DIRECT INTEREST OF THE PEOPLE.

In an address at a Virginia good roads convention, United States Senator Daniel spoke on the economy and benefits of good highways, part of which we reproduce, as it furnishes some sound thought for our Granville people to consider.

"A good road is a universal public benefactor. There is not a single member of the community who does not receive advantage and pleasure from it. It is the most domestic of all public institutions. A court house is for litigants, an asylum is for the infirm, a jail for criminals, a theatre for entertainment, a park for recreation, a school for instruction, a church for worshippers, a hotel for wayfarers; but a good road is for everybody—saint and sinner, man, woman and child, maid and matron, young and old, rich and poor, healthy and sick, the lame, the blind and the blind—all get a share of benefit from a good road.

"A good road is a mark of the progress of the community in which it is located. Show me a good road and I will confidently say of the people of the community, 'They are up and doing; they are going forward.' A good road is no transient and fickle satisfaction. It is a stayer. Night and day, winter or summer, autumn or spring, it is the general public servant, a friend that sticketh closer than a brother.

"A good road is a generator and a radiator of benefit to all who live upon it. A man likes to locate in a land of good roads. They are the lightning rods to attract intelligent settlers. A good road is a faithful friend and a cheerful companion. It is the best investment and the best of advertisements. It is a poster that nobody wants to deface and that you can't pull down.

"This is a country in which you have got to build roads or after the fashion of the good roads train—build them to stay built. In a country of this kind there is no economy in building what you might call a 'tolerable road' unless you are on the top of a fair plateau where nature has given you a good grade. In Prince Edward county the enterprising people of Farmville and vicinity have built a good road according to modern ideas from Farmville out to old Hampden-Stoney college. At any time you go there you can find the farmers, with their four-horse and six-horse teams carrying their tobacco and other products to this road. As soon as they strike this good road they take out all but two horses and go merrily jogging on to town, sending the rest of the horses back to the plantation. There is an object lesson for you and one which illustrates the economy of good roads.

"What will a road save? First, it will save time. That is the most important thing in your life that you ought to save, because a little slice of time is all that the Creator has allowed any of us here out of the great eternity. Whoever can save time prolongs his life on earth to that extent. In the next place, you can save material by having a good road. This is a department of the matter which the statistician has never thoroughly investigated nor the historian recounted. But your experience tells you this: A stretch of muddy road means the breakage of harness, the straining of vehicles, mud on your clothes and varnish on your buggies and many other petty losses which amount to a great deal in the aggregate. Then there is a great saving of animal life resulting from good roads. It ruins a good horse to work him hard on a bad road. Look at the horses that are strained. Think of the increased number of horses you have to use on a bad road. Then think of the difference between bad and good roads to man himself. If he starts with his produce to town, ten, fifteen or twenty miles away over a bad road, he cannot get there and sell it before breakfast. But on a good road he can bring his produce with the dew of the morning upon it to or even fifteen miles to town and get it to market while it is most valuable.

"Think for a moment of the effect upon the man himself. Let him have a rickety wagon and a bad horse and twenty miles to go to town through such mud as we have up in this country and he will be ready by the time he gets there to appreciate the legend written on a dial in Spain with reference to the flying moments, 'Each one wounds, the last kills.' But if he is journeying upon a good road about his thoughts come to him. He has opportunity to talk to his neighbor is pleasant around him. He will enjoy conversation with his companions, and when he gets to town he is a rational, contented man, ready to face the next duty in life, whatever it may be.

"But it is not only in saying that good roads are economical. See what they produce—increasing population, better society, better schools and increased value of property. Just as soon as you get a good road in your neighborhood the value of your land upon each side of it will more than pay for its building. There is not a single thing that you can suggest in the way of public enterprise which offers a more immediate and more certain return for your investment than good roads.

Let Horse Select His Wife.
Mrs. Ralph E. Brown, of Handricks county, Ind., in her suit for divorce, charges that her husband let a horse select a wife. She and Mr. Brown were married in August last and separated in December. She says Mr. Brown was paying attention to a woman in Indianapolis and she herself lived in Clayton. On the day fixed for the wedding Brown got into his buggy, undecided whether to marry her or the Indianapolis girl. He dropped the reins over the dashboard and left the decision to the horse which turned off at the Clayton road, thus deciding the defendant in his choice for a wife.

On the subject of lynching the President is on record, both for and against it. When discussing lynching for horse stealing in the West he was of the opinion that it was a necessary thing, but when he wrote to that stinker, Gov. Durbine, he was extremely severe on lynchers of negroes who commit the worst crime known to our laws. There are few men like our Teddy.—Lexington Dispatch.

THE FARMERS WAREHOUSE,

J. F. MEADOWS, Proprietor,

For the Sale of Leaf Tobacco.

HIGHEST AVERAGES GUARANTEED.

I am pleased to inform you that I have leased the Farmers Warehouse for the coming season and will be glad to meet and serve you in the sale of your tobacco.

Oxford, as you well know easily holds first place in the State for the sale of wrappers and is second to none on all other grades, and as a tobacco market its popularity and importance is ever on the increase. It shall be my pleasure to use all possible efforts to make the Farmers Warehouse to Oxford what Oxford is to the tobacco trade.

Our buyers you must admit are as clever, high toned gentlemen as ever followed a tobacco sale on any market. They have returned from their summer vacation in good humor and will be on the market after the 3rd day of August, with plenty of orders and money to buy your tobacco.

I shall have no drummers, but I have one of the best warehouses in Oxford and one of the best lighted houses in North Carolina which will always show up your tobacco to the very best advantage.

My accommodations will be the very best that can be had, good comfortable rooms for yourself and dry stables for your stock, with gates locked at night.

Arrangements have also been made to pay each man as fast as his tobacco is sold, and there will be no more long delays in getting your bills.

Mr. Jno. Perkerson, with 12 years experience, will be floor manager and will assist you in unloading your tobacco exactly as you want it.

Another important fact: all my stock of leaf tobacco bought last year has been sold, except about ten packages of smokers, and I am now in good trim, ready, willing and waiting for the opening of the coming season.

Every pile of tobacco placed on my floor shall have my best personal attention and the highest market prices shall always be obtained.

Keep the contents of this advertisement ever in mind and when loading your tobacco, remember it and drive straight to the Farmers Warehouse. You will never regret it.

Yours to serve, J. F. MEADOWS.
