

FINE TOBACCO

Granville County is Noted for its fine Tobacco and The Fine Tobacco is Made With

OBER'S GUANO.

This brand of guano has been used in Granville county for 40 years and the sons of the men who used it 40 years ago, are using it now. Messrs. Dennis Tilly, Jas. P. Hobgood and Jas. A. Crews visited Baltimore about 1869 at the request of Messrs. Ober & Sons and were so well pleased with their inspection that they placed their order for Ober guano

The Sale of Obers Guano Increases Every Year.

We cannot recall a single person who used it last year who expects to make a change, while orders from new customers are coming in every day. These new customers have heard their neighbors say that Obers give the tobacco the

RIGHT COLOR AND HEAVY WEIGHT.

If you have never used Ober send in your order. If you buy it this year you will use it next. We would like to sell you.

HORNER BROS., COMPANY.

About the worlds Newspapers.

A French statistician who has been searching records calculates that there is one newspaper published for every 82,000 inhabitants of the known world in Europe, Germany heads the list with 5,000 newspapers, of which 800 are published daily. England comes next with 3,000 newspapers, of which 809 are dailies, and than comes France with 2,819 newspapers, of which only one fourth are daily or published twice or thrice a week. Italy comes fourth with 1,400 papers, and is followed by Austria-Hungary, Spain, Russia, Greece and Switzerland, the last having 450 newspapers. Altogether Europe has about 20,000 newspapers. There are 12,000 newspapers pub-

lished in the United States; about 1,000 of them are published daily, and 120 are managed, edited and published by negroes. In Asia there are 3,000 periodical publications, of which the greater part, appear in British India and Japan. The latter country publishes 1,500 newspapers.—Printing News.

Embarrassing.

Mike (as some one knocks)—“Sure! if Oi don't answer, uts some want t' give me a job, an' if Oi do answer, ut's the lan'lord afther the rint.”—Life.

Valuable Horse Lost.

The Ava Importing Company, of Illinois, which has had a representative here for sometime with a lot of horses, has lost a German coach stallion valued at \$3,200. The animal was taken sick suddenly and died within a short time. Insurance to the amount of \$1,500 was carried on the horse, which was a perfect beauty, sixteen or seventeen hands high, weighing 1,500 pounds.—Lexington correspondent to Charlotte Observer.

Respect for the Dead.

A big Yorkshireman had come all the way to London to see the British Museum. Unfortunately it was a day when the museum was closed. The indignant Yorkshireman refused to take no for an answer from the policeman at the gate. “Ain't this public property,” he cried.

“Yes,” admitted the policeman; “but,” he added, struck by a bright idea, “one of the mummies died on Tuesday, and do you begrudge us one day to bury him in?”

“Oh, excuse me,” said the Yorkshireman in a hushed voice. “In that case I won't intrude.”—Universalist Leader.

Preacher's Travels in One Month.

In his report for January, made to the Moravian Ministers' Conference, Rev. Edgar A. Holton stated that early in January he drove from Mayodan to Greensboro, 35 miles. Starting from

the former place he jourueyed from 6 p. m. till 3 a. m., and preached and visited the next day. A drive to Rockford, Winston-Salem and other, places supplied the following list of travel for the month: By rail, 180 miles; street car, 10 miles; horseback, 10 miles; in buggy, 257 miles, on foot, 4 miles.—Twin City Sentinel, Winston-Salem.

In a Bad Way.

Dr. A. M. Dougal, surgeon of the Carthaginian, was describing the splendid cure of seasickness that he obtains of hypnotism.

“The most violent cases yield to my treatment,” said Dr. Dougal. “Yes, some very violent cases indeed, have vanished under my hands.

“I remember a particularly bad case.”

Dr. Dougal stroked his mouth to hide a smile.

“It was a Philadelphia squab dealer. He sent for me on the second day out. As I hurried to his cabin I could hear him groaning a corridor away.

“Do you feel very bad?” I asked the man, sympathetically.

“Oh, dear, yes!” he groaned, “Oh, my! I feel very, very bad, indeed!”

“I looked at him. Serpentine undulations passed over his frame. He was racked and shaken as by an earthquake.

“Can't you keep anything on your stomach?” I inquired.

“Only my hands,” he sighed. “Only my hands.”—New York Tribune.

MICROAES IN THE SCALP.

The Latest Explanation is That Microbes Cause Baldness.

Professor Unna of Hamburg, Germany, and Dr. Sabourand of Paris, France, share the honor of having discovered the hair microbe.

Baldness is not caused through a few weeks' work of these hairmicrobes but is the result of conditions brought about by their presence. Baldness may not occur until years after the microbes began work, but it is certain to

come sooner or later.

The microbes cut off the blood supply. They feed on the fatty matter about the root of the hair, through which the blood is absorbed. Finally the fatty matter is wholly consumed, the food supply of the hair is gone and it starves and finally dies.

Resorcin is one of the most effective germ destroyers; Beta Naphthol is both germicidal and antiseptic; Pilocarpin, though not a dye, restores natural color to hair when loss of color was caused by disease. These curatives properly mixed with alcohol as a stimulant, perfect a remedy unequalled for curing scalp and hair troubles.

We want everyone who has any scalp or hair trouble to try Rexall's 93 Hair Tonic, which contains all these ingredients. If it does not grow hair on your bald head, stop your hair from falling out; cure you of dandruff; make your hair thick, silky, luxuriant; if it does not give you complete satisfaction in every particular, return the empty bottle to us, and we shall return every penny you paid us for it, without question or formality.

Of course, you understand that when we say that Rexall's 93 Hair Tonic will grow hair on bald heads, we do not refer to cases where the roots are entirely dead, the pores of the scalp closed, and the head has the shiny appearance of a billiard ball. In cases like this, there is no hope. In all other cases of baldness Rexall's 93 Hair Tonic will positively grow hair, or cost the user nothing. Two Sizes, 50c. and \$1.00. J. G. Hall, Main Street.

Proposal written on Egg.

Wilkesbarre, Pa.—While employes of a wholesale commission house here were unpacking eggs, they found one

containing a proposal of marriage. On it were the words: “Charles A. P. Ulsh, of Middle Creek, Synder County, Pa., a good-looking wealthy young man, would be pleased to have an answer from any

marriageable young lady.” The employes are keeping the egg, but will give the young man's address to several young ladies they know, and see what can be done for him.—Exchange.
