VAGRANTS COMMANDEER A FREIGHT TRAIN
They Style Themselves "Industrial Workers of the World."
Denver, May 29.—A band of 27 I. O. W.'s were placed in jail here yesterday after they had attempted to commandeer a Union Pacific freight train and run it to Denver from Cheyenne, Wyoming. A squad of policemen met the train outside the city when they learned the men were on it.
At police headquarters several of the men said they had formed a band outside of Cheyenne and had decided to travel South together. They said they had been driven out of Cheyenne.
The men were charged with vagrancy.

TOBACCO MEN WILL MEET IN WASHINGTON ON JUNE 30TH
Mr. W. Z. Mitchell, Member of the Executive Committee, Will Attend This Important Meeting.
The annual meeting of the Tobacco Association of the United States will be held in the auditorium of the Powhatan hotel, Washington, the three days commencing June 30. The place and time for the meeting has just been fixed by the executive committee of the association of which T. M. Carrington, of Richmond, is the president.
This meeting will be the first held by the association in the National Capital, and the convention this year is expected to be one of the most important ever held by the organization, because of the condition of the tobacco business.
Mr. W. Z. Mitchell, proprietor of the Banner Warehouse, is a member of the executive committee of the Tobacco Association of the United States, and will attend the meeting.

THIS IS A GEM FROM THE CONGRESSIONAL RECORD
Congressman Tom Williams (Rep., Ill.) was discussing Civil Service in connection with the Postoffice Department, when he was interrupted thus:
Mr. Garrett (Dem., Tenn.)—Has the Postmaster General (Mr. Hays) ever stood a civil service examination? (Laughter.)
Mr. Williams—No. And while I have the highest respect for the distinguished gentlemen who constitute the Cabinet of the President, yet, in my opinion, if they had been required to pass a civil service examination such as these rural letter carriers and fourth-class postmasters are required to pass, outside of Hughes and Hoover, none of them would have been able to get on the eligible list. (Laughter and applause.)

THREE HUNDRED ARMED MEN HUNT SLAYER OF SHERIFF
Chattanooga, Tenn., May 29.—Three hundred armed Georgians are scouring the mountains around Centerville in search of two men wanted in connection with the killing of Sheriff A. G. Catron, of Walker county, early Saturday when he attempted to arrest alleged whiskey runners.

PAST WEEK WAS BAD ON GROWING CROPS

Cool Nights Especially Unfavorable To Rapid Growth In State.

The following summary of the crop situation throughout the State for the past week is issued by the State Department of Agriculture as of May 27. It is compiled by Frank Parker, statistician in charge of the Co-operative Crop Reporting Service:

Grains.
The wheat belt shows improvement, although rust is reported as bad in Piedmont area, after attacks of the hessian fly. Corn has improved in all sections, after being late, "Puny" and much replanting. Too cool for corn. Oats show good growth and large increase in eastern counties. Harvesting in progress, earlier than usual.

Cotton.
After much replanting, poor stands and slow sickly growth cotton is the wing better color and fair stands of many sections. The acreage reduction is still indefinite, but probably nearer to last year's than generally reported.

Tobacco.
The cool and wet conditions have retarded tobacco, but the recent warm weather caused some improvement.

Specials.
Farm labor is still plentiful in eastern counties. Fertilizers will average about half of last years amount. The drop in prices came too late to allow for the farmers needs, and after making up their minds not to use fertilizers, are counting little on top dressers. Farmers are truly in a quandary as to their next move, what and how much to plant, and how and when to sell. These very features indicate that their greatest need is for something that will relieve the strain and establish confidence.

COLEY MAKES HURRIED EXIT FROM HIGH POINT

Citizens Become Dissatisfied With the Alleged Healing Methods Of South Carolinian.

High Point, May 29.—Traveling in his own automobile, Prof. B. A. Coley, of Columbia, S. C., who claims to be a psychologist and healer, shook High Point dust from his heels and left for the South Carolina city, carrying with him, it is said, thousands of dollars which he is alleged to have acquired during the two weeks operations of his "faith" in this vicinity.

Following the professor when he left the city were local citizens in automobiles apparently bent on putting a stop to the practices of the South Carolina man. The machines returned to High Point after giving chase for several miles.

Professor Coley came to this city two weeks ago and during the stay here he is said to have "treated" many of citizens, among whom were many prominent High Pointers.

EARLY MARKETS GET IN SHAPE FOR THE SEASON

The Southern Tobacco Journal Says There Are Too Many Markets.

