Ask a healthy woman what she would sell her health for and she would tell you that the choicest diamonds in the world could not buy it. What use for diamond rings to emphasize the shrunken fingers, or earrings to light up the cheeks hollowed by disease?

Health is the first requisite to womanly happiness. General ill-health in women has its origin in local womanly diseases. Cure the diseases of the delicate womanly organism and the general health is perfectly restored. The remarkable benefits experienced from the use of Dr. Pierce's Favorite Prescription are due to this medicine's perfect cures of womanly diseases. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

It affords me great pleasure to be able to say a word in regard to the merits of Dr. Pierce's Favorite Prescription and his Golden Medical Discovery, writes Mrs. Flora Ann, of Dallas, Jackson Co., Mo. "I was tempted to try these medicines after seeing the effect upon my mother. At an early stage of married life I was greatly bothered with painful periods, also a troublesome drain which rendered me very weak. I used the work of any kind, and until for some time I was unable to get on my feet. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more, and after I used those up there was no more pain, and I began to gain in flesh very rapidly."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

WHAT A FEMALE REGULATOR IS

A vegetable liquid for governing or equalizing the flow of women's menses which occur once in every lunar month.

BRADFIELD'S Female Regulator

is the essential quality of powerful herbs. It is a concentrated essence best adapted for women's delicate organism, and put in such form that it is always properly assimilated and taken into the system.

Stoppages, suppression, painful or other irregularity of the menses and sickly flows are corrected and cured by the regular use of this superior emmenagogue.

Menstruation, or periodic flows, necessitate a breaking down of cells lining the mucous membrane and a reconstruction after every sickness, which is accompanied with marked congestion and loss of blood. Such changes are very apt to produce chronic catarrh, Leucorrhoea or Whites as the result of these irritating discharges. Regulator cures these troubles and restores to perfect health the patient who suffered the debilitating losses.

THE DUTY OF A VOTER.

It is important to the Democratic party that its majority at this election should be overwhelming. The party should not be content with winning victory by the skin of its teeth. It wants a rousing and sweeping triumph in the way of endorsement of the constitutional amendment and approval by the people of its record. It should not be satisfied with a bare majority—an election so close as to give the Republicans reason to hope that they can carry the State for their presidential candidate two years hence—but its victory should be so decisive as to show to the country that the principles of Democracy are deep rooted in the hearts of the entire State; that the professional men, the mercantile class, the promoters of the State's industries, the wage earners and the farming element are united in the cause and are determined that Democracy shall prevail against Republicanism within our borders, says Wilmington Messenger.

Because there have been cut out of the contest seventy thousand or a hundred thousand negro voters is no reason why a single Democrat should show less interest in the success of his party. Every white man should deem it a privilege to cast a vote for what he considers the true interests of his party and his people. Do not look upon it as a personal favor conferred upon your party candidate to go to polls and cast a vote for him. It is not for that the right of suffrage is conferred upon you. It is that you may express by your ballot your sentiments as to the principles upon which this government shall be conducted. There are two parties, Democratic and Republican, seeking your support, with ideas of government as far apart as the poles, and as you vote for the exponents of one or the other theory so you ally yourself with that party. It is not the man you vote for but the ideas of government his party advocates that you endorse. Forget the man and vote the principle. Do this conscientiously and you exercise the highest privilege granted a free citizen.

DADDY OF INDEPENDENTISM.

We learn from a letter in the News & Observer that Marion Butler says he is the daddy of Independentism! And Pritchard wanted the Independents to call themselves Republicans at once. Butler didn't, and because "so disgusted that I decided not to make a single speech." Butler says they would "like first to be called Independent Democrats, and next Independent Democrats, and next anything to beat the Democrats, but last of all would they be called Republicans." Don't you see how the things work? And the American Tobacco Co. is furnishing the money to run the campaign so is generally conceded, and the farmers will have to pay the bill by the lowering of the price of tobacco.

MAKING A MISTAKE.

The Charlotte Observer speaks a truth when it says the Republicans are making a great mistake in their attacks upon the Democratic State administration, especially with reference to the borrowing of money to make good a deficit in the Treasury. A deficit is nothing at all unusual. In this case it resulted from the simple fact that the Legislature appropriated more money than the revenue bill raised, and there was nothing wrong about it. When the people are told this and told further that the money was borrowed for the public schools, the Confederate veterans and the hospitals for the insane, the attack reacts upon the party making it. In this matter the Republicans orators and newspapers are showing mighty bad judgment.

OVERWHELMING DEFEAT.

