**China's Tea Industry.**  
Indications are that the Chinese government intends to make every effort to encourage the tea industry in that country and to increase China's tea trade with foreign countries, and the Peking cabinet recently decided to establish a tea bureau under the ministry of agriculture and commerce. It is stated that the tea industry of China is not keeping pace with the world's increasing consumption of tea, and while China is still holding its trade in the finer qualities, India and Ceylon have practically captured the market from China as to the common black teas.

**Bold Chinese Bandits.**  
Bands of kidnapers recently have caused much alarm in Tanchowfu, Shantung, China. Operating in groups of from 30 to 50 they have carried away and held for ransom wealthy Chinese for whom they have obtained as much as \$50,000 in some cases. Ten citizens were kidnaped in October. Promises to pay ransoms have been exacted by torture. Troops have tried to capture the bandits, but have failed. It is believed the kidnapers came from Dalny, crossing the Gulf of Pechili in boats in which they escaped with their captives.

**Spanish Licorice Industry.**  
The manufacture of licorice extract and paste is an important Spanish industry. This is a comparatively new industry, as formerly the root was exported unmanufactured. Over 6,000,000 pounds of the root were exported in 1918 and more than 600,000 pounds of extract and paste.

The pedigree Jersey cow belonging to Judge D. C. Hunt was taken sick Tuesday and died a day later in great agony. This was the finest cow in the county. Admirers of pure bred stock had offered Judge Hunt several hundred dollars for the cow, and his answer was to the effect that there was not enough money to buy her, meaning, of course, that he did not want to sell the cow.

## FEELS BETTER THAN SHE EVER EXPECTED

**Petersburg Woman Would Like To Tell The World How Tanlac Helped Her.**

"I feel just like a different person since I started taking Tanlac, and would be glad to tell the whole world what it has done for me," said Mrs. S. A. Harris, 111 North Dunlop street, Petersburg, Va.

"For five years," continued Mrs. Harris, "I had suffered from indigestion. My appetite would come and go—one day eating heartily and the next unable to eat a thing. I was actually better off when I did not eat, for everything I ate disagreed with me. After every meal I would feel all stuffed up and have such intense pains around my heart and in my chest I could hardly breathe, and I could not get a long breath at all. I had severe headaches, and at times became so dizzy I could scarcely stand up. I was so nervous I could not sit still a minute, and slept very little, and when I did manage to doze off I had such horrible dreams that often I would wake up almost frightened to death and my heart beating like it would jump out of my body. I also suffered terribly with rheumatism in my knees, which pained me so I could hardly walk and at times I got vast going at all.

"My husband had been taking Tanlac with fine results and advised me to try it. Well, I took his advice and am glad to say I feel better today than I ever expected to feel again in my life. I eat heartily every day and never have a sign of indigestion; I never have that stuffy feeling any more nor any trouble in breathing. I have not had a headache or dizzy spell since I started taking Tanlac; I sleep well without having bad dreams and always get up feeling rested and ready for my household work, which I look forward to with actual pleasure. I am certainly free of the rheumatism and can get about as well as I ever could. I am only too glad to say a good word for Tanlac, as I think it is perfectly grand."

Tanlac is sold in Oxford by Frank F. Lyon and in Stem by Stem Drug Co.
