Gaston county voted Tuesday to issue \$300,000 of four per cent thirty year bonds for the purpose of improving the public road.

BLOOD CELLS.

Man is a millionaire many times over i the possession of blood cells. Woman i the possession of blood cells. Woman is not quite so rich, for scientists have proven that the normal number of red blood cells in adult men is five million; in women four and a half million, to the square millimeter.

The normal cell is not absolutely round in health, but, in disease, becomes extremely irregular in shape. Every one can be in perfect health and possess the millions of rich red blood corpuscles if they only know how to go about it. Dr. R. V. Pierce, consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., advises every man and woman lids' Hotel and Surgical Institute, at Buffalo, N. Y., advises every man and woman to prepare for a long life by observing nature's laws. In the first place, if your digestion is faulty, and the food you eat is not taken up by the blood and assimilated properly, you need a tonic and digestime expector, something that will increase ilated properly, you need a tonic and digestive corrector, something that will increase the red blood corpuscles; he believes in going about this in nature's own way. Years ago, in his active practice, he found that an alterative extract of certain herbs and roots, put up without the use of alco-hol, would put the liver, lungs and heart into fuller and more complete action. This medicine he called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten, it nourishes the blood, and, instead of the ill-shaped corpuscles, the per-son's blood takes on a rich red color and the corpuscles are more nearly round. Nervousness is only the cry of the starved nervousness is only the cry of the starved nerves for food, and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and feels refreshed in the morning.

KNOWLEDGE IS POWER. If you want to know about your body, read Dr. Pierce's Common Sense Medical Adviser, which can be had for the cost of mailing, 31 cents in one-cent stamps for the cloth-bound book, or 21 stamps for the paper-covered volume. 1008 pages. Hot Weather Piles.

To Tobacco Growers.

through a portion of the county in the Interest of the Tobacco Growers Association and feeling a deep interest in the product of the weed I am tempted to say a few words. I found the farmers generally behind with their work, it being open weather and the notice given of a limited nature, I falled to have much attendance at any of the appointments. While I enlisted only two clubs and leaving good and competent men at the head of each. I am sure the good work will go on. In other sections I have the promise of some of the best men to work up other clubs. I find some objections by the way, but it is for want of informstion, when explained the objection seems to banish. Many seems to have given it no thought, having never heard it discussed, though all admit that something ought to be done and why? Because competition has been knocked out of the leaf trade and much of the tobacco is selling below fools;" well it looks very much that longer than any other class of men, time will bring him down, 15 years ago I canvassed the county and found nearly every plantation dotted with perous and flourishing condition.con tentment reigning supreme, making money raising tobacco, paying cash section, what do I see? The houses are rusty with very few exceptions. Good as no hired labor in the fields and none in the cook room, the boys left and seeking other occupations competition. Is it over production? to profit by their example, work more brain, less tobacco, more of some thing to eat and to sell. With this system if organized could not we command any price for the raw ma terial that any reasonable man could desire; would not confidence be re stored? would not the supply storethat are ruining our fair country run on a cash basis, which is far better and more satisfactory and your bank account larger? Notice the farmer today who plants a small or no crop of tobacco and the more of the other things, examine his bank account, he is solid the year around. The farmer who depends almost alone on tobacco will commence to buy supplies in May and June and often in April and often eats up his crop before he can sell it; why this? Well the answer ought to be plain to every intelligent

Well you have said that something "I have been using Chamberlains Cough Remedy an want to say it is the best cough medicine I have ever ta ken," says Geo. L. Chubb, a merch ant of Harlan; Mich. There is no ques gether as one man and stand together as one: follow the instruction of much less time when promptly treat of two men from each county, organ-ed. For sale by all druggist. ized with Mr. S. C. Adams as chairman; they are studying ways and means, they have the key to the situation; they have the remedy, trust stand by them and they will carry when let it be at the very earliest practical moment; form new clubs where you have none. Let the 18 clubs now in existence in the county get at all right prices. down to good solld work, increase effort, it may be too late for that

Don't say that farmers can't organize, can't stick; this is a reflection upon our intelligence. "I can't, never done anything. I will try has done something." Cannot is a losing factor. Will try is a winner. Yes the farmers themselves must prove this, there is no reason in the world why such a class of men raising a particular type of tobacco and occuact together, if they don't it is simply because they won't, if they won't it is simply because they prefer to be slaves than free men

This organization was formed for ing to the other men to give us a reasonable profit on our tobacco. We find in him no help, he is looking to his own interest, while managing accessories for a complete wardrobe beyond any other house a human head was ready for a fancy persons afflicted with piles should be careful t this season of the year.
