Dr. Pierce's Favorite Prescription, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine or known composition, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its makeing. The "Favorite Prescription" of Dr. Pierce's in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol and that too in large quantities. Furthermore,

A little book of some of these endorsetractive daughters, shaking hands ments will be sent to any address, post-paid, and absolutely free if you request same by postal card or letter, of Dr. R. V. that it is the only medicine especially de-signed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are free for the asking.