When State Chairman Simmons was asked what was the Democratic prospect at the election, he replied: "Grand, grand! The majority will be the greatest we ever had in the State. The opposition—Republicans, Populists and Independents—will not have as many members in the next Legislature as it had in the last one." That's bad news for American Tobacco Co., who is turning money loose to elect Pritchard, and it will find out that he cannot control the politics in North Carolina even if they have got millions of money behind them. No, they cannot buy the true manhood of the State as their principles are dearer to them than the American Tobacco Co's money.

All the gentlemen running on the Republican tickets in the Southern States will show up later in the administration's lame-duck department.—Washington Post.

Whenever a Democrat plumes his wings to fly over the fence into the Republican ranks, he usually rests on the fence awhile—and resorts to the old plea—that he is independent. Yet he does not fail to cast his lot with opposition party, and abuse his former associates. Such is Independentism at present.

Let all Democrats who desire their party to succeed, and every good one should have this desire, put forth all efforts from now until the polls close on the 4th of November for his ticket and see that every Democrat vote in his precinct. Remember the American Tobacco Co. is working hard to defeat the Democratic ticket in order to re-elect Pritchard and put Granville county under Republican rule again.

We join the Charlotte Observer in saying, it is pleasant to see that North Carolina is climbing up the educational column. Time was when it was at the foot of the class. Now there are five States and two Territories below it, these being Mississippi, Georgia, Alabama, South Carolina and Louisiana and Arizona and Indian Territory. The ratio of literacy in this State, according to recent statistics, is 78.25 per cent., based upon children between the ages of 10 and 14. This is not a bad showing, and besides, we are coming along.

THE BLUFF A BLUNDER.

The Boss Now Admits it, Said a Republican.

Greensboro correspondence of News & Observer of Oct. 20th says: "There was a great gathering of leading Republicans here Saturday night and yesterday. Chairman Pritchard was in constant consultation with different prominent candidates and members of the State Executive Committee. What new move in the political field is on, can only be approximated. A Republican this morning was heard to declare that it had been admitted by the boss of his party, that the pretended bonning of the colored voters, the complete ignoring of the advice of conscientious white Republicans, who were not Federal officeholders, was a great blunder. He said that the endorsing of Democrats for office and the exclusion of old time Republicans from even a participation in the party councils, had caused more of them to be disgusted than it had won new voters. He also said that some Democrats who had displaced Republicans as candidates, had been found, could not attract a single Democrat voter, an illustration being given of a son in one county, whose father and three brothers were actively canvassing against him.

A New Negro Society.

The negroes in the neighborhood of Dublin, Ga., have organized a reform association, to train negroes in the way they should go. When one of them doesn't behave as they think he should, he is notified to appear for trial, and if convicted is whipped in the presence of the society. They don't undertake to regulate the whole colored community, only members of the society.

He Learned A Great Truth.

It is said of John Wesley that he said to his friend, "Why do you tell that child the same thing over and over again?" "John Wesley, because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Cures colds and grippe; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. All Druggists.

Pritchard's Deserter Bill.

Charlotte News: One good point made by Maj. London in his speech at Roberdel in regard to Pritchard's deserter bill, noted by the Rockingham Anglo-Saxon, is that his bill reaches only the most inexcusable class of deserters. There was one deserter, Maj. London said, whom he never found in his heart to criticize so harshly—those who, when desertion was spread all over our Southland and sickness and starvation was found in many homes' laid down their arms out of an overpowering sense of duty to their families at home. These are not reached by Pritchard's bill. His bill only includes those who not only deserted the Confederacy, but put on uniform of the former enemy, and turned their guns on their former comrades. And the Major got almost wicked in telling about how long and how hot it would be before he would vote for the man for the United States Senate who passed that bill.

What One Boy Has Done.

The following item is going the rounds of the press, sent out in the Raleigh correspondence to State papers: Billie Moore, who is a mere scrap of a boy, and an orphan at that, has shown what a boy can do when he has pluck and grit. Last spring he traded a game rooster for an old plug of a mule that nobody thought would live two weeks; paying 50 cents to boot. Billie's friends were sure he had gotten the worst of the trade, but Billie himself seemed to know better. He began feeding up that old plug and rented a small farm. As a result he will make two bales of cotton, 100 bushels of corn and 1,250 bundles of fodder. He did all the plowing with the mule in question, and now holds the animal at \$25, and refuses to take less.

Young Plants

Every farmer knows that some plants grow better than others. Soil may be the same and seed may seem the same but some plants are weak and others strong. And that's the way with children. They are like young plants. Same food, same home, same care but some grow big and strong while others stay small and weak.

Scott's Emulsion offers an easy way out of the difficulty. Child weakness often means starvation, not because of lack of food, but because the food does not feed. Scott's Emulsion really feeds and gives the child growing strength. Whatever the cause of weakness and failure to grow—Scott's Emulsion seems to find it and set the matter right.
