- August 29.—Henderson at Oxford.
- August 30.—Oxford at Henderson.
- August 31.—Henderson at Oxford.
- September 1.—Oxford at Henderson.
- September 3.—Oxford at Durham.

**When a Cat Is Not a Cat.**

(New York Herald)

At this season, when fair woman begins to wear furs in earnest, non-furbearing man sometimes wonders not only at the names of the skins. Some fellows go all their lives without knowing what kolinsky is; others learn to know wombat from ermine. There have been many changes since the days when the geography told us that the American

fur animals were "beaver, bear, marten, mink, lynx, fox." It never mentioned civet cat or genet. There is a genet sitting in City Hall Park as we write. It thinks, if it thinks self-consciously at all, that it is a black and white cat of humble origin. Yet every furrier passing looks upon it as a potential genet of the trade. There are such things as genuine genets—animals very like civet cats—but the quadruped of the back

fence is always a genet when his hide enters peltry.

—Enforced thrift will cause Germany to grow prosperous as she pays her debts. But because the prosperity will go principally to those who labor, dissatisfaction will grow as the debt disappears. Then, to prevent revolution, the new junkers will look around for another war.

—May the new anti-prohibition fight be considered as a campaign against the bootlegger?

**TWO MINUTES OF OPTIMISM**

(By Herman J. Stitch)

"Picking Up!"  
 "How's business?" I asked a shoe man the other day.  
 "Picking up," he answered cheerfully, "picking up."  
 "How's business?" I asked a dry goods man.  
 "Picking up," he said, "picking up."  
 Then, one after another, I sought me out a representative steel man, railroad man, bond man, automobile man, produce man, cotton man, advertising man, export man, building man, employment man, retail man, wholesale man, and a dozen other kinds of men, and to each one I put my question:  
 "How's business?"  
 And in practically every single instance, the tenet of the reply was: "Picking up."  
 Things are picking up.  
 Even Uncle Sam's business is "picking up"—one of his men just told me that income tax payments so far have brought into the federal treasury \$100,000,000 more than was expected.  
 Any my friend the farmer reports that while the last season hit him hard, almost knocked him out, in fact, that with labor flocking back to the fork and the plow in multitudes, and with the certainty of getting experienced, skilled men at sensible wages, he sees a strong chance for making a more than comfortable living on the old place.  
 So, it is time the "Calamity Club" realized the foolish futility and ridic-

ulousness of its senseless worry, and quit howling.

The worst has happened, the tide has changed for the better, the darkest hour has merged into the dawning light—and the man who talks gloom and pessimism is simply advertising that he is deaf, dumb and blind to the signs of the times. He ought to see a psycho-analyst.

"Picking up!"  
 It is so—you can keep the ball a-rolling—talk it—act it—speak it. Each according to his own, buy more—employ more—work more—advertise more—manufacture more—do your bit.  
 Faith, facts and works can knock the stuffings out of fear.

**IN HARD LINES**

"I could not work at all and had to take to my bed with a high fever due to intestinal indigestion, gases in my stomach and pain in my right side. I had spent my last cent for doctors and medicine, which gave me no relief. I was in despair. A lodge brother gave me a bottle of Mayr's Wonderful Remedy, and the first dose relieved me. Thanks to this medicine I am now in the best of health." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince you—never refunded. Sold in Oxford by J. N. Pittman, and all leading druggists.

—Few women will agree with Mme. Curie when she says science is not unkind. They will point out that science permitted her to have her picture taken in Northampton, Mass., in the "pigeon-toed."

**GIRLS! BLEACH SKIN WHITE WITH LEMON**

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents. shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.  
 Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

**I'd walk a mile for a Camel**

The pleasure is worth it. There's no substitute for Camel quality and that mild, fragrant Camel blend.

The fellow who smokes Camels, wants Camels. That's because Camels have a smoothness, a fragrance and a mildness you can't get in another cigarette.

Don't let anyone tell you that any other cigarette at any price is so good as Camels.

Let your own taste be the judge. Try Camels for yourself. A few smooth, refreshing puffs and you'd walk a mile for a Camel, too.
