

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption, poisons that do it, but poor stomach work. One of the most peculiar injunctions ever granted in Mississippi, or anywhere else, was given by a judge in Jackson, who restrains Mrs. Byrd, of Crystal Springs, Miss., from walking on a certain street. It is said Mrs. Byrd has the habit of walking past her former husband's store and advising all customers not to buy goods there. She has been divorced one year on the ground that she was of most violent disposition, impossible to live with, and had threatened to do her old man bodily harm. She must not walk that street anymore or make remarks about her former husband.

There is one condensed opinion of the origin of the Cough Syrup. Nearly all of her cough syrups are constipating especially those containing opiates. Kennedy's Laxative containing Honey and Tar moves the bowels. Contains no opiates. Conforms to the National Pure Food and Drug Law. S. H. W. J. G. Hall.

Elizabeth Pettiford, a colored woman, who lives on Wake street, in Raleigh, is 100 years old. She says she remembers when her father went as a drummer boy to the war of 1812, and at that time she was 6 years old.

UP AND DOWN THE STATE.

Tar Heel Items for Tar Heel Readers—Some Happenings in the Old North State.

In Orange county on Sunday, seven miles from Durham, revenue officers captured two moonshine stills.

Sunday night at Greenville, a burglar entered the residence of Mr. L. H. Roanree and robbed him of \$16.50 in money.

A correspondent of Duplin Journal reports the killing of a very large rattlesnake in that county by a Mr. Lee. The snake measured five feet in length and was eight inches in circumference. The reptile was first seen by some children who were playing along the road.

Rev. Crawford Jackson, of Atlanta, is in this state, seeking to raise funds to establish, about 50 miles from that city a reformatory for white children, his purpose is, he says, to have such a reformatory to take children from any state in the south.

North Carolina is a great State on most everything. A man in Swain county raised five acres in pumpkins this year. So thick were the pumpkins on the ground that a person could walk from one end of the field to the other by stepping from one pumpkin to another.—Sun.

Kenansville Eastern Carolina News: In all sections of the county large fields of cotton can be seen as white as snow. These fields have not been picked over a single time this season, and the cotton is of course damaged. One reason for this is that so many of the negroes will not work in the fields at any price.

Ponder Chronicle: Some of the girls will learn with pleasure that our county commissioners have decided to make our old bachelors pay a double poll tax. This was made known Monday when Rev. C. H. Utley asked admission to list his taxes for this year. He was informed that he would have to pay bachelor tax. From the expression on his face it could be seen that he did not aim to pay more.

The revenue officers have been pretty active during the past few days. Deputy Collectors Merritt and Lloyd captured one still last Thursday several miles from Franklinton, and the latter went back to the same place and found another still in full blast, in exactly the same bed. One was an 80 and the other a 60 gallon capacity. The moonshiners got away, some of their pals having dashed across the fields and given them warning immediately before the officers arrived on the scene.

Opposes the Reformatory.

In speaking of the movement that has started afresh in this state for the establishment of a state reformatory for youthful criminals State Auditor B. F. Dixon says that he is decidedly opposed to the reformatory idea but that he believes the general assembly should pass an act authorizing the judges to turn over to the North Carolina children's home society, head office at Greensboro, all such children as would otherwise be eligible to the reformatory so that this organization could find homes for them where they would be looked after just as homeless children are now provided for by this society which now has almost two hundred children in good homes who would otherwise be homeless. Major Dixon says that, besides many other objections to a reformatory, he fears the results in this state of one that would require a reformatory for negro children and this would be overrun in a little while by great numbers of negro children many caused to commit some offense by their parents so that the care of them may be shifted to the state. Major Dixon thinks too that juvenile courts are not needed in this state at this stage of population conditions, there being scarcely a town in the state that could show conditions requiring such an institution.

In Time of Peace.

In the first month of the Russian-Japan war we had a striking example of the necessity for preparation and the early advance of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of cold and it should be kept at hand ready for instant use. For sale by J. G. Hall.
