A Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and sids in solution much better than alcohel would. It also possesses medicinal properties of its own, being a valuable deniulcent, putritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal root, Stone root and Queen's root, con-te ned in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities. In all cases where there is a wasting way of flesh, loss of appetite, with treak stomach, as in the early stages of consumption, there can be no doubt that veerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the lesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures. Send for and read the little book of extracts, treating of the properties and uses of the several medproperties and uses of the several medicinal roots that enter into Dr. Pierce's Golden Medical Discovery and learn why this medicine has such a wide range of application in the cure of diseases, It is sent free.
