"Can The Dollar Come Back?"
"Can The Dollar Come Back?" is the title of a very interesting pamphlet by Arthur Wyman of the Chicago Railway Equipment Co.

The dollar sells today at a premium in more than half the world. It is backed by more gold than any other currency that exists. It is the most stable piece of money that circulates, and its character, like that demanded of Caesar's wife, is above suspicion.

Why this terrific demand to bring the dollar back? Back to what? Its old purchasing power? Why, the march of civilization is a history of the decreasing power of the purchasing medium. As well talk of sweeping back the tides of the seas as of keeping the purchasing power of a coin stationary. It can not be done, progress would be harnessed to stage coaches.

The dollar is never "going back" to what it was before the war. Civilization increases the wants of men; men's wants raise prices. There come the great crises when mankind plunges forward 50 years in 10. The horrible tragedy which took its toll of human blood toppled over empires and changed the face of the whole earth touched, too, the media of barter everywhere, and that influence is coined into the very metal which circulates. It could not have been otherwise.

Why, then do men chase shadows, and seek by edict to put the dollar back where it was? They might better spend their time speeding the wheels of production and bringing it about that an honest day's work shall be given for an honest day's wage. They need not worry about the dollar. It will automatically measure up to the conditions of the day. The trouble is not an inflated currency but inflated idleness, and the cure for that is not found in legislative nostrums.

Mr. Wyman has the same idea about work; he looks to it to bring the dollar back. But the greater the industry of the nation the more money required to finance it, and nothing could be more false than the calm assumption that dear dollars and hard work.

THIS MAN INTENDS TO KEEP IT IN THE HOUSE

"In May or June, 1913, I sent you and got four bottles which were worth many dollars to me. They enabled me to go to work again. I had lost 40 pounds, but these 4 bottles of May's Wonderful Remedy for stomach trouble gained back all I had lost and I feel like a new man since. I shall keep in the house all the time." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

The Virginia Legislature has put a price on whiskey distilleries and a law has been enacted providing a bounty of \$50 for the discovery and destruction of an illicit distillery.