The South Carolina markets are getting in shape for the coming season. We do not know of any new markets that will be opened down that way this year. As for that, there are markets enough and if we may say so, there are too many for the good of all. The same thing applies to Georgia. Perhaps there will not be more than six or seven million pounds of tobacco produced in Georgia this year, and two good markets are entirely sufficient to handle the situation. It costs money to send men to all little markets, and some one has to pay the bill. The big concerns have shown a liberal spirit in doing all they can to send buyers to all markets, big and little. These companies furnished buyers to practically all markets when men were scarce and hard to secure. At the same time we hope all markets will do well the coming season.—Southern Tobacco Journal.

AN UNLAWFUL PRACTICE

Your Attention Is Called To Chapter 84, Laws Of 1915, Section 19.

The Public Ledger learns on good authority that the fish in some of the streams of Granville county are being dynamited by unscrupulous parties. Thinking that some of our people are not familiar with the law, we call their attention to Chapter 84, Laws of 1915, Section 19, which reads as follows:
"It shall be unlawful to place in any of the waters of this State any dynamite, giant or electric powder, or any explosive substance whatever for the purpose of taking, killing, or injuring fish. And, anyone violating this section, shall, upon conviction, be fined not less than \$100 and imprisonment not less than thirty days."

CONFERENCE ON YOUNG PEOPLE'S WORK NEXT FRIDAY EVENING

All Christian Endeavorers and others interested in this phase of church work are invited to be present.

—Misses Lula Pratt of Raleigh, Lucy Culpepper of Wilson, Mary K. Webb of Tally Ho, Mabel Fate of Old Fort, Mildred Harrington of Carthage, Marie Winslow of Hertford have returned to their homes after teaching in Our Graded Schools.

NEW BALL PARK BEING MADE READY IN SOUTH OXFORD

Stockade, Grandstand and Bleachers Are Now Going Up.

Promoters of the Oxford baseball club have acquired a ten year's lease on five acres of land on Coggeshall street, in South Oxford, which is now being inclosed with a fence eight feet high, and a modern grandstand to seat one thousand people and bleachers of equal proportion will be completed and ready for use on Saturday, June 11.

The park, which is 400 feet square and as level as a floor, has been acquired under a ten year's lease by a stock company. It will require an expenditure of \$2000 to convert it into a ball park with all modern comforts.

The location is an ideal one and easily reached from the business section of Oxford. Starting at the Court House you go South to the end of Main street, turn west on Front street and go one square and then go two squares south on Coggeshall street on the park.

The new diamond and playing field will be almost perfectly level, and will provide an ideal playing ground for the games of the Central Carolina League.

DR. KILGO WILL ADDRESS THE FARMERS OF GRANVILLE JUNE THE SECOND

Business and Professional Men Will Attend the Meeting.

A meeting composed of representative business men and farmers was held in the Chamber of Commerce Monday, May 26, with a view of creating renewed interest in the co-operative marketing contract in Granville county.

An invitation was extended to Dr. Kilgo to come to Oxford and explain conditions to the farmers and the business men. Dr. Kilgo has accepted the invitation and will speak in the court house on June 2nd. An invitation was extended to all the farmers, business and professional men and they are urged to be present. Dr. E. T. White, one of the speakers, expressed himself as being in favor of the movement.

A meeting of the various township committees of the Tobacco Growers Association will be held in Oxford Friday, June 3rd. Dr. Kilgo will also be present at this meeting. Later a mass meeting will be held and Dr. Clarence Poe will speak to farmers and business men on co-operative marketing, followed by an intensive campaign to sign the pledge. It was the sense of this meeting that Granville should not be a slacker county. The goal is 75 per cent of signers by July 1.

Walter S. Buchanan, National aide-camp, Army and Navy Union of the United States, wants the names of all ex-soldiers who served in the War with Spain, at home or abroad, or those who saw service in the Philippine Insurrection or the China relief expedition and their widows. Congress passed laws of the utmost interest to soldiers and if they will send name and address to Walter S. Buchanan, National Aide-Camp, Army and Navy Union, Route 2, Louisa, Va., he will be glad to advise them fully as to their rights under the new law. Prompt action will mean the possible saving of money as the pension commences from the filing of claim. Mr. Buchanan wishes to assist his comrades in every possible manner. MAY OPEN TOBACCO MARKET ON SEPT. 1

Business Interests Understood To Be In Favor Of This Step.

