ARE YOU DEAF?
Catarrh is Probably the Cause—Get Rid of the Cause.

If you have catarrh and have constant ringing noises in your ears look into the matter at once. It's a pretty sure sign that catarrh is spreading and is making its way through the Eustachian tubes that lead from the nose to the ears.

When catarrh gets to the ears partial deafness follows. If you have ringing noises in your ears go to J. G. Halls to day and get a HYOMEI outfit and drive out catarrh. To cure catarrh HYOMEI should be breathed through a pocket inhaler for about three minutes, four or five times a day. Just pour a few drops into the hard rubber inhaler and breathe it for a few minutes.

It kills the germs; soothes the irritation; heals the inflammation; stops hawking, spitting and snuffing. HYOMEI keeps the throat free from mucus and prevents crusts in nose.

The complete Hyomei outfit which includes the little indestructible hard rubber inhaler, a bottle of HYOMEI and simple instructions for use, costs \$1.00. Separate bottles of HYOMEI costs 50 cents at J. G. Halls who sell it on money back plan. Try it today for catarrh, coughs, colds or sore throat. Free trial bottle by addressing Booth's Hyomei Co., Buffalo, N. Y.
