

TO HAVE FACTORY ANNEX

TAYLOR-CANNADY BUGGY COMPANY ON VERGE OF BEGINNING NEW ADDITION TO FACTORY.

New Building of Three Stories Will Give 35,000 Feet of Additional Floor Space and Allow Output to be Increased to 7,500 Jobs.

For sometime it has been known that the Taylor-Cannady Buggy Company has been intending to make a considerable addition to its building. A reporter went around to see Secretary Winston the other day and obtained a little information from that general citizen about the proposed changes.

Though the present accommodations seem ample to the casual observer, more floor space has been badly needed for some time, and the annex to be begun about the 15th of this month will give vastly increased facilities and enable the factory to increase its annual output to 7,500 jobs. The addition which will be of three stories will be erected on the western side extending across to and adjoining the warehouse. This will add 35,000 feet of floor space which with the warehouse will be converted into a manufacturing building. Work will be pushed to completion as rapidly as possible, and when done, will give the Taylor-Cannady Buggy Company one of the best equipped plants in the South.

The addition has been planned for some time but the panic postponed operations until now, and the demand is so urgent that it is bound to be completed with. The Company has been making from 4,500 to 5,000 jobs, but on account of the cramped quarters 14 to 15 hours of work has often been required. The annex will add 35,000 feet of the greatly increased output of 7,500 on the regular time, to say nothing of the celerity, the satisfaction and general despatch of business. The force will be increased to handle the increased business.

When asked about general business conditions, Mr. Winston said: "I think the general business conditions throughout the country are overwhelmingly good; business seems to be on a good sound basis. The farmers were never in better shape and the people are feeling hopeful."

IN THE MAYOR'S COURT.

Squire Ellis Has Case on Tuesday and Binds Defendants Over to Superior Term of Court.

Wednesday afternoon Squire S. V. Ellis had in his court for trial Mr. R. T. Moss upon charge of assaulting a 29-year old colored boy named Harris, a deadly weapon having been used. According to Mr. Moss' testimony, Harris had assaulted both his sons and himself with a knife and rocks, and admitted using the pistol claiming self-defense as justification. The negro accused the Moss boys of throwing a stick in front of his bicycle Sunday. And upon several occasions the colored man was said to have threatened the Moss' with the knife and rocks.

After hearing the evidence the magistrate bound Mr. Moss over to superior court in the sum of \$25, and Harris upon two charges, one each for the knife and the rocks, his bond calling for \$50. Messrs. Stem & Brummitt represented Mr. Moss, and J. Lanier, Esq. was Harris' attorney.

Don't Forget the Penny Rate.

Those people in the Country who have not made their stamp purchases had better buy some to keep on hand. The government has made a new ruling recently and everybody will do well to observe it, for the usual carriers should not have any more hardships than are absolutely necessary.

GORMAN NOTES.

Mr. Caply White Cutting Wood cuts Off Toe and Gets Ugly Wound—Visitors and Travelers.

It can no longer be said that our little village is dry for she has been soaking now for quite a while. Our rural carrier said he had been looking for Uncle Sam eight years, but the 25th 1910 and thought he knew all about mucky roads, but his experience the past week had convinced him that he must yet learn.

Mrs. W. G. Holloway has returned from Durham where she has been under an operation which proved a success.

Mrs. W. A. Ferrell is able to be out again being confined to her room for several days.

David Copley is able to get out on crutches now. Sometime ago he was cutting wood and the ax hung over his head and when it slipped off the head it struck his foot, cutting off his toe and leaving an ugly gash which had to be drawn together with thirteen stitches.

Asper Copley and daughter Miss Dora, of Mineral Spring vicinity were the guests of J. D. Copley and family Sunday eve.

Miss Minnie Ferrell spent Saturday and Sunday with Miss Bertha and over on route 4 from Durham. Near Cheek of Durham vicinity was the welcome guest of Arthur H. Saturday night.

Miss Fannie Ferrell was the guest of Miss Rosa Ferrell over on route 4 from Durham Monday night. Glenn of Durham was a visitor at J. D. Copley Sunday eve. J. C. Markham of Durham called to see home folks Sunday.

Correspondent.

We have just received one hundred dozen shirts the best 50 cent made. They are going at 39c at Crenshaw.

GRANVILLE HAS FINE SUBSOIL.

Mr. F. B. Newell Makes Inspection and Finds Fine Conditions—"You can make Anything You Want," He Says.

Mr. F. B. Newell, who has just been in Granville for the purpose of making an investigation into the soil conditions has found conditions of such a nature to make every citizen feel good. Mr. Newell arrived last Tuesday week and made two different examinations, one at Berea and the other near the farm of ex-commissioner Ed. C. Harris. After a considerable poking into the ground in spite of the sleet and humidity he was much gratified at the result. Talking to a reporter just as he was getting ready to take the Seaboard train Thursday afternoon, he said: "It is possible to make anything you want to make. I was surprised that Granville has such a rich sub-soil as you have."

Mr. Newell reports that our sub-soil is much better than the average, and that the farm lands can be easily made to produce any crop that the farmers care to. We can use green manures, clovers, and make a soil as deep as is wanted.

When asked about the agricultural prospects for 1910, the demonstrator said that the farmers are taking a great deal more interest than they ever have before that the farmers of Granville are leading them all in their interest as evidenced. He has been in twenty counties from Hyde to Granville and has attended more than forty meetings since Christmas, and finds good old Granville about the most interested of them all.

Mr. Newell expects the average of yield of corn for the county to be about 20 bushels this year which is ahead of records of the past. The average yield for North Carolina for the past 30 years has been but 14 to 12 bushels; for the year 1908 it was 18 1/2 and for 1909 it was but 16 1/2. Granville has always been backward in corn production, coming barely up to the average yield, producing about 15 1/2 to 16 bushels. And this year a 20 bushel average means many and many a dollar more than the past has brought forth.

Mr. Newell is working in the interest of the Northeastern Party, which is under the auspices of the state government and of the United States Department for the Seed Corn selection campaign now being operated. He went from Oxford to High Point and Liberty where he had similar work to do.

BASEBALL ASSOCIATION FORMED

Manager and Assistant Elected at Meeting Held Last Friday Night and Plans for Season Discussed.

A number of baseball enthusiasts met in the office of Capt. W. A. Devlin last Friday night and organized a baseball association, when Mr. T. Lanier was elected manager and Mr. Albert Taylor, assistant manager.

There are first class indications that Oxford will have a good team this year and that many interesting games will be pulled off during the forthcoming spring and summer. An early start will allow important advantages that were impossible of being obtained last year on account of the lateness of getting into the field.

SIDEWALK SPITTING HARMFUL.

Seven per cent of "Spits" Examined Showed Tuberculosis Germs—Dust From Sanatoria Found to be Free of Germs.

In order to show that spitting on sidewalks is dangerous to health, an investigation has been made by Dr. John Robertson, Medical Health Officer of Birmingham, England, which shows that seven per cent of the "spits" collected in public places contained consumption germs. On the other hand the dust collected from the floors of the cottages of the Adirondack Cottage Sanitarium has been found to be free of tuberculosis germs, showing that a careful-looked consumptive is not dangerous.

WILL PRESENT PRINCESS.

Senior Class at Seminary Will Give Entertainment on Next Friday Night—Good Program Promised.

The young ladies of the Senior Class at the Seminary will present the "Princess" on this Friday evening when an admission of 50 cts will be charged. The young ladies of the Seminary, have of recent years given some excellent performances, though the crowds have not all ways been in proportion to the merits of the exhibitions. The Seniors have been making preparations to render an interesting performance. No doubt, a good audience will be on hand to witness it.

RETURN FROM MEETING.

Mrs. A. A. Hicks Returns From Goldsboro Where She Has Been in Attendance on Important Committee Meeting.

Mrs. A. A. Hicks returned to Oxford Monday from a trip to Goldsboro, where she had been in attendance upon a meeting of the executive board of the Federation of Women's Clubs, of North Carolina. This committee which is composed of but eleven members selected Henderson as the place for the meeting of the Federation, which will take place on the 3rd, 4th, and 5th days of May next. Mrs. Hicks was elected a delegate to attend the Biennial meeting of the National Federation to be held in Cincinnati on the 11th of May.

MRS. A. H. POWELL ENTERTAINS.

Gives Washington Birthday Party to the Horner Cadets of Her Sunday School Class Saturday.

On last Saturday, Mrs. A. H. Powell of Oxford, gave a Washington birthday party to her Sunday school class. The local correspondent of the News & Observer gave the following account of it:

Saturday afternoon from 3:30 to 6 o'clock, Mrs. A. Hamilton Powell entertained at a Washington birthday party, complimentary to her Sunday school class of Horner Cadets. The reception rooms were all thrown open, and elaborately decorated in blue and bunting and was the scene of much merriment, and from which patriotic games in progressive order were played.

The score cards were hand-painted in cherries and hatchets. The first prize, a box of "Bitter Sweets," artistically decorated in small flags and ribbons, was won by Miss Annie Cobb, of Durham. The second prize, a miniature colonial hat, decorated in cherries, and filled with bon-bons, was won by Miss Esther Mitchell, and the booby, a large paper mache cherry was won by Cadet Sears.

The following young ladies assisted Mrs. Powell in receiving the cadets: Miss Mary Taylor, Miss Mary Shum, Miss Esther Mitchell, Miss Louise Curran, of Durham; Miss Annie Cobb, of Durham; Miss Helen Paris, Miss Sophronia Cooper, Miss Julia Cooper, Miss Lottie Webb, Miss Lucy Landis, Miss May Royall Hancock, Miss Francis Abbott.

THE HONOR ROLL.

The Bright and Well Behaved Pupils Who Have Reached the List During Month of February.

First Grade, Section A.—John Perr Hall, Phemia Lou Hester, Annie May Spencer, Willie Howell, Irvin Jackson, Fox Tilley, Dovie Cheatham, Billy Abbott.

First Grade Section B.—Ida Kerr Taylor, Lillian C. Caetham, Robert Starnes, Annie May Watkins, Edward Blackwell.

Second Grade.—Louise Curran, Roy U. Jones, Zella Newton, Edmund Harris, Asm Hall, Harry Starnes.

Third Grade.—Nina Cooper, Jessie White, Fred Burchette, Julian Abbott, Charlotte Carroll, Margaret Fendleton, Frances Mitchell.

Fourth Grade.—Sophronia Looman Georgia Winston, John Covington, Irene Ferson, Joe Ragland, Edward Ballou, Fannie Frazier, Henry Shaw, Willie Hester, Joseph Bryan, George Cheatham, Fannie Taylor.

Fifth Grade.—Fannie Buchanan, Susan Webb, Compton Bobbitt, Lila Curran, Dorothy Royster, Helen Royster, Muzett Daniel, Katherine Gardner, Lorena Peed, Laura Stedman, Hallie Fuller, Viola Johnson.

Sixth Grade.—Alva Lee Curran, Edith Parham, Marie Meadows, Ruby Adcock, Ruth Crews, Carrie Harris, Jessie Bullock.

Seventh Grade.—Londa Shamburg, Paul Daniel, Harry Jones, Josephine Medford, Grace Critcher, Marian Wyatt, Lillian Taylor, Ruth Shaw, Harry Renn, Hallie Meadows.

Eighth Grade.—Beverly Royster, Virginia Carroll, John Roller, Ellen Egan, Lucy Wyatt, Robert Makard, Thomas White, William Adams, John Stedman, Esther Mitchell.

Ninth Grade.—Lena Jones, Harvey Bullock, Tazzie Ivan, Jim Taylor, Elie Baker, Mabel Hart, Ruth Taylor, Frances Hays Frank Hancock, Estelle Bullock, Sadie Day, Nouvelle O'Brian, Pauline Howard.

Gen. Royster Candidate for Congress.

The Oxford Public Ledger last week reported that Gen. Beverly S. Royster for the Democratic nomination for Congress in the Fifth District this year. Gen. Royster, who is a campaigner of no mean ability and who has ever been a fighting and working Democrat, was an unsuccessful aspirant for the nomination two years ago, and his friends now present him as the logical candidate to redeem the district. So far Gen. Royster and Dr. George A. Mebane are the only avowed candidates for the nomination, but there are several other distinguished gentlemen in the district who would be glad to receive the honor. With a united Democracy there can be no doubt as to redeeming the district, and it is the duty of the party to get together and unite on the strongest man as the standard-bearer. The sad experience of 1908 teaches us that, with a divided household, we could not elect the strongest and most brilliant man who could be named for the office. Let the party get together first and then name a winning candidate—and if the party is united, he will be a winner.—Charlotte Observer 23rd.

NOTICE!

I am now located opposite "Taylor-Cannady Buggy Co." in the building to the right of Smith and Mangum livery stables. So don't forget me if you need any work done on your buggy, surrey, phaeton, or wagon. I have the services of a man who has spent his life in the blacksmith shop and thoroughly understands the repairing of wheels, shafts, tops, the setting of axles or anything needed to be done. If you want the best work for the least money, here is the place. If you want your buggy, phaeton, or surrey repainted and made to look new, I am at your service. I have also on hand, New Wheels, Bodies, Shafts, Dashes, Seats etc., which I will sell at lowest possible price. I have now on hand several Second-hand Buggies which look almost as good as new. These will go at a Bargain. I will appreciate your patronage and strive hard to please you. HERRY H. CALLIS.

STREET CLEANING WEEK.

Mayor Brummitt Sets From March 10 to the 17th Inclusive as the Week Indicated for Work.

To the Citizens of Oxford: At the request of the ladies of the Village Improvement Society and with the approval of the Board of Town Commissioners, I hereby designate and set apart the week of MARCH 10-17 AS CLEANING WEEK for the town of Oxford. This date is selected because March 10th is Civic Day throughout the United States and the ladies of this Society feel that the day could not be better kept than by devoting it and the week thereafter to a thorough cleaning up of the town. During the week set apart for this purpose the citizens of the town are earnestly requested to clean up their premises, placing the trash, paper and refuse matter so collected on the streets in front of their homes and places of business. As fast as it can be done, this trash will be taken away by the town carts and by wagons which several of the members of Improvement Society have offered to furnish for this purpose.

The carts and wagons may not be able to remove the trash as rapidly as it is placed on the streets and it is possible that some of it may be overlooked. If any citizen finds it has not been removed from in front of his house within a reasonable time after having been placed there, a request for its removal preferred to the Mayor or the Chief of Police will be promptly attended to.

I trust that no citizen of the town will neglect this most important matter of cleaning his premises during the week designated. Besides adding to the beauty of his own place and thus increasing the general appearance of the town, a thorough cleaning up of the town will without doubt be an important element in the promotion of its healthfulness. Let every citizen do all within his power to aid the ladies of the Society who are so patriotically seeking to uplift and improve our community. Dennis G. Brummitt, Mayor.

BOY BADLY INJURED.

Son of Mr. C. J. Cooper, of Fayetteville Sustained Serious Accident With Cartridge Last Week.

The Fayetteville Observer last week told of a serious accident that befell the little son of Mr. C. J. Cooper. Oxford people will be distressed to learn of the untoward happening. The Observer said:

Master Edward Cooper, ten years of age, the bright little son of Mr. and Mrs. C. J. Cooper met with a terrible accident at his home on Green street yesterday afternoon, when a dynamite cartridge exploded in his hand, several pieces of the shell entering his body; the most serious wound, however, being in his right eye, a piece of the shell penetrating through the upper lid. Dr. Lilly, the eye specialist, decided it was best to take the child to Baltimore, to consult with Dr. Wood the famous specialist, and he and the father left with the little fellow on the Palmetto Limited at 10:10 o'clock last night. Up to 4 o'clock this afternoon no word had been received from them.

While at school yesterday, Master Cooper saw several boys with brass cartridges, about the size of a 22 calibre rifle cartridge, but twice as long and apparently empty. He wanted one, and was told that there was a box of them in Capt. S. M. Beasley's yard, on Maiden Lane, which had been run over from Mr. Beasley's master's office. Just before that building was destroyed by fire early yesterday morning. It seems that these innocent looking little things, are brass caps, containing nitro-glycerine, and are used in exploding dynamite, and are part of the supplies of a railway roadmaster's office.

As soon as school was out, Master Cooper hurried to Capt. Beasley's, and secured several of the caps. He then went home and while the cook was getting dinner for him, he went out to the rear piazza, secured a nail and jabbed it down into the cartridge, which exploded, with the result as told above. It is a great wonder that other boys did not meet with similar accidents, and parents should be careful to see that none of their children have any of these terrible little explosives.

We sincerely trust that Dr. Wood can restore the sight of the injured eye of our little friend.

ANONYMOUS LETTERS.

Numbers of Unsigned Communications Have Been Received and Had to be Refused.

The editors of the Ledger of late have received numbers of unsigned articles, no indications of the author's name appearing. We must again announce that we cannot publish any such, no matter on what subject. When we do not find any name, we are obliged to refuse the matter.

