The Farmer's Co-operative Union of Medical Lake, Wash., has formed a consumers' Company to offer set if possible, prevailing high prices. In order to do this they have bought a general store fully stocked with groceries, provisions and farm implements, the store being closed except to the members of the union, each of whom has been supplied with a key. Instead of keeping clerks and a cashier, each member is allowed to help himself to whatever he wants at any time, and to keep an account of his purchases turning in to the co-operative ones a month the amount due. It is thought without doubt that the venture will prove a success. This speaks well for the farming constituency of Washington. Would it not be well for the farmers of this community to note the above movement and follow the example.

One of the great forward movements of our country is found in the vigorous attempts now being made to right matters pertaining to the preservation of health through eliminating so far as possible the cause of disease and the prevention of contagion. There has been especial attention paid to this matter in large cities, but there is a woeful lack of attention being paid to it in many of our rural districts, in consequence of which neglect many lives are needlessly sacrificed. We would suggest that in case they are not kept in touch with the later and best methods for protection of contagious diseases that each community should appoint a committee to write to the Board of Health in larger towns, asking them to send their Book of rules, and Regulations, from which may be easily gathered all necessary information along these important lines, with this information might save many lives.

The fertilizer dealers must have a boom in their business this season as there was a lot of wagons going to town last week and bringing back fertilizer. It costs a lot to fertilize a crop these times.

Mr. J. L. O'Briant went down to Oxford last week and brought a nice young mule with him home, and left one of his mules there, so we will have to number him with the horse traders of this section.

Couldn't Apply the Recall. From the Portland Me. (Press).

A Bath man coming up the river to Bath in a motorboat ran aground in Upper Hell Gate. He jumped out to push the craft off into deeper water, leaving the engine running. He succeeded in pushing the boat offshore but failed to get on board of her. The man had to walk to the Woolwich ferry, and the next day found his boat at Westport. He thinks she would have gone all the way to Boothbay Harbor if the gasoline hadn't given out.

### ITCHING SCALP.

Get Rid of it in a Few Hours. There is nothing made that will so quickly rid the scalp of distressing itching as PARISIAN SAGE the hair dressing and beautifier.

J. G. Hall guarantees Parisian Sage to cure dandruff; stop itching scalp and falling hair, or money back, and sells it for only 50 cents a large bottle. It puts vitality into the hair and gives it a radiant luster.

It is the favorite hair dressing of refined women because it so quickly refreshes the scalp and not being sticky or greasy is delightful to use.

"I haven't been bothered with dandruff and itching scalp since I began using Parisian Sage."—Lena McGough, Wichita, Kas., June 8, 1910.

### Her Act.

"Well have you heard the news?" asked a friend, brightly. "My wife and I are going on the vaudeville stage. A clever friend has written an act for us, and we are going to put it on next week."

"Good work, old man," we exclaimed, enthusiastically. "What is it—a song-and-dance act, or a society sketch?"

"Neither—it is a monologue." "A monologue? I thought you and your wife were both in the act."

"We are. But—do you know my wife?"
