for the immediate improvement of the roads that any county needs, provided its citizens are really in earnest about having good roads. All that is necessary to make it effective is a petition from the freeholders of a community, (township or county) to the Commissioners.

At the last session of the Legislature not only a large part of the Holmes road law was re-enacted for Granville county, but a mandatory issue of \$80,000 worth of bonds was added to it. While those who were instrumental in putting through this act undoubtedly felt that they were benefiting their constituents, in the opinion of the writer they were doing them a wrong, for the reasons given below:

1. In a general way—special—that is class legislation is vicious in principle, for does it not stand to reason that if a mandatory issue of bonds is excellent for Granville, it is just as desirable for 99 other counties. If it is not desirable for any or all the other counties, why is it desirable for this particular one?

2. A mortgage issued and sold to bankers or others is just as much an obligation on the common wealth of the county as a mortgage on house and land is binding on the specified property to which it is attached. It is a grave injustice to bind any man's property by a county obligation without giving him a hearing, because a mortgage is a contract to pay money at a future time to which he is compelled to be a party with or without his consent. Therefore to pass an act requiring a forcible issue of bonds, without the knowledge gained by public discussion nor the consent of the citizens of a community expressed by popular vote, is an oppressive and arbitrary use of power.

3. Prosperity does not come by borrowing money to be repaid at some more or less distant date; the very foundation of wealth lies in spending less than the income, be the latter much or little. When many farmers must go in debt for fertilizer to make a crop and depend on warehousemen and merchants to carry them through the season, the community as a whole is not in sound enough financial condition to make it all desirable to borrow against the public credit upward of \$100,000. The farming interests are taken as indicative of the strength and ability of the community because they produce all that is to be sold or exchanged for goods or supplies coming from outside; that is, the farmer is sole producer. Storekeepers, buyers, manufacturers and bankers are middlemen who facilitate trade, while they live off it. It necessarily follows that the safe way is to pay as you go, and do without what cannot be settled for at once until the cash is in hand.

4. A 15 cent tax, intelligently expended, would in a short time make a wonderful improvement in the roads; but with the proposed bond issue goes at 10 cent tax for a sinking fund. Long after the bonds were sold and the proceeds spent the sinking fund tax would still be here and worst of all, it would only represent two-thirds of the amount that public opinion would let the commissioners assess for roads for an indefinite period. The net result would be something like this: each township would have a few patches of good roads would still be assessed 10 cents for these, with a possible addition of 5 cents to help keep up the little good roads and make all the bad roads passable. It would be impossible to estimate how much cussing there would be when the bonds were used up and there was so little to show for it when the actual miles of good road were compared with the whole mileage of county roads.

5. This town is surrounded by monuments of ill conceived and mismanaged enterprises, witness Hicks Tobacco Factory, Alliance Tobacco Factory and Warehouse, South Oxford Land and Improvement Company, the Snow Barn, the Market House, and the Oxford & Coast Line Railroad undertaking. Contrast these with the most successful project of all, the Taylor-Cannady Buggy Co., which started by one man making buggies, doing most of the work himself and letting his business have a natural growth. The Furniture Factory is another plant having a thoroughly and promising development.

If good roads are wanted they will have to be secured in the same way. A small expenditure will provide all the equipment, besides what the county now has, that is necessary to work convicts, grade roads and crush rock; then if the citizens want improved roads let them give evidence of it by hauling rock to convenient points where the county outfit can be sent to complete the work. Pay as you go, is the only practical

and common sense way for a community where population is thin and means limited. It is bad judgment and bad morals to buy what cannot be paid for readily, just because spot cash is not necessary at time of purchase. LOUIS DE LACROIX, Oxford, N. C., March 20, 1902.

**The Best Time.**  
The best time to cure a cough or cold is when you are first affected. A pleasant and sure remedy for sore throat, weak lungs, bronchitis, coughing spells, etc., is Gooch's Mexican Syrup. It is a tonic and a remedy. Be wise in time and keep a bottle in your medicine chest, always handy for immediate use, remembering the old adage, "a stitch in time saves nine." It is a true lung tonic and sells for only 25c.

**A Printer Surprised.**  
"I never was so much surprised in my life as I was with the results of using Chamberlain's Pain Balm," says Henry T. Crook, pressman of the Asheville (N. C.) Gazette. "I contracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without benefit until one day while looking over the Gazette, I noticed that Pain Balm was positively guaranteed to cure rheumatism, so I bought a bottle of it and before using two thirds of it my rheumatism had taken its flight and I have not rheumatism pain since." Sold by J. G. Hall.

Dr. C. J. Moffett—My Dear Sir: Justice to you demands that I should give you my experience with your excellent medicine, Teething. Our little girl just thirteen months old, has had much trouble teething. Every remedy was exhausted in the shape of prescriptions from family physicians. Her bowels continued to pass blood and burning fever continued for days at a time. Her life was almost despaired of. Her mother determined to try Teething, and in a day or two there was a great change—new life had returned—the bowels were regular, and thanks to Teething, the little babe is now doing well. **Beware of Ointments for Catarrh that Contain Mercury.**  
Mercury will surely destroy the cause of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is often fatal to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Baltimore, Md., March 20, 1902.  
Full history of my case, to be used at your discretion. I will now give you about five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement, accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain
