THE SMALLPOX SITUATION
 No New Cases in Oxford and The Single Patient Nearly Well.
 An interview with Mayor Brummitt discloses the fact that no new case of smallpox has appeared in Oxford within the past ten days and that the one old case, that of the wife of Sam Slaughter colored, who ran a boarding house, is about well. The suspects, or rather those who were suspected of having been in probable contact with a patient, have not developed the disease and will soon be released with a clean bill of health. The Ledger man wanted to get a report from Dr. Watkins but that physician is away at the funeral of a relative.
 Likewise the reporter failed to see Dr. Sam Booth in reference to the situation in the county. The mayor said that a few days ago, there were five cases in the county and that he had not heard of any new ones.
 The doctors think the single Oxford case was caught from money given by a Durham colored man in payment for board. There is now no danger as most of the people here have been vaccinated and as the quarantine against Durham is properly observed. The police report that passengers from that city are all bringing the certificates that the law requires.
 All school children have been vaccinated and the majority of the grown folks as well. Dr. T. L. Booth has vaccinated over five hundred and the other physicians, though they have not yet been seen, have evidently made big records.
Everybody Should be Vaccinated.
 Some people have been afraid of being vaccinated on account of a report that there is danger of contracting other diseases from the virus. When a vaccination "takes" it does make the victim feel groggy for a day or two, but there is no danger. Until quite recently there was some foundation for the fear as the virus was taken from one person and injected directly in another. But more modern methods have done away with that dangerous way and the human virus no longer used. The present method is individual and sanitary. No one need fear it, and everyone should get some of it under his skin, if he has not already done so. In that way, smallpox can absolutely be stamped out.

 Had Entertaining Meeting on December 20th, Miss Susan Graham Next to Entertain.

 The program for this entertainment was arranged and conducted by Mrs. Hicks; Spanish Music being in order, according to the subject of the present year's study.
 In response to roll call each member present contributed an item of information bearing on Spanish music.
 An interesting sketch on Spanish music and Musicians was read by Mrs. John Webb, which was followed by an informal and very pleasant discussion of the artistic tastes of the educated Spaniard.
 It had been expected that Miss Eva Minor would give some numbers on the program, and her unavoidable absence from town on that afternoon was much regretted by the Club.
 All of the members present engaged in the singing of several Christmas hymns, after which the cordial hostess served delicious refreshments of cream and cake.
 Miss Sue Hall was a pleasant guest of the Club during the social after moth.
 The next meeting was announced to be held with Miss Susan Graham, on January 3rd.

A TYPEWRITER TEST THAT MEANS SOMETHING

Blindfold yourself. Have ten typewriters, of different make, placed in a row—a Monarch somewhere among them. Try each keyboard in turn. The machine with the lightest touch will be the

MONARCH Light Touch.

and you can locate it every time, no matter how its position be changed.

Just as the proper tools produce the best work, so does a responsive key action increase the efficiency of a stenographer. It saves her strength. Therefore she has a better grip on her work, is more accurate, more rapid, gets a greater quantity of work done. There is no "three-o'clock fatigue" where the Monarch is used, and a few days trial will convince you of this fact.

SEND FOR MONARCH LITERATURE.

Learn the reason for Monarch superiority. Then try the Monarch, to the end that you may know that Monarch merit rests in the machine itself, not merely in what we tell you about it.

LIGHT TOUCH MONARCH MACHINES may be purchased on the Monthly Payment plan. A post card will bring full information.