CROSSES OF HONOR.

All Veterans Who Deserve Crosses of Honor Should Make Request Before the Tenth of March.

The Ledger is requested to say that all veterans deserving Crosses of Honor presented to them May 10th 1910 are requested to send in applications on or before March 10th, as the applications must be in hands of the Daughters of the Confederacy by the specified date.

Meeting of Democrats.

The Democrats of Granville are requested to come to Oxford Monday, March the 7th to promote the candidacy of General B. S. Royster for Congress.

MRS. W. I. ANDERSON DEAD.

Was Formerly Miss Fannie Landis. Daughter of Late Captain A. Landis—Buried in Greensboro.

The people of Oxford were greatly shocked this week upon learning of the death of Mrs. W. I. Anderson, of Greensboro, which sad event took place last Saturday afternoon at 6 o'clock. Mrs. Anderson had been apparently in the best of health until the preceding Thursday when she made a slight complaint. From then she gradually grew worse until her death occurred at the time indicated.

The deceased was a daughter of the late Capt. A. Landis and in her girlhood days one of the belles of Oxford. She was married to Mr. W. I. Anderson about nine or ten years ago and leaves him with a little daughter to mourn her loss.

The funeral services were conducted from St. Andrew's Episcopal Church in Greensboro by the Rev. S. R. Guignard on Sunday afternoon and the interment was made in Green Hill cemetery.

FOR NEW SCHOOL.

Superintendent of Public Instruction J. Y. Joyner Confers With Graded School Board About Suitable Building.

Last week the Hon. J. Y. Joyner came to Oxford and held a conference with the graded school board with reference to plans and finances for a suitable structure to replace the present wooden building. The plans of the board are not matured and nothing definite has been done as yet though it is more than probable that a \$20,000 building will be erected during the summer. The demands are so urgent that the board feels the necessity of going forward with all the proper dispatch. The members are going over the situation carefully working out the necessary details, and will give out the results when these have been satisfactorily worked out.

ABOUT STOVALL.

Observer Says Stovall is Planning New Industries and That it wants the Plover.

The enterprising citizens of Stovall are planning for one or more new manufacturing enterprises for their town. For a number of years the lumber interests have been important factors in the commercial energy of the place. A large part of the purchasable timber has been exhausted, and the people are looking for some other source of revenue to replace that formerly coming from lumber plants. Just such conditions as this seem necessary to call on the latent energy of a people and give them an opportunity to show the temper of their steel. This has been noted again and again in the case of fires or other seeming calamities to towns and cities. If the inhabitants have been of the right kind, these setbacks have been turned into stepping stones to better, higher, and more prosperous things. The new roads to Grassy Creek Church and to Mountain Creek Bridge are expected to be of great benefit to Stovall. One of the greatest drawbacks to the town which, however, is fortunately only a temporary condition, is the large amount of unutilized land in its immediate vicinity. When this is put under the plow and that already cultivated is made to produce two or three times as much as it now does, Stovall will be a prosperous business center of two or three thousand inhabitants.

PRESS BROKE DOWN.

Piece of the Machine Was Fractured and Caused Considerable Loss of Time Last Week.

We came near having no Ledger at all last week. Just after we had our press set up, in the form, and actually on the press, a part of the machine broke down, and it took nearly two days to get it fixed. Of course, the paper was greatly delayed but after a time the damage was repaired.

WAREHOUSE PROPERTY SOLD.

Mr. Crawford Hobgood Has Purchased Johnson Warehouse and Mr. Z. W. Lyon will Retire From Business.

An important real estate deal was made last week when Mr. S. Crawford Hobgood purchased the Johnson Warehouse, owned by Mrs. Helen Crenshaw, of Louisburg, for many years occupied by Mr. Lyon. Mr. Lyon has decided to retire from the warehouse business after having engaged in it for the past 16 years. Mr. Hobgood has not decided as to what his future intentions are though various rumors have been circulated.

About Growing Things.

A lady of the Village Improvement Society has with a great deal of care and judgement prepared an article for the Ledger along the lines of plant culture and care. It is written for this immediate section and will be found of especial value from that standpoint as well as for its general merits. It will be found in another column.

Jewel Yam and Norton Yam Seed Potatoes For Sale, \$1 a bushel. J. Merrill Peace.

