LOW PRICES IN EASTERN CAROLINA Road to Brantwood and Other Sales Are Stopped and the Weed Hauled Home-

Growers To Take Concertd Action To Keep the **Crop Off the Markets.** 

The tobacco growers in Eastern North Carolina are mad and disheartened because of a fifty per cent reduction in the price on Tuesday, the opening day, as compared with last year. Greenville warehouses closed shortly after opening and angry farmers threatened violence if the sales continued. Sales were also discontinued at Farmville and Ayden, but the larger markets remained open though the price slumps caused a lot of the weed to be hauled back home and many indignation meetings were held.

The movement to organize for holding for fair prices continues to gain headway and yesterday Johnston county farmers joined Wilson and Vance county tobacco growers in the organization of a State-wide and Southwide organization to take steps for holding tobacco off the markets.

Wilson, the largest bright leaf market in the world, opened with a million pounds on hand in its six warehouses. Seemingly the price has dropped out and at noon the growers held a mass-meeting in the court house and adopted resolutions calling on the tobacco farmers of the State to keep their tobacco at home until prices improve. The average for the Smithfield market being about one-third of last year, brought consternation to both farmers and business men, and here again a mass-meeting was quickly called. Congressman Edwaard Pou and other leading citizens promised their support of the movement to secure a fair price for tobacco or else keep it at home. With a quarter of a million pounds marketed at Rocky Mount, sales were the lightest on record, the average being about 20 to 25 cents, which was the average for the easern markets, as compared with 30 cents for last year, estimated. Kinston took on six hundred thousand pounds and Goldsboro a million and while grave dissatisfaction was expressed over the prices paid, there were no rejections reported. Leaders counceled discretion with the hope that conditions will improve.

Mr. Andrew Jamison attended the opening sales at Kinston Tuesday. He states that there is half enough tobacco in Eastern Carolina to supply the trade for the next twelve months. There being an overproduction and the inability of foreign countries to buy tobacco, Mr. Jamison is fearful that the prices will be much lower than last year.

It is estimated that the present crop in Granville is one-third more than it was last year. Quite a number of well-informed tobacco men express the belief that the crop wil bring as much as a whole this year as it did last year. While there is some consolation along that line, it must be remembered that the present crop cost the farmer at least 20 per cent more to produce.