The Henderson Daily Dispatch says that the indications are that the Henderson and other tobacco markets in this section of the State will be opened next fall just about two, or three weeks in advance of the usual date. The Dispatch says: "The advance of the opening date to September 1, is understood to have been discussed not a little among the business men of the community, and it is thought likely that a considerable element of the farmers would also not be averse to an early beginning of the season. Business interests of the city are reported to be highly in favor of the early start, and the banks are represented as being in sympathy with the movement."

"It is thought that the sooner the market does open, the sooner will the channels of money and credit become unclogged as the crops begin to move and the harvest is disposed of."

BASE BALL

OXFORD BASEBALL TEAM WON FOUR OUT OF FIVE GAMES LAST WEEK

The Oxford Base Ball Club wound up a successful week of the National pastime by defeating West Durham 4 to 0 at Horner Park Saturday afternoon. Collier was in the box for Oxford and he handed the Durham lads a well-earned shutout.

Four scattered hits were all they made off his delivery. Oxford's fast infield worked like clock work, and the outfielders had a busy day, Johnston in left field having six put out and one assist. Ellis' three base drive was the longest hit of the day. Stringfield had a perfect day at the bat. The game was cleanly played and the entire absence of argument or protest of the umpire's decisions was pleasing to the spectators. The box score tells the tale:

DUKE COFFEY WAS NOT KNOCKED OUT

Henderson Was Erroneously Informed and Gladly Makes Corrections.

(Henderson Dispatch)
Yesterday's account of the baseball game in Oxford on Wednesday afternoon, when Henderson defeated Oxford 4 to 1, appears to have contained one or two bad breaks.

The official score which was furnished to the Dispatch showed Kreeps in the line-up as well as Coffey, and there was no explanation to show that Kreeps was run in as pinch hitter, which really was the case. It was assumed from the score as furnished the Dispatch that Coffey had been knocked out of the box, an occurrence which few people hereabouts ever have known to be the case. Coffey is regarded as one of the safest, steadiest and most reliable pitchers in any amateur team in this part of the State, and while it was a genuine surprise to hear of the possibility that the Stovall chap was pounded out of the game, nevertheless, the box score seemed to indicate it, and that is responsible for the statement appearing in yesterday's paper.

The Dispatch makes its own apology for an error not its own fault, feeling that Coffey is due the credit for the performance he put up.

CREEDMOOR INVINCIBLES DEFEATS WILTON TEAM

The Creedmoor base ball team defeated the Wilton team on the Wilton grounds Saturday, May 28.

The game was featured by the pitching of Phillips for Creedmoor, fanning ten men and allowing but two scattered hits, while his team mates hit for fifteen safeties off Jenkins and Speed, the score being 10 to 0. Creedmoor has a good ball club, and is developing fast into a winning team.

Among the features of the entertainment to be given by the Henderson warehousemen will be a big barbecue to be served the visitors in the main exhibit hall at the old fair grounds.

THE WORST ACCIDENT AVIATION HAS HAD

The Airplane Was Caught In A Terrific Wind and Electrical Storm.

Washington, May 30.—Seven men, five of the army and two civilians, were killed in the wreck of an army Curtiss-Eagle ambulance airplane near Indian Head, Md., 40 miles southeast of Washington, Saturday evening in a terrific wind and electrical storm.

The dead.

Lieut. Col. Archie Miller, U. S. A., M. H. Washington; Maurice Connolly, of Dubuque, Ia., former member of the house of representatives; A. G. Batchelder, of Washington, chairman of the board of the American Automobile association; Lieut. Stanley M. Ames, of Boston, pilot of the wrecked plane; Lieut. Cleveland W. McDermott, Langley field, Va.; Lieut. John M. Pennwell, Langley field, Va.; Sergeant Mechanic Richard Blumenkranz, Washington.
Brigadier General William Mitchell, assistant chief of the Army Air Service and formerly in command of all American air forces in France, who witnessed the storm from his plane in the area of the wrecked plane, said:

Eye Witness.

"I estimate that the wind must have been blowing at least 100 miles an hour up there, for my plane with the engine full open should have been doing 120 miles an hour and actually was hardly making headway against the wind. I have been in some bad storms in the time I have been flying, I have seen a storm under me blowing trees down in its path, but I never was in such a storm as that before."
"We recrossed the Potomac and raced almost back to Richmond, then out in between two storms, doubled back over Indian Head and reached Bolling Field at 7:20."
