

**"IS GRANDEST ON EARTH" SHE SAYS**

**Mrs. Daley Gains Seventeen Pounds Taking Tanlac—Thought Case Was Hopeless.**

"They said I couldn't live more than six months longer, but I'm still here and feeling fine," said Mrs. Mary Daley, of 530 Oak St., San Francisco, Cal.

"I have actually gained seventeen pounds since I began taking Tanlac," she continued, "and to look at me one wouldn't think that for several months I was unable to do my housework. I suffered from gastritis all the time, would bloat terribly and always felt miserable. I had no appetite and felt nauseated all the time. I was so nervous the least little noise would start me and it was almost impossible to get a good night's sleep. I had night sweats and was so run down and weak that the slightest exertion would almost exhaust me completely. I lost weight dreadfully and was told that I couldn't live six months at the rate I was then going down hill.

"Nothing helped me until I began taking Tanlac and, I honestly believe it is the finest medicine in the world, for it has made me just like a new person. My appetite is splendid and I never have the slightest indigestion any more and I never enjoyed such fine and refreshing sleep in my life as I do now. My house has eight rooms and I do all the work with ease. Tanlac has been a god-send to me and I would be selfish not to tell others about it."

Tanlac is sold in Oxford by Frank F. Lyon and druggists everywhere.

**Where the Fault Lay.**

As the Irish police recruit strolled along on his first turn of night duty, loud yells of "Fire" rent the air. He bolted quickly to the spot, and found a house well alight, with a man half hanging out of an upstairs window.

"Help! Help!" he yelled. "If I jump, will you catch me?"

"Sure, an' Oi will!" replied the policeman readily.

So the man jumped, only to crash to the ground and lie there stunned. When, a few minutes later, he recovered consciousness, he looked up at the constable reproachfully, and murmured feebly:

"I thought you said you could catch me?"

"Begorra!" replied the Irishman. "Oi was only waiting for yez to bounce, an' Oi'd have had yez!"—London Answers.

**Egyptian Women Prospering.**

The fellahen of Egypt, for centuries the most ignorant and improvident of serfs, has ridden into prosperity on the tidal wave of reconstruction, and with him his long-suffering wife. Still, as in the days of Christ, one may see him on his donkey, while his wife, with her heavy burden on her head, trudges behind. Yet there is a real, if invisible change in their relations.

Through the sudden rise in the price of cotton from \$20 to \$100 a kantar since the beginning of the war, the housewife has been enabled to make long-neglected purchases and has been enabled to display her native shrewdness in bargaining and financial matters. It is she who markets all the products of the farm.

**Guns on Airplanes.**

One of the inventions of the great war was the art of shooting a machine gun through the propeller of an airplane without danger of hitting the propeller blades. The French aviator, Roland Garros, was reported to be the first man to employ this device, which was used by hundreds of air fighters throughout the war. Before that time the machine gun was mounted above the aviator so as to fire over the propeller blades. Machine guns may also be mounted in a revolving turret or in the rear of the airplane. The Browning machine gun will fire 20,000 shots at the rate of 600 per minute.

**Pottery-Making Simplified.**

An inventor has patented an electrically driven machine which makes the rough clay boxes in which pottery is subjected to heat in kilns, work heretofore done slowly by hand.

—Jerome Isaacs, a Baltimore traveling salesman, is held at Danville on a charge of passing as an agent for the government secret service and robbing a woman of \$200 and assaulting another woman.

**Why Colds are Dangerous.**

You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the dangers of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.

—Rub-My-Tism is a great pain killer. It relieves pain and soreness caused by Rheumatism, Neuralgia, Sprains, etc.

COLLEGE STREET. . . . . OXFORD, N. C.

**FORDSON TRACTOR DEMONSTRATION**

**SATURDAY MORNING, 10 O'CLOCK MARCH 13TH**  
At the Farm and Home of T G. Currin, two Miles west of Oxford.

We believe the Fordson is the most practical Tractor so far put on the market. That it is the lowest priced in first cost, simplest in construction and operation, the most economical in fuel consumption, the most powerful and efficient for its size, and that it will prove to be the most popular when the Farmers of the county become better acquainted with its performance.

Wherever they have been introduced they are selling to beat the band. They have been on the market for about two years, and eighty seven thousand of them are now in possession, and use of eighty-seven thousand Fordson Boosters.

Every owner is a booster, and if you doubt it ask the man who owns one. There will be three tractors in this Demonstration, pulling plows, harrows, pulverizers and various other operations. Doing both draw bar and belt work.

We want you to be on hand and see yourself how it does the work whether you have an idea of buying one at this time or not. You will want one sooner or later, for with the scarcity of labor, and the high prices for Farm products, it stands you in hand to increase your production at the least expense, and the Fordson Tractor will speed up your production and make yours a better Farm.

If Saturday, March the 13th is a rainy day, or the land unfit to work we will not hold the Demonstration on that date, but will name another and advertise it.
