

CRUSHES OUT THE LIFE

The most loathsome and repulsive of all living things is the serpent, and the vilest and most degrading of all human diseases is Contagious Blood Poison. The serpent sinks its fangs into the flesh and almost instantly the poison passes through the entire body. Contagious Blood Poison, beginning with a little ulcer, soon contaminates every drop of blood and spreads throughout the whole system. Painful swellings appear in the groins, a red rash and copper colored spots break out on the body, the mouth and throat become ulcerated, and the hair and eye brows fall out; but these symptoms are mild compared to the wretchedness and suffering that come in the latter stages of the disease when it attacks the bones and more vital parts of the body. It is then that Contagious Blood Poison is seen in all its hideousness. The deep eating abscesses and sickening ulcers and tumors show the whole system is corrupted and poisoned, and unless relief comes soon this serpent disease tightens its coils and crushes out the life. The only antidote for the awful virus is S. S. S. It is nature's remedy, composed entirely of vegetable ingredients. S. S. S. destroys every vestige of the poison, purifies the blood and removes all danger of transmitting the awful taint to others. Nothing else will do this. Strong mineral remedies, like mercury and potash, dry up the sores and drive in the disease, but do not cure permanently. Send for our home treatment book and write us if in need of medical advice or special information. This will cost you nothing.

Three Jobs That Hold to a Fellow.
The average American citizen dearly loves an office and therefore the wonder that one resigns after having realized his ambition. Holding office, working on a newspaper and running on a railroad are three things that men will do when they might do better and it is a matter of surprise when a man quits any of the three except when he is obliged to.—Charlotte Observer.

It is Time.
North Carolina is a great State. It has in it a great people. The old definition of North Carolina as "a narrow strip of land lying between the greater States of Virginia and South Carolina" no longer applies. North Carolina has produced more great men since the war than any other Southern State. She has sent them all over the country. We thank God for North Carolina. Long live North Carolina! We like her people—if they do brag a little. We admire her Governor. He's the greatest public man in the South today. We admire her educators, her authors and her editors. We like to hear them speak. We like to read what they write. Even if we do have to read proof for them occasionally.—Spartanburg Herald.

Ran a ten Penny Nail Through his Hand.
While opening a box, J. C. Mount of Three Mile Bay, N. Y., ran a ten penny nail through the flesh part of his hand. Dieting Invites Disease.

As to Preachers.
"Show me ten preachers," said a woman the other day, "who have even a suggestion of sympathy or pathos in their voices, or who read the service with any degree of impressiveness, to say nothing of common intelligence, and I will show you ten churches filled every Sunday to the doors, but with congregations that are interested and in thorough accord with their respective ministers." Surely she is right. So much for just a bit of intelligence; just a touch of human sympathy.—New York Press.

RYDALE'S TONIC

A REAL CURE FOR MALARIA.
It has recently been discovered that the germs that produce Malaria, breed and multiply in the intestines and from there spread throughout the system by means of the blood. This fact explains why Malaria is hard to cure by the old method of treatment. Quinine, iron, etc., stimulate the nerves and build up the blood, but do not destroy the germs that cause the disease. Rydale's Tonic has a specific effect upon the intestines and bowels, freeing them from all disease breeding micro-organisms. It also kills the germs that infest the veins and arteries. It drives from the blood all poisonous matter and makes it rich and healthy. RYDALE'S TONIC is a blood builder, a nerve restorer, and a Malaria destroyer. Try it, it will not disappoint you.

My experience with your excellent medicine, TEETHINA. Our little girl, just thirteen months old, has had much trouble with her bowels. She was exhausted in the shape of prescriptions from family physicians. Her bowels were finally determined to try TEETHINA, and in a day or two there was a great change—now life had returned to the bowels were regular, and thanks to TEETHINA, the little baby is now doing well.