SEED CORN SELECTION.

PROF. HUDSON AND MR. NEWELL MEET NUMBER OF FARMERS IN COURT HOUSE.

A Good Deal of Corn Was Brought in By the Farmers and a Selection Was Made—Discussion by Visitors on Culture of Corn and Fertilizers.

Tuesday was very disagreeable, wet day, but seventy-five or more farmers braved the inclement weather and came to Oxford to have Prof. C. R. Hudson, of the Department of Agriculture, and Mr. F. B. Newell, select their seed corn, and to hear talks made by those gentlemen. Mr. Otto Daniel, local demonstrator, who was with them, estimates that from 40 to 50 ears of corn were brought along by 15 or 20 farmers and that a number appeared with smaller quantities.

Mr. Hudson talked on the cost of production of corn, Mr. Newell about the chief fertilizers for corn and Mr. Hudson later spoke upon the selection of seed corn.

Those gentlemen told the farmers present that a cylindrical ear was desired, one of the same size at both ends, wide at top grain, or as much cob as can be with the deep grain. If of a white variety, the very whitest ears should be selected because this is an evidence of soundness.

They advise that each farmer breed up his corn rather than obtain it elsewhere. He can thus acclimate it and it will be better suited to the particular climate, soil, and the methods of cultivation than any other, and will naturally be of more value. The fact that a one ear variety can be bred into a 2 ear was forcibly urged upon the listeners.

The lecturers made a special point of urging the land built up so as not to need fertilizers. They advocate building it up with clover, peas, and stated that a little acid phosphate was about all that was needed.

Mr. Newell to a reporter re-affirmed his conclusions as to the sub-soil of Granville, and his ideas of the potent powers of the land.

SHARON NOTES.

Mr. Alfred Sherman Has Been Quite Sick—Mr. McFarland Has Suffered Relapse—Other News in Community.

Mr. Alfred Sherman one of Granville's oldest and best citizens was taken suddenly, and critically ill some days ago, but all were delighted to see him at church Sunday at Sharon.

Mr. Luther McFarland, who has been sorely afflicted for many years, a month ago was thought to be on the road to recovery, but since then he has lost much that he had gained, and is now not able to sit up even in his invalid chair. He is a bright, noble, young man, and all are anxious for his recovery.

The recent few warm days have caused the many large wheat fields in this section to put on a good appearance. The oat crop is thought to be damaged some by the cold weather.

Mr. Webb Knott lost a few days ago, his highly prized family horse. He was 32 years old. For nearly two years, the old horse had not been able to work, but Mr. Knott, like a humanitarian, treated the old horse with the utmost kindness; in consideration of his valuable services, in by-gone years. This was right.

One of the great sins of our time, is cruelty to brutes. There is never a grand jury impeached at any of our courts, that does their full, sworn duty. They ought to indict dozens of men each court, for cruelty to brutes. Horses are worked until they cannot do good service and then are given up to be abused, or starved to death. Many young horses and mules are worked, beat, and starved until they die.

In spite of the terrible muddy roads a good sized congregation assembled at Sharon church last Sabbath, and listened attentively to a talk, perhaps too long on Foreign Missions. The speaker was intensely earnest in the presentation of the subject. It is sincerely hoped that the Church will more than double her former contributions to the great work of Foreign Missions.

Mr. Graham McFarland resigned as Clerk of Sharon Church, and Mr. William Sherman was chosen to fill his place.

Mr. Thomas Spetwell and his pretty new bride were at Church Sabbath.

Meeting of Society.

There will be a meeting of the ladies of the Village Improvement Society in the rooms of the Granville Commercial Club at 3:30, on Tuesday, March the 8th.

Bay Mare For Sale.

I will have for sale at 12 o'clock on the 4th of March in front of the Court House to the highest bidder, a Well broke bay Mare. W. T. Yancey.

Davis Has 'Em.

That Poultry and Garden fence that Davis sells is the heavy close mesh, and will hold anything from the smallest chicken to the most vicious bull. Price 4 foot, 35 cents rod and 5 foot, 40 cents per rod. Delivered in quantities of 40 rods or more.

Mother's Joy is made from pure Goose Grease, mutton suet, and other healing ingredients. The greatest thing known to humanity.

In order to sell them close we must sell lots of them. So it pays you to trade at Crenshaw's.
