TO THE HOUSEWIVES.

When a mere man has something to say to a woman and can't get his nerve up to the point of saying it he goes way out in a quiet retreat and pens his heart throbs and slinks off in trembling and fear to await the answer. At least, that is the charge preferred against him.

That idea has appealed to the editors, and this week they will test the merits of it.

We have something to say to the ladies of the Village Improvement Society and dare not present the petition in person.

We beg to notify the ladies of the Society that there are going to be three big days in Oxford between now and July, and that a general town cleaning and refurbishing up would be in excellent order. Their husbands, brothers, sons, grandchildren, sweethearts, affinites, and other brutes every day throw scraps of paper, cigar stumps, bills, and other useless rubbish on the streets will not make a very nice appearance for the strangers who come in our midst. This old town upon the three occasions should shine and glisten like Spotsville.

We therefore very timidly and very respectfully ask the ladies to spare enough time from their domestic duties to properly put the burgh in order upon each day preceding the three; the 10th of May, the 26th of May and the 24th of June. We trust that they will put in motion brooms, hoes, picks, shovels, etc. And if any of their masculine kin try to obtrude their opinions, the ladies should silence the mutineers with hat—or rolling pin.

Picnic.

Written by request:

There will be a basket picnic Easter Monday at W. D. Hicks' Store in Vance county, four miles east of Stovall. There will be an egg hunt at 10 o'clock a. m. Prof. J. C. Kittrell, Superintendent of Public Schools of Vance county, and other distinguished gentlemen will address the people on this important occasion. We invite Supt. Webb, of Granville, to be present and take part. There will be a game of baseball in the afternoon. There will be present many kind and big hearted folks of middle and old age; also there will be clever young men, and plenty of pretty girls.

COMFORTING WORDS.

Many a Oxford Household will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Oxford readers.

Mrs. A. J. Dalby, corner Main and Front streets, Oxford, N. C., says: "I received great benefit from Doan's Kidney Pills and cheerfully recommend them to anyone suffering from kidney trouble. I was a victim of this complaint for a long time and was also in misery from intense backaches and pains through my kidneys. I was unable to rest well and upon arising in the morning, I was so tired and languid that it was quite an effort for me to get about. Finally the kidney secretions became irregular and contained a heavy sediment. From this symptom, I concluded that my kidneys were at fault and accordingly procured a box of Doan's Kidney Pills from R. L. Hamilton's drug store. They soon proved their effectiveness and I had only taken them a short time when the backache and other difficulties disappeared."

Baseball at Horners.

Tuesday began the spring series of games between the companies A. and B. of Horner's School. These games count in the competition for the colors at commencement. The first game which was rather exciting resulted in A's coming off victorious with a score of 7 to B's 6.

The rush of work in the office compelled us to leave out the individual score in detail. The personnel of the team comprised:

ANNOUNCEMENT!

The owners of Tar Valley Manufacturing Company have felt for years that the local public had tired of the crude and antiquated mills that were accessible; but while appreciating this have wondered if the public would prefer to patronize a HOME MILL equipped to compete with the BEST ANYWHERE. At length the doubts were dispelled by reasoning that the distant mills were patronized and their products purchased wholly on account of a lack of equal facilities more accessible. Adhering firmly to this conclusion the Tar Valley Manufacturing Co., set about at very great expense to build and equip a mill of large capacity with the very best and latest machinery feeling assured that as soon as its facilities were accessible to the public the public would promptly respond to its support by a liberal patronage. For more than a year the tedious work of construction has gone forward but the day of completion of the undertaking has almost arrived. It is with much pleasure therefore that the Tar Valley Manufacturing Company announces that its new and thoroughly modern Roller Flour Mills will be in operation about April the 20th.

This mill is located at the site of the old Minor & Beasley mill on Tar River about seven miles from Oxford, on what is known as the Fish Dam Road. It is bran new throughout and will have a daily capacity of 80 barrels of flour and 600 bushels of meal. It is fitted throughout with the latest and most approved machinery all operated by water power. The public will be especially interested to know that a very complete mill for grinding together corn and cob for stock has been provided, having a daily capacity of 50 tons, another great convenience is a large power corn sheller having a daily capacity of 1250 bushels. The machinery for grinding wheat is so full and complete as to assure the largest possible yield of flour. These are but a few details. The completion and perfection of this mill plant can be fully appreciated only after a personal visit and a trial. It has no superior in the State.

The foregoing is preliminary to a very cordial invitation to the public to have trial loads of both wheat and corn ready by April the 20th for the christening of this clean new mill. It is very attractively located in the valley of the Tar. The new mill building is commodious and the place generally a pleasant one to visit.

The people who haul their grain to mill will have the satisfaction that never existed before in this part of the State as the mill is of such capacity that no waiting or coming back will be necessary. The mill will be open at all hours DAY and NIGHT. Those who try earliest will soonest experience the satisfactions of having accessible a mill of the finest equipment for the production of flour and meal of the HIGHEST quality. Those desiring to forward by rail will ship to Tar River station on the Seaboard Air Line Railroad. Such shipments will be handled at the mill on the same day of arrival and shipped back to station of consigners with return charges paid.

In making such shipments notify Tar Valley Manufacturing Company by letter inclosing bill of lading. Address letters to Tar River, N. C.
