Within 24 hours 20,000 bales of cotton, worth \$1,300,000, were shipped from Wilmington on two ships last week.

Willie P. Mangum Turner, who for several months has been city editor of The Raleigh Evening Times, will locate at Lexington for the practice of law.

When the New York teachers tackle the "big boys" under the rule permitting corporal punishment in the public schools the committee on historicals will probably make a report.

Most men are happiest while hustling! The rust of idleness is what breeds the microbe of misery in a man's mind, but a busy man even forgets his dyspepsia and his debts.

Governor Johnson, of Minnesota, says he is not a candidate for the Presidency. He says, further, that he has known personally for three months that Mr. Bryan was a candidate.

Charlotte has grown so big that a sub-station of the Southern has been established in what is called North Charlotte. There is quite a lot of manufacturing in the vicinity and about 8,000 people.

It is remarked that Rutherford B. Hayes was the only President who barred intoxicants from the White House. It may be added that he was the only President who ever reached the White House through the theft of two States that had voted for his opponent.—Wilmington Star.

Assistant Commissioner of Labor and Printing Shipman says reports coming in from the farmers are largely to the effect that since the general advance in the wages paid farm laborers a big per cent. of the negroes have gotten so that they work only about half the time they used to since they can now manage to live on the wages they receive for half their time.

In the animated political discussions of this unusual "off year," says Lexington Dispatch, interest has so centered around the governorship and the three aspirants for that place that little or nothing has been said of the office of lieutenant governor. So far as we have noticed not a man has been suggested for that office. We wish to suggest one, a winner—Col. John S. Cunningham, of Person county.

Judge W. B. Council, who had to give up court at Greensboro on account of illness, has been very ill with pleurisy-pneumonia at his home in Hickory, but is now improving. The judge has not been in good health since he was in a wreck on the Seaboard Air Line something like a year ago. He was injured at the time and this evidently has caused his poor health since. He is a very able jurist and a likable gentleman, and all the state hopes for his complete recovery.

With the completion of the highest building in the world in New York came the necessity of finding a daring steeplejack who would paint the flag-staff and place a large copper ball on its top. The top of the pole is 700 feet above the street. On Saturday E. D. Capell successfully accomplished it. He gave the flag staff five coats of paint and placed the copper globe on the top and received \$1,000 for his work. The 42 story building is expected to be ready for occupancy within 60 days.

Judge Pritchard handed down his decision in the matter of the appeal of counsel for the defendant, the State Corporation Commission and the attorney General of North Carolina from a ruling by Standing Master Montgomery in the railway rate controversy, granting the State's counsel an opportunity to inspect the indexes of the books of the complainant company, the Southern Railway, but over-ruling the exception of the defendants to the Standing Master's ruling refusing to allow the State to examine the books and the accounts of the Southern Railroad prior to June 30, 1905. Could not expect any better from Judge Pritchard.

Split on Organs and Insurance.

The Primitive Baptist brethren of Georgia have split on the question of organs and insurance. One faction opposes organs in the churches and consider it an affront to God and a sin unpardonable to take out insurance on property or human life, especially on church buildings. The other faction looks with favor on these institutions of a wicked and perverse generation—"and there ye are," as Mr. Dooley would say.

Law Constitutional.

The Supreme Court of Tennessee has decided the Pendleton law to be constitutional. This statute, enacted by the Tennessee Legislature last spring, makes mandatory the abolition of saloons in all cities in Tennessee of 100,000 inhabitants or less "hereafter incorporated," it being an amendment to the so-called Adams law which prohibited saloons in all towns of 5,000 or less population. It is a virtual extension of the "four mile law" to all cities in the State.

Beauty of Old People.

Men and women make their own beauty or their own ugliness. Lord Lytton speaks of a man "who was uglier than he had any business to be," and if he could but read it, every human being carries his life in his face, and is good looking or the reverse as his life has been good or evil. On our features the fine chisels of life and emotion are eternally at work. Beauty is not the monopoly of blooming young men and pink and white maids. There is a slow growing beauty which only comes to perfection in old age. Grace belongs to no period of life and improves the longer it exists.

Race Problem in Cities.

Some who conclude that there is a "race question" distributed all over the South will be interested to learn from educational reports of Tennessee this year that all the children of school age in Pickett county in that State are white. Fentress county, Tenn., reports only nine negro students of any age. Like conditions are even more striking in eastern counties of this State. While there is no need of manufacturing a race question in any part of the South, there is in fact more material to the square mile for manufacturing one in Washington, Philadelphia, New York, and even in Boston than there is in Southern areas more extensive than the New England States.—St. Louis Republic.

The Cost of Living.

Do you know how much more on the average it costs you to live than it did in 1896? Bradstreet's Commercial Agency, which keeps account of the ups and downs of the price of commodities, has answered the question in the last issue of "Bradstreet's," which says: "Compared with the low level set on July 1, 1896, the gain is 54.8 per cent." So if it cost you \$100 a month to live then, it now costs you over \$154. The protected trusts are the chief cause of high prices and there seems to be a determination by the dominant political party to refuse to revise the tariff which protects the trusts and prevents competition. If the Republican party wins in the coming national election, the leaders will declare that it is an endorsement of the tariff policy of protecting the trusts and there can be but little relief from trust high prices as long as the tariff protects them. As large profits have induced the trusts to manufacture more than the people can consume, the surplus is sold abroad at bargain prices. Why should not the American people participate in these bargains the trusts sell to foreigners?

His Dear Old Mother.

"My dear old mother, who is now eighty three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well. That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by R. L. Hamilton, Druggist. 50.

I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing medicine." J. G. Hall.

Like Finding Money.

J. G. Hall the popular druggist is making an offer that is just like finding money for he is selling a regular 50c bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half price. In addition to this large discount he agrees to return the money to any purchaser whom the specific does not cure.

It is quite unusual to be able to buy 50c pieces for a quarter, but that is what this offer really means, for it is only recently, through the solicitation of druggist J. G. Hall that this medicine could be bought for less than 50c. He urged the proprietors to allow him to sell it at this reduced price for a little while, agreeing to sell a certain amount. The result has justified his good judgment, for the sale has been something remarkable.

Anyone who suffers with headache, dyspepsia, dizziness, sour stomach, speck before the eyes, or any liver trouble, should take advantage of this opportunity, for Dr. Howard's specific will cure all these troubles. But if by any chance it should not, J. G. Hall will return your money.
