**REPAIRING U-BOAT DAMAGES.**  
If British shipbuilding has not yet reached pre-war figures the world has done wonderful things in ship production in the last twelve months. The total tonnage launched was 7,144,540, according to Lloyd's Register, and the British share was 1,620,000 tons. The feature of the returns is the expansion of shipbuilding in the United States and in Japan. The former appears at the head of the table with 57 per cent. of the world's output, and more than twice the tonnage built in the United Kingdom. Japan, with 611,800 tons launched, has built more shipping in one year than it did in the 22 years to 1913.  
Far-Seeing Woman Reformer.  
In noting the fact that Susan B. Anthony was born a hundred years ago, it is interesting also to remember that every considerable reform of which she was an advocate has come to pass, says the New York Sun. She fought for the abolition of slavery, for total abstinence and for equal suffrage. Slavery disappeared when she was still in her most active years. When she died, in 1906, many of the states had agreed with her views on prohibition and votes for women.

Any driver of any motor vehicle violating any of the provisions of this ordinance shall be fined \$10.00. Adopted May 11th, 1920.  
T. G. STEM, Mayor.

**REPAIRING U-BOAT DAMAGES.**  
If British shipbuilding has not yet reached pre-war figures the world has done wonderful things in ship production in the last twelve months. The total tonnage launched was 7,144,540, according to Lloyd's Register, and the British share was 1,620,000 tons. The feature of the returns is the expansion of shipbuilding in the United States and in Japan. The former appears at the head of the table with 57 per cent. of the world's output, and more than twice the tonnage built in the United Kingdom. Japan, with 611,800 tons launched, has built more shipping in one year than it did in the 22 years to 1913.  
Far-Seeing Woman Reformer.  
In noting the fact that Susan B. Anthony was born a hundred years ago, it is interesting also to remember that every considerable reform of which she was an advocate has come to pass, says the New York Sun. She fought for the abolition of slavery, for total abstinence and for equal suffrage. Slavery disappeared when she was still in her most active years. When she died, in 1906, many of the states had agreed with her views on prohibition and votes for women.
