A Striking Fact.

A young man was riding in the cab with a locomotive engineer. "Now," said the young man, shud-

dering, "suppose a stage load of children were to glide on to the track from that hane-what a blessing it would then be if you could stop short, instantly, like a man walking."

"Blessing?" said the engineer, "Why, young fellow, if that stage you speak of were to appear now, and I could stop short like a man walking, I wouldn't do it. Instead, I'd keep right on and kill the kids." "Why?

be a stage load of kids slaughtered; in the other case there would be the slaughter of a trainload of people, This train is going at the rate of forty-five page of a train going at that rate would give the passengers precisely the same shock that they would get from a fall of fifty-four feet-a fall from a housetop."

#### Preparing For the Storm.

A correspondent in the north of Ire land sends the following account of an interesting incident that came under his observation

Being on a walking tour through Inishowen and passing along the edge of Lough Swilly, the romantic Lake of Shadows, he noticed an immense gathering of rooks on the sandy shore. In company with several others, the tourist was attracted by this novel spectacle and began to wonder at the cause of it. An old man who was working in a field near the place offered an explanation. He said that the birds were attendance upon the meeting was not picking up sand to ballast themselves in a storm and that when they did so it was a sure sign of approaching bad

-Of course you will attend the weather. He added that on shooting rooks after a gathering of the sort he had found that they were loaded with sand.
