It is beginning to look like our udges, jurors and the people in general who control the government in North Carolina are the most merciful set of men in the Union. Lately they et their sympathy outweigh their sense of justice. We find from reading our leading dailies that our own stands at the head of any Southern State in lawlessness and crime. It should not be. Men who are summoned to serve on a jury should do so unless it is an urgent matter that calls him away. Homicides, outrages, etc., are getting too numerous in this State, and if our most influential men do not serve on the juries the time is not far distant when The farmers are about through every man will have to ride the public roads armed and capital punishment will be abolished. We believe also in punishing all classes of men alike, the rich and poor, the white and black. If a man shoots another man dead it is murder, and the commandment reads, "Thou shalt not kill." Thousands of Bales of Cotton and Yarn in the Surging Waters.

Charlotte, N. C., June 6 .- The heavy rains have resulted in an incalculable loss to property between here and Spartanburg, S. C., along the line of the Southern Railway. It is reported that a number of lives have been lost. Five cotton mills have been washed away, three bridges on the Southern Railway are lost and two others are badly damaged, and telephone messages say that twelve bodies have been seen floating in the Pacolet river.

Early this morning tidings of distress began to reach this city, and each report indicated great injury to wrong and ruin he has wrought. If the Southern and to many industrial there is anything our talking governinterests that are located between Charlotte and Spartanburg.

Greensboro Record on Gov. Aycock for Pardoning Murrow.

Twelve good and lawful men, after being duly sworn, said upon their oath that Roscoe Murrow was guilty. A faithful and able solicitor, after a thorough and conscientious investigation of all the facts, demanded his punishment. A just and upright judge, after a fair and impartial trial, said that he ought and must pay fifteen hundred dollars for the support of the orphan girl and homeless mother and for the maintenance of the innocent and helpless baby. Our orator-governor, who stops talking only long enough for his three meals a day, says that this fornicator ought not and shall not pay a single penny for the damnable or would rather do than to talk it is to pardon. Behold the list from Guilford within the last few months

Murrow, the destroyer of the chastity of his adopted sister. The com-Vance; he will go out, we fear as the second Brogden. In his pardon of Murrow Governor Aycock says there was a petition of three thousand signers presented to him. A wag here once wrote a petition asking that Mr. Jesse H. Lindsay, one of the most honored citizens of the State, be hanged, and twentyficials to be very unsafe. It is still six men signed it before its actual standing against the fierce tide, but contents were known. It is safe to say that it took six months to get

of the county, with not a non-resi-

It is an act of humanity to pardon such a man? Is seven years too long to keep such a man on the chaingang for such a crime he has committed? Perhaps it is best to give Murrow his liberty, but we cannot see it that way. We believe that mercy should be extended, wherever and whenever possible and if Roscoe Murrow had been some penniless fellow, reared in a home where virtue was at a discount and moral training was unknown, we would say that one year and nine months on the chaingang was punishment enough for him. There is sometimes a false humanity which opens prison doors. There certainly is a quality of justice which demands prisons and chains in this life and a hell in the life to come.—Monroe Enquirer.

We have observed the conduct of Governor Aycock in this matter, and known to have felt the effects of the the press comments upon it, quite attentively. In January Governor Aycock par doned Sam Haden, of Sallsbury, who BY MAIL! was serving a term in the peniten tlary for larceny. It was represented that Haden was dying of consumption; that he had a brother in New Mexico who would take him and that the climate there might prolong his life. country." In consideration of the fact that Haden was square enough to write the Governor and tell him he was coming back, he should not be disturbed! But seriously, should not the Governor beware of pardoning people who are sick unto death. Several times he has granted pardons to dying people only to have them turn up lively and chipper, very often engaged in other meanness.
