when these fail?

when these fail? The majority then start on salts and purgative waters, then change to cathar-tic pills, etc. If you have gone through these various stages you know they were all useless, so far as permanent results go. Now you should try just once again, but try something practical and sensible, a remedy made and intended for the pur-pose you are trying to accomplish. Such a remedy made and intended for the pur-pose you are trying to accomplish. Such a remedy as thousands can testify, is guaranteed to be permanent in its re-sults. Its ingredients are such that by a brief use of it the stomach and bowel muscles are trained to again do their work normally, so that in the end you can do away with medicines of all kinds. That it will do this Mr. G. Y. Dodson of Sanville, Va., will gladly attest, and so will Mrs. S. A. Hampton of Portage, O. M. Cruppi stated that after five years of marriage there was a deficit in the Countess' fortune under the Count's management of \$8,-000,000.

Affidavits showed that the Count kept eight apartments permanently in different parts of Paris.

And the Court cut off Boni without alimony.

It was not long before rumors were afloat that the Countess de Castellane was about to unite herself in marriage to the Prince de Sagan. The Countess positively denied the report. She announced that she was going to sell all her French real estate and come to the United States to escape the assiduities of the "nobility". She arrived in New York on March 18, 1908, with her three chuldren. She declared that she had enough of married life.

MADE GOOD WITH THE PEOPLE.

Governor Woodraw Wilson Fullfilling Promises Made Before His Election.

Baltimore Sun.

Gov. Woodrow Wilson has triumphed over the old Democratic machine in New Jersey, thus gloriously vindicating his promises to the people and the confidence of the people that he meant what he said when he told them that he would take no orders from any boss if elected, and that if the party lash was to be cracked he would do the cracking. The campaign made by Dr. Wilson last fall was one of the most inspiring of recent political performances. He showed such ready familiarity with all phases of governmental affairs presented for discussion, and was so frank and outspoken in the manner in which he expressed himself to the people that his course may well stand as an example to be followed in future by those who wish to tread the path of high-class political procedure.

And the best part of the history of this scholar in politics is that he did not forget his promises when the votes had been counted and he was found to have been elected. He immediately set about doing what he had promised to do in the same fearless manner in which he had pursued his plan of campaign be fore election. As soon as the Legislature was found to be Democratic, James Smith, Jr., began to manipulate matters so that he might be returned to the United States Senate, of which he was at one time a member. Dr. Wilson the party stood pledged to elect James E. Martine to the Senate because he had submitted his candidacy to the Democratic primary and had received the votes of a majority of those who went to the polls. That reason failing to satisfy Smith, who persisted in his candidacy, the Governor-elect stat-ed plainly that he was opposed to Smith, independently of his support of Martine, because Smith was allied to those interests that strive to control legislation in a manner not for the good of the people. The fight made against Smith is of too recent occurrence and is too well known to readers of the Sun to be dwelt upon here. It was vigorous, outspoken, candid. It aroused the opposition of bosses like Smith all over the country, and stirred up criticism in every quarter and in every medium dominated by them. B ut neither of these, not all combined, could avail to stop the flight. Smith and his supporters sneered and snarled at first but finally they found that they were dealing with a real manone who overmatched them as much in courage and generalship as in intellectual equipment. Gradually, one by one, Smith's followers began to fall away from him and go over into the camp of the opposition. Still the boss and his fawn ing few fought on, slowly retiring but never giving up until, with a bare handful of their following left to them, they could not fail to rec-ognize the defeat that had been for some time plain to others, and so incontinently fled the field. Thus was one of the oldset and strongest Democratic machines in the country sent to the scrap-heap by the courage, the straight for-wardness and the devotion to his promises of one man who believes in the right of the people to rule and who is looking to the good of his State rather than to the advancement of individuals. The course of Governor Wilson in this matter should serve as an inspiration to others placed in like situa-tion to stand by their pledges to the people, relying upon the justice of their cause for vindication their course.
