For several years there has been much talk and complaint about the "pauper counties"in the State. Handicapped.

Englishmen use their hands comparatively little in conversation, but Frenchmen use them a good deal. Quaintly enough, Parisians have a very keen sense of the exaggerated way in which the southern Frenchman and the Italian help on what they have to say with their hands, and this accounts for the following story:

An Italian railway thief was caught redhanded in the train, handcuffed and brought to Paris. As he was walking out of the Gare de Lyon between two detectives a friend met him.

"Hello!" he said. "Where have you been this long time, and how are you?" The prisoner looked at him pathetically and shook his head.

"What's the matter?" said his friend. "Have you been stricken dumb?" The prisoner raised his handcuffed hands. "Very nearly," he said .- London M. A. P.
