**And Still Eggs Are High!**  
The hens need a walking delegate. Grinding the beaks of the poor unprotected fowls seems to be the modern poultterer's long suit. Witness the modern working day of an unhappy hen on an up-to-date chicken farm, where as many as 18,000 eggs are hatched at one time.

Electric light has done it. The lights burn steadily until 10 p. m. At 4 a. m. they are turned on gradually until their full glare wakes the hens. The poultry then sit up and rub their eyes and think, "How short the nights are getting! Yet it's certainly daylight. Well—just one darned day after another!" Nights are short. The touching innocence of the hen victimizes it to the extent of getting only six hours' sleep a night. Eight-hour day? Why, the chicken works as long as the farmer!—The Nation's Business.

**Stopped Anyway.**  
While motoring with four girls my clutch got out of order and it was necessary for the girls to get out and push in order to get the car in motion. On the way back it was arranged that when we got to the home of the girl where they were all staying they would jump off while the car was moving slowly, thus to prevent my stopping and being stalled again. Imagine my horror when they all jumped off backwards and falling over in a bunch rolled into the ditch. I surely had quite a time explaining my seemingly ungentlemanly act to the girls' parents, who had witnessed the incident from the porch.—Exchange.

**Brazil Seeks Experts.**  
According to advice from Commercial Attache J. E. Phillipi, at Rio de Janeiro, the government of the state of Minas Geraes, Brazil, has sent to the United States to contract for the services of one expert in the cultivation and production of cotton; two experts in fruit culture, including vineyards; three grain experts, one expert in tobacco culture, two live stock experts, including one veterinarian, and one dairy expert. These men will be employed as traveling teachers in the interior districts of the state of Minas Geraes.

**Dollars and Cents**  
Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months. adv

**COULD NOT WALK UP OR DOWN THE STAIRS**

**Los Angeles Woman Suffered Six Years From Rheumatism—Soon Relieved By Tanlac.**

"I had rheumatism so bad that life was simply miserable for me, but Tanlac has entirely overcome my trouble," said Mrs. Martha Asbach, of 2226 1/2 Duane St., Los Angeles, Cal.  
"For the past six years I was in such a wretched condition I can hardly understand how I held out as

long as I did," she continued. "I had rheumatic pains in my knees so bad that it was impossible for me to step up or down the stairs, and my hands were so swollen and stiff it was all I could do to hold the broom or dishes. At night I simply ached all over so bad I could not sleep, and in fact, I suffered all the time night and day. I became very nervous and worried so much over my condition that I became very despondent. I tried all the medicines I could hear of but none of them did me any

good until I got Tanlac. I was overjoyed to find that it more than met my expectations. All signs of the rheumatism has left me and I am back doing my housework for the first time in several years. My nerves are as steady as they can be and I sleep all night long and never wake up till morning. I haven't felt so fine in years and it certainly is a pleasure for me to tell everybody about Tanlac."  
Tanlac is sold in Oxford by J. N. Pittman and druggists everywhere.
